The Essentials of Theism Denis John Bernard Hawkins,1973 **The Andover Review** ,1886 **A New Vision of God for the 21st Century** Stanley A. Fry,2005-11 A New Vision of God for the 21st Century Discovering the Essential Wesley for Pastors and Other Seekers STANLEY A FRY The need for a book focused on John Wesley as a preacher has been apparent for some time However as fascinating as such an historical work would have been its value for the preaching and teaching ministries of the church in the 21st century would have been very limited The author has turned this study of Wesley s preaching into a search for the preachable and teachable essence of Wesley s message That effort has required a bit of surgery on Mr Wesley which is designed to fit his doctrine of salvation with a new vision of God and another vocabulary responsive to the spiritual sensitivities of the 21st century The result includes a critique not only of Wesley but of some of the orthodox doctrines promulgated very early in the church s history Rather than write a memoir in his retirement the author has chosen to write this homiletical essay as a testimony to his own spiritual journey It is not a method book but rather a message book *The Essential LDS Collection* William Alexander Linn,John Taylor,Joseph Fielding Smith,Wilford Woodruff,B. contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture

Foundations of Christian Thought Mark P. Cosgrove, Written by a veteran Christian educator this readable book describes the relationship between the Christian faith and the world of learning by looking at the five modern worldviews competing with Christian theism

On the Existence of God Robert Geis, 2009-11-11 The existence of God raises many questions Geis work addresses queries that arise from the gratuitous claims of empiricism in Hume unfounded assumptions in Kant presumptions of science and the improbabilities it identifies in Darwinism By focusing on number and proportion as intrinsic to material and atomic constituency any argument from chance as instrumental to the cosmos emergence and sustainability becomes invalidated The arguments from contingency and the nature of intellection provide more clarity than the ratio Anselmi for acknowledging a transcendent causality taking the reader to the problem of evil and present day nihilism These concepts present great but not insuperable difficulty for theism Geis argues that evil when one uses it as a means to the betterment of oneself and the world takes on the role commensurate with the doctrine of an omnibenevolent deity Accordingly one can use evil as a means to a greater understanding of God Providence and eternal destiny
