The Equality Trap:

The Equality Trap Mary Ann Mason, 2018-04-17 Despite the feminist revolution of the past twenty years most women in America are worse off today than at any time in the recent past Magazines and television programs profile women bank executives surgeons and corporate lawyers but the vast majority of women still work in relatively low paying jobs Women work more hours per week in the house and outside than ever before and a paying job has become a necessity for women in most households What went wrong In this provocative book Mary Ann Mason argues that the women s movement shares some of the blame for this situation In an original analysis that draws on both social and legal history she explains how the move away from women s rights toward equal rights has worsened the situation of American working women especially working mothers Because women are still the primary care providers for their children they must take flexible and relatively low paying jobs to be available in case of a child care problem With nearly 50 percent of all marriages now ending in divorce and with a growing trend inspired by the equal rights movement toward no fault divorce and low or no alimony settlements divorced mothers frequently find themselves economically devastated Mary Ann Mason argues that the solution to this predicament is to draw up a new women s rights agenda that will benefit all working women especially those with children The equal rights strategy was important in opening the door for the highly publicized super achievers but it is now time she says to improve the lives of the majority of America s working women This book will be of interest to readers interested in gender studies and particularly issues of equality and feminism Mary Ann Mason is a professor of law and social welfare at the University of California Berkeley In addition to her law degree Mason holds a Ph D in American social history

Mothers on the Job Lise Vogel, 1993 Women s increasing demands for protection and benefits in the workplace especially with regard to maternity leave have sparked more than a century of controversy among feminists on how best to serve the needs of working women This debate continues to divide the feminist community One side believes women are better served by emphasizing equality with men pregnancy should be treated like any other disability The other side wants to recognize difference special provisions should apply only to pregnant women Lise Vogel examines the evolution of this debate on pregnant women in the workplace looking at theoretical as well as practical implications Vogel begins by assessing the history of the contemporary debate on pregnancy policy in the U S Since the middle of the nineteenth century American women have been torn by the contradictory demands of motherhood and the workplace Pregnancy was grounds for dismissal from work and few employers took action to protect pregnant workers To counter this early twentieth century feminists and reformers emphasized female specificity and women s special role In the 1960s activists adopted a strategy framed on equality which moved away from the earlier emphasis on differences The use of equality strategies to cover the female specific phenomenon of pregnancy turned out to have problems Now women s special needs were denied and ignored These difficulties and a series of court cases in the 1980s triggered debates in the feminist legal community Vogel looks at the

litigation and debates which pitted advocates of gender neutral strategies against critics who called for female specific policies Vogel argues that in terms of practical benefits women will be served best by a gender neutral approach to pregnancy policy She encourages equality advocates to recognize the inherent diversity of individuals and points out the need to be sensitive to individual factors of race and class as well as sex **The Hegelian Trap** Conrad Riker, Your Voice Silenced Your Manhood Under Fire Time to Fight Back Sick of being shamed for acting like a man Had enough of woke mobs dictating your thoughts Tired of seeing masculinity crushed under feminist lies Exposes the hidden coercion destroying male identity Blasts apart the fake progress pushing male erasure Reveals how cancel culture enforces ideological slavery Debunks feminist myths with evolutionary science Restores pride in traditional strength and leadership Arms you to smash victimhood narratives Defends the family against toxic gynocracy Ignites the courage to reclaim your birthright If you want to crush the feminist trap and rise as a free man then buy this book today **Optically Active Charge Traps and**

Chemical Defects in Semiconducting Nanocrystals Probed by Pulsed Optically Detected Magnetic Resonance Kipp van Schooten, 2013-07-17 Colloidal nanocrystals show much promise as an optoelectronics architecture due to facile control over electronic properties afforded by chemical control of size shape and heterostructure Unfortunately realizing practical devices has been forestalled by the ubiquitous presence of charge trap states which compete with band edge excitons and result in limited device efficiencies Little is known about the defining characteristics of these traps making engineered strategies for their removal difficult This thesis outlines pulsed optically detected magnetic resonance as a powerful spectroscopy of the chemical and electronic nature of these deleterious states Counterintuitive for such heavy atom materials some trap species possess very long spin coherence lifetimes up to 1 6 s This quality allows use of the trapped charge s magnetic moment as a local probe of the trap state itself and its local environment Beyond state characterization this spectroscopy can demonstrate novel effects in heterostructured nanocrystals such as spatially remote readout of spin information and the coherent control of light harvesting yield **Why Politics Fails** Ben Ansell, 2023-05-23 A leading

political expert explains why systems fail to deliver things we all want democracy equality solidarity security and prosperity and what can be done to create a just equitable and environmentally sane society The dawn of the twenty first century had the promise of a golden age The economy was stable and growing social peace seemed possible and technology appeared benign The past years have awakened us from this complacency We have long known what needs to be done to save the world from climate disaster Why do we continue on the path of self destruction The immense wealth of the United States should make poverty a historical curiosity Why is income inequality growing and the scourge of poverty increasing The vast majority of people around the world want to live in a society with democratic values Why is democracy receding Why is it so hard to get and keep the world we want Ben Ansell one of the world s leading experts on the dilemmas facing modern democracies vividly illustrates how our collective goals democracy equality solidarity security and prosperity are undermined

by political traps and why today's political landscape is so tumultuous We want equality but we are loathe to give away our own wealth We want solidarity but we are much better at receiving it than offering it We want security but not if it constrains our freedom And we want to end the climate crisis but we also want a prosperous economy In every case we want a collective goal but are undermined by our individual actions Our aims are altruistic our actions governed by self interest Ansell then comes full circle and through brilliant storytelling and pathbreaking research vividly illustrates how we maneuver through the traps of the messy complicated world of politics that block common sense solutions to the just equitable prosperous and environmentally sane society we all want **Antidiscrimination Law and Social Equality** Andrew Koppelman,1998-09-10

Arguing that although it is not the role of a liberal state to shape its citizens beliefs this work suggests that a moral code for the prevention of discrimination is needed The text responds to objections to discrimination law from liberal theory and outlines the moral principles it posits **Communism Never Works** Conrad Riker,101-01-01 The Lie That Broke the World

And the Men Who Still Believe It Have you been lied to your entire life about equality fairness and shared wealth Did you once trust the system only to find it rewards betrayal laziness and fraud Have you watched good men crushed while parasites rise on fake virtue and state theft Exposes the fatal flaw in every socialist dream not greed but human nature Reveals why collectivism always becomes tyranny without exception Documents the collapse of every communist state from promise to ruin Names the real beneficiaries of Marxism not workers but power hungry elites Destroys the myth of economic fairness with logic even the brainwashed can't ignore Proves that forced equality kills excellence innovation and freedom Shows how envy not justice fuels the leftist agenda and how it consumes everything Offers a path back to individual strength private property and real dignity If you want to stop being fooled by the oldest lie in history buy this book today From Father's

Property to Children's Rights Mary Ann Mason,1994 From Fathers Property to Children's Rights seeks to clarify fundamental questions about the rights of children and parents in our society through a unique and provocative analysis of child custody in the United States from colonial times to the present The book gracefully combines historical and legal scholarship in an unusually rich perspective on the history of children and their parents Mason consistently draws on this history to illuminate contemporary issues the current emphasis on biological parenthood the proliferation of reproductive technologies and the growing use and misuse of the social sciences **Feminist Social Work Theory and Practice** Lena Dominelli,2017-03-14

Feminist theories of social work have been criticised in recent years for treating women as a uniform category and displaying insufficient sensitivity to the complex ways in which other social divisions those of race age disability etc impact on gender relations This major text by a leading writer in the field seeks to develop a new framework for feminist social work that takes on board postmodernist arguments to do with difference and power yet retains a commitment to collective solidarity and social change As such it will be essential reading for students educators and practitioners alike in social work *Basic*
