democratic movement that helped to dismantle the Soviet system and force the Soviet leadership to change course However as post Soviet Russia committed itself to globalization and U S style economic reforms the country directed itself away from the Democratic reforms called for by organizations like DemRossiia and such groups collapsed Revolutionary Passage provides a close examination of the DemRossiia Garcelon deftly illuminates the rise and decline of this organization and how the processes of revolutionary change impacted both Russia and the world World Regional Geography Lydia Mihelic Pulsipher,Alex Pulsipher,2010-12-10 Like no other textbook Pulsipher and Pulsipher s World Regional Geography puts a human face on the study of regional geography showing how larger geographical forces affect the lives of individuals and communities around the globe It s a refreshing people centered approach to the subject focusing on the stories of real people global trends and interregional linkages and contemporary topics that transcend regional borders the war on terrorism global political order interregional trade the global economy popular culture the environment and the Internet **Cities of the World** Stanley D.
