## **Soviet Agriculture An Assessment Of Its Contributions To Economic Development:**

**Soviet Agriculture** Harry G. Shaffer, 1984      The Economic Development of the USSR Roger Munting, 2023-06-14 The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries      **Agrarian Policies in Communist Europe** K.-E. Wädekin, 2024-09-02      The Politics of Hunger John W. Warnock, 2019-07-19 Originally published in 1987 This important and provocative book explains the persistence of hunger poverty and the lack of balanced development in many countries and the central role of agriculture in economic development Most theories of agricultural development are based on the experiences of western Europe and the United States while the two models for successful late development have been Japan and the Soviet Union This book surveys the evolution of agriculture under colonialism in Latin America Africa and Asia and concludes that this long period distorted the development prospects for these areas and retarded the production of food Under strong state capitalist governments a few underdeveloped countries have broken the colonial patterns of development However other post revolutionary societies are having far less success because of economic blockades and outside military intervention While the primary focus of the book is on the short run problems of inequality the author examines the long run ecological and resource constraints to a sustainable food system and raising the standard of living in the underdeveloped world      **Prospects For Soviet Grain Production** Brigitta Young, 2019-06-04 This book challenges the conventional view that the present low yields of the Soviet agricultural system result primarily from its institutional structure demonstrating that other factors are of equal or greater importance Ms Young examines two alternative explanations first that weather is the dominant force underlying trends in Soviet grain      *Routledge Library Editions: Food Supply and Policy* Various, 2021-08-29 Reissuing works originally published between 1952 and 1999 this set provides a wide spread of scholarship on issues surrounding food provision throughout the world The earlier books look at import and export changes during times when previous trade routes and options changed while later ones mostly consider food assistance policies poverty and famine and welfare These books cover third world studies economics anthropology politics environment agriculture and population studies as well as food and nutrition      *Planning and Profits in Socialist Economies* Jean-Charles Asselain, 2013-11-05 This study of economic reforms throughout Eastern Europe covers the history of attempts at decentralization The book Describes the centralized model and compares its requirements with the realities of socialist countries Discusses the economic policies of the post Stalinist period Examines the origin of the reforms which began in 1956

culminating in the Soviet economic reform of 1965 and the rehabilitation of profit Countries covered include the former USSR the former East Germany and Hungary **Russia and Eastern Europe, 1789-1985** Raymond Pearson,1989

Bibliography of European Economic and Social History Derek Howard Aldcroft,Richard Rodger,1993 This bibliographical guide contains 10 000 references to the economic and social history of 30 European countries during the period 1700 1939 More than 3000 periodicals have been consulted to obtain references as well as books edited collections and conference proceedings The information is listed in categories such as industry agriculture finance migration labour conditions urban communities and organizations Full publication details are included so that references may be located easily **An Analysis**

**of Factors Influencing Soviet Grain Production** Brigitta Young,1982 Reluctant Cold Warriors Vladimir Kontorovich,2019-09-02 Scholars attribute the collapse of the Soviet Union in part to the militarization of its economy But during the Cold War economic studies of the USSR largely neglected the military sector of the Soviet economy its dominant and most successful part This is all the more puzzling in that academic study of the Soviet economy in the US was specifically created to help fight the Cold War If the rival superpower maintained the peacetime war economy why did experts fail to tell us when it mattered Vladimir Kontorovich shows how Western economists came up with strained non military interpretations of several important aspects of the Soviet economy which the Soviets themselves acknowledged to have military significance Such civilianization suggests that the neglect of the military sector was not forced on scholars of the Soviet economy by secrecy it was their choice The explanation of this choice in Reluctant Cold Warriors raises many questions about the internal workings of economic Sovietology and its intellectual and political background Are peripheral academic fields mimicking the agenda of the discipline s mainstream more likely to produce faulty scholarship Did the search for the essence of socialism distract researchers from the actual Soviet economy Were economic Sovietologists under political pressure and if so in what direction This book answers these questions in a way that has broad relevance for national security uses of social science today Dissent in the Years of Krushchev E. Kulavig,2002-09-18 The book is an analysis of the dilemmas confronting the communist party after Stalin s death in 1953 It focuses on how ordinary citizens received and reacted to the policy of the party and the state It is also the history of people who driven by disillusion despair and anger either withdrew from the public sphere and thus demonstrated passive resistance to the regime or on the contrary chose to demonstrate actively in prisoners rebellions and workers unrest **Modernisation in Russia since 1900** Markku Kangaspuro,Jeremy Smith,2006-12-27

Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian

society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia     *Engineering Earth* Stanley D. Brunn,2011-03-19 This is the first book to examine the actual impact of physical and social engineering projects in more than fifty countries from a multidisciplinary perspective The book brings together an international team of nearly two hundred authors from over two dozen different countries and more than a dozen different social environmental and engineering sciences Together they document and illustrate with case studies maps and photographs the scale and impacts of many megaprojects and the importance of studying these projects in historical contemporary and postmodern perspectives This pioneering book will stimulate interest in examining a variety of both social and physical engineering projects at local regional and global scales and from disciplinary and trans disciplinary perspectives     Comparing Economic Systems Andrew Zimbalist,Howard J. Sherman,2014-05-12 Comparing Economic Systems A Political Economic Approach presents a political economic approach to the analysis and comparison of different types of economic systems Full integrated political economic case studies of several representative countries including Japan Sweden and France are given This book consists of six parts and begins with an overview of some definitions of the main kinds of political and economic systems theoretical arguments from various points of view about how political and economic systems relate to each other and the criteria for evaluating different political economic systems The next section considers three essentially market capitalist systems Japan Sweden and France The Soviet Union a centrally planned allegedly socialist economy is examined next More specifically Soviet development from 1917 to 1928 and from 1928 to the present is discussed Central planning in developing countries such as China and Cuba is also explored Finally the theory of market socialism is analyzed citing the cases of Hungary and Yugoslavia This monograph will be of value to politicians economists and economic policymakers     Russia Edward Acton,2014-09-19 This text has established itself as the best general introduction to Russian history providing a forceful and highly readable survey from earliest times to the post Soviet State At the heart of the book is the changing relationship between the State and Russian society at large The second edition has been substantially rewritten and updated and new material and fresh insights from recently accessible research have been incorporated into every chapter     *Agricultural Policies In The Ussr And Eastern Europe* Ronald A. Francisco,Betty Laird,Roy D. Laird,1980-02-21 Capital intensity in soviet agriculture The low productivity of soviet agricultural trade Soviet policies on agriculture trade and the sonsumer Eastern europe Cross national analysis     *Catalog of Copyright Entries.
