Reforms Christopher Marsh,2005-01-01 The reforms of the Soviet and Chinese communist regimes were unparalleled both in the radical precedent setting reforms attempted by the two countries and in the outcomes of these attempts While the Soviet Union collapsed quickly in the midst of its reforms more than a decade later China the world s most populous country still stands as a testament to the resilience of Communist rule It is this phenomenon that Christopher Marsh explores in *Unparalleled Reforms* Marsh goes beyond simply discussing the differing initial conditions the sequencing of reform and cultural differences to also consider the objectives and intentions of the policy makers and leaders that directed the reform processes and the interdependent nature of politics on the world stage *Unparalleled Reforms* offers the reader a sophisticated understanding of the nature of political reform and develops a theoretical model that can account for commonly overlooked factors that affect political processes in all types of political systems In a class all its own this is an important work for scholars interested in comparative politics international relations economics Asian studies and Russian studies **A**

Japan's Response to the Gorbachev Era, 1985-1991 Gilbert Rozman,2014-07-14 Gorbachev s transformation of both Soviet socialism and the Cold War world atmosphere kindled a far reaching debate in Japan Would Japan at last free itself of its secondary postwar standing Would a new Soviet system and world order soon be established Gilbert Rozman argues in

Japan's Response to the Gorbachev Era that Japanese perceptions of the Soviet Union are distinctive and are helpful for understanding what will become an influential worldview Focusing on diverse opinion leaders and the relationship between the Japanese media policy making and public opinion Rozman shows how long standing negative images of Soviet socialism and militarism have been reconsidered since the mid 1980s His analysis treats burning issues such as the Northern Territories dispute the Soviet commitment to reform and the Soviet American relationship It also sheds light on Japanese views of Soviet history modernization and national character Such views reveal some of the building blocks for the emergent Japanese worldview Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Global Revolution Silvio Pons, 2014-08-28 The Global Revolution A History of International Communism 1917 1991 establishes a relationship between the history of communism and the main processes of globalization in the past century Drawing on a wealth of archival sources Silvio Pons analyses the multifaceted and contradictory relationship between the Soviet Union and the international communist movement to show how communism played a major part in the formation of our modern world The volume presents the argument that during the age of wars from 1914 to 1945 the establishment of the Soviet state in Russia and the birth of the communist movement had an enormous impact because of their promise of world revolution and international civil war Such perspective appeared even more plausible in the aftermath of the Second World War and of revolution in China which paved the way for the expansion of communism in the post colonial world Communism challenged the West in the Cold War by means of anti capitalist modernization and anti imperialist mobilization showing itself to be a powerful factor in the politicization of global trends However the international legitimacy of communism declined rapidly in the post war era Soviet power exposed its inability to exercise hegemony as distinct from domination The consequences of Sovietization in Europe and the break between the Soviet Union and China were the primary reasons for the decline of communist influence and appeal Since communism lost its political credibility and cultural cohesion its global project had failed The ground was prepared for the devastating impact of Western globalization on communist regimes in Europe and the Soviet Union

Ideology and Economic Reform Under Deng Xiaoping 1978-1993 Wei-Wei Zhang, 2013-02-01 First published in 1996 Is ideology still relevant in post Mao China Deng Xiaoping's wide ranging economic reforms have led to declarations that

ideology in China is merely a cynical sham or already dead but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978 This study is an attempt to explore the interactions between major ideological currents and economic reforms *Towards Recovery in Pacific Asia* David S. G. Goodman, Gerald Segal, 2002-01-22 Attempts to define the Asian Crisis and its future course continue to be hotly contested *Towards Recovery in Pacific Asia* deals with financial and industrial reform defence policies the Asian Values debate corruption and cronyism as well as China Japan and intra regional affairs Rather than trying to resolve the heated debate about the causes of the crisis this book reflects on underlying trends to examine the possible paths of recovery Bringing together experts in the field *Towards Recovery in Pacific Asia* suggests that recovery is by no means impossible nor as difficult as might at first have seemed But it requires political reform tackling specific economic problems and the international support of the US European Union and World Bank There are still causes for concern such as Indonesia's transition from the Suharto era and political reform in China and most significantly Japan With its highly topical focus on the social political and economic development of the Asia Pacific region this book represents a vital up to date analysis for students and researchers in Asian studies International Relations International Political Economy as well as policy makers and professionals working in or with Pacific Asia *The Political Economy of Rule Evasion and Policy Reform* Jim Leitzel, 2002-11-07 This book develops the logic underlying the connections between breaking the rules and making the rules Approaching policy issues from this point of view provides a perspective that illuminates a wide variety of phenomena *The Demise of the Soviet Communist Party* Atsushi Ogushi, 2007-11-02 This book based on extensive original research in previously unexplored sources including the party archives provides a great deal of new information on the disintegration of the Soviet communist party in 1991 and the preceding years It argues that contrary to prevailing views the party was reformable in late Soviet times but that attempts to reform it failed reforms succeeded in preventing the party interfering in the state body and thereby abolished the party's traditional administrative functions but without creating an alternative power centre and without transforming the party from a vanguard party into a parliamentary party It demonstrates that the party having ceased to offer career paths for aspiring party members thereby lost its reason for existence that an exodus of party members then followed which in turn caused a financial crisis and that this financial crisis and the resulting engagement in commercial activity fragmented and dispersed party property It shows how the failed coup of 1991 was led by the military rather than the party and how having lost its reason for existence and its property the party had no choice but to accept the reality that it was de facto dead **China's Communist Party** David L Shambaugh, 2008-04-02 Few issues affect the future of China and hence all the nations that interact with China more than the nature of its ruling party and government In this timely study David Shambaugh assesses the strengths and weaknesses durability adaptability and potential longevity of China's Communist Party CCP He argues that although the CCP has been in a protracted state of

atrophy it has undertaken a number of adaptive measures aimed at reinventing itself and strengthening its rule Shambaugh's investigation draws on a unique set of inner Party documents and interviews and he finds that China's Communist Party is resilient and will continue to retain its grip on power Copub Woodrow Wilson Center Press **AP European History**

examines the responses of Soviet experts in American academia primarily political scientists but also economists and defense scholars who specialized in the USSR to the unfolding evidence of Soviet reform during the 1970s and 1980s and to its ultimate collapse He concludes that American Sovietologists and other political scientists were more responsive to the Cold War consensus to the needs of the State Department Defense and CIA policy makers and to the official Washington line of the moment than to the changing face of the Soviet Union As Xenakis makes clear many of the Cold War ideas and attitudes shared by Sovietologists the notion that the USSR was an evil empire the idea that Soviet society was irredeemably xenophobic and indolent that the Soviet political and economic system could not be fixed or reformed and the view that the best way for Washington to deal with Moscow's influence was to contain the USSR through arms races global and proxy wars were reminiscent of the policies and arguments of the Truman and Eisenhower administrations not to the facts on the ground in the 1970s and 1980s An important work for scholars students and researchers involved with Soviet and Russian studies international political and military affairs intellectual history and the relationship between academia and the government
