The Excesses Of God Robinson Jeffers As A Religious Figure:

The Excesses of God William Everson, 1986 *The Excesses of God* William Everson, 1988 An event of rare literary distinction this book records the conjunction between two distinguished American poets illuminating not only their work and their connection but also the deep strain of pantheistic mysticism in the American tradition In 1934 William Everson came across a volume of Jeffers's poetry In Everson's word the power of Jeffers broke my own acquired agnosticism and compelled me to think of myself as a manifestly religious man It is a power I still attest to in writing this study a power which I continue to think of as an undiluted religious force It was after reading Jeffers that Everson's vocation as a poet emerged and though they never met or corresponded Everson has remained loyal and dedicated to Jeffers throughout his life Everson who published extensively under his religious name Brother Antoninus during his nearly twenty years as a Dominican lay brother has become one of the most knowledgeable scholars and critics of Jeffers as well as his one avowed poetic disciple This book is written as a series of overlapping and ever widening meditations on Jeffers's sense of God nature the self and language

Robinson Jeffers James Karman, 2015-08-05 A deeply informative biography situates the poet in his time and place tracing the effect of both contemporary history and wild nature on his work Edwin Cranston Harvard University The precipitous cliffs rolling headlands and rocky inlets of the California coast come alive in the poetry of John Robinson Jeffers an icon of the environmental movement In this concise and accessible biography Jeffers scholar James Karman reveals deep insights into this passionate and complex figure and establishes Jeffers as a leading American poet of prophetic vision In a move that would define his life's work Jeffers family relocated to California from Pennsylvania in 1903 when he was sixteen At the height of his popularity in the 1920s and 1930s Jeffers became one of the few poets ever featured on the cover of Time magazine and posthumously put on a U S postage stamp Writing by kerosene lamp in a granite tower that he had built himself his vivid and descriptive poetry of the coast evoked the difficulty and beauty of the wild and inspired photographers such as Edward Weston and Ansel Adams He was known for long narrative blank verse that shook up the national literary scene but in the 1940s his interest in the Greek classics led to several adaptations which were staged on Broadway to great success Inspiring later artists from Charles Bukowski to Czeslaw Milosz and even the Beach Boys Robinson Jeffers contribution to American letters is skillfully brought back out of the shadows of history in this compelling biography of a complex man of poetic genius who wrote so powerfully of the astonishing beauty of nature *Inventing the Language to Tell It* George Hart, 2013-09-02 From 1920 until his death in 1962 consciousness and its effect on the natural world was Robinson Jeffers's obsession Understanding and explaining the biological basis of mind is one of the towering challenges of modern science to this day and Jeffers's poetic experiment is an important contribution to American literary history no other twentieth century poet attempted such a thorough engagement with a crucial scientific problem Jeffers invented a sacramental poetics that accommodates a modern scientific account of consciousness thereby integrating an essentially

religious sensibility with science in order to discover the sacramentality of natural process and reveal a divine cosmos There is no other study of Jeffers or sacramental nature poetry like this one It proposes that Jeffers s sacramentalism emerged out of his scientifically informed understanding of material nature Drawing on ecocriticism religious studies and neuroscience Inventing the Language to Tell It shows how Jeffers produced the most compelling sacramental nature poetry of the twentieth century *Robinson Jeffers and the American Sublime* Robert Zaller,2012-01-25 Robinson Jeffers and the American Sublime is the most comprehensive and most substantial critical work ever devoted to the major American poet Robinson Jeffers 1887 1962 Jeffers the best known poet of California and the American West particularly valorized the Big Sur region making it his own as Frost did New England and Faulkner Mississippi and connecting it to the wider tradition of the American sublime in Emerson Thoreau and John Muir The book also links Jeffers to a Puritan sublime in early American verse and explores his response to the Darwinian and Freudian revolutions and his engagement with modern astronomy This discussion leads to a broad consideration of Jeffers focus on the figure of Christ as emblematic of the human aspiration toward God a God whom Jeffers defines not in Christian terms but in those of an older materialist pantheism and of modern science The later sections of the book develop a conspectus of the democratic sublime that addresses American exceptionalism through the prism of Jeffers Jeffersonian ethos A final chapter places Jeffers poetic thought in the larger cosmological perspective he sought in his late works **Centennial Essays for Robinson Jeffers** Robert Zaller,1991 This work is the first volume of critical essays devoted to the poetry of Robinson Jeffers Although Jeffers was likened to some of the greatest figures in the literary world his work was controversial His preoccupation with violence and sexuality was denounced by some his alleged blasphemy by others Condemned by moralists Marxists and Cold Warriors alike Jeffers fell into obscurity until his death in 1962 Included are nine original essays by leading Jeffers scholars **Robinson Jeffers and a Galaxy of Writers** William B. Thesing,1995 **The Collected Letters of Robinson Jeffers, with Selected Letters of Una Jeffers** James Karman,2011-10-12 The 1930s marked a turning point for the world Scientific and technological revolutions economic and social upheavals and the outbreak of war changed the course of history The 1930s also marked a turning point for Robinson Jeffers both in his career as a poet and in his private life The letters collected in this second volume of annotated correspondence document Jeffers rising fame as a poet his controversial response to the turmoil of his time his struggles as a writer the growth and maturation of his twin sons and the network of friends and acquaintances that surrounded him The letters also provide an intimate portrait of Jeffers relationship to his wife Una including a full account of the 1938 crisis at Mabel Dodge Luhan s home in Taos New Mexico that nearly destroyed their marriage *American Poets and Poetry* Jeffrey Gray,Mary McAleer Balkun,James McCorkle,2015-03-10 The ethnically diverse scope broad chronological coverage and mix of biographical critical historical political and cultural entries make this the most useful and exciting poetry reference of its kind for students today American poetry springs up out of all walks of life its poems are maternal as

well as paternal stuff d with the stuff that is coarse and stuff d with the stuff that is fine as Walt Whitman wrote adding Of every hue and caste am I of every rank and religion Written for high school and undergraduate students this two volume encyclopedia covers U S poetry from the Colonial era to the present offering full treatments of hundreds of key poets of the American canon What sets this reference apart is that it also discusses events movements schools and poetic approaches placing poets in their social historical political cultural and critical contexts and showing how their works mirror the eras in which they were written Readers will learn about surrealism ekphrastic poetry pastoral elegy the Black Mountain poets and language poetry There are long and rich entries on modernism and postmodernism as well as entries related to the formal and technical dimensions of American poetry Particular attention is paid to women poets and poets from various ethnic groups Poets such as Amiri Baraka Nathaniel Mackey Natasha Trethewey and Tracy Smith are featured The encyclopedia also contains entries on a wide selection of Latino and Native American poets and substantial coverage of the avant garde and experimental movements and provides sidebars that illuminate key points **Faith in Nature** Thomas

Dunlap,2009-11-17 The human impulse to religion the drive to explain the world humans and humans place in the universe can be seen to encompass environmentalism as an offshoot of the secular material faith in human reason and power that dominates modern society Faith in Nature traces the history of environmentalism and its moral thrust from its roots in the Enlightenment and Romanticism through the Progressive Era to the present Drawing astonishing parallels between religion and environmentalism the book examines the passion of the movement s adherents and enemies alike its concern with the moral conduct of daily life and its attempt to answer fundamental questions about the underlying order of the world and of humanity s place within it Thomas Dunlap is among the leading environmental historians and historians of science in the United States Originally trained as a chemist he has a rigorous understanding of science and appreciates its vital importance to environmental thought But he is also a devout Catholic who believes that the insights of religious revelation need not necessarily be at odds with the insights of scientific investigation This book grew from his own religious journey and his attempts to understand human ethical obligations and spiritual debts to the natural world CHOICE Outstanding Academic Title 2005
