Brown,2003-07-29 The optimism that arrived at the end of the cold war and marked the turn of the Millennium was shattered by September 11 In the aftermath of that event it is not unwarranted pessimism that lines the pages of Grave New World it is unavoidable reality Terrorism is but one aspect of many other wider concerns for national and international security and the contributors to this volume not only warn us but reward us as well with the clarity of their views into and possible solutions for a difficult complicated future They speak convincingly of the numerous military and non military challenges that create security problems whether those are interstate intrastate or transnational many of which are being dangerously overlooked in public policy debates The challenges and complexities might seem insurmountable but the first step in solving problems is recognizing that they exist Grave New World provides an eye opening assessment of the prospects for peace and security in the 21st century Michael E Brown frames these issues in his Introduction Security Challenges in the 21st Century and in his summation Security Problems and Security Policy in a Grave New World Of Arms and Men Robert L. O'Connell,1989 Ranging from prehistoric times to the Nuclear Age demonstrates how social and economic conditions have determined the types of weapons and tactics employed in warfare
