The Experience Logic as a New Perspective for Marketing Management Tonino

Pencarelli,Fabio Forlani,2018-04-13 This book provides stimulating insights into the ways in which the adoption of experience logic can revitalize marketing perspectives and stimulate novel approaches to the creation and delivery of value The first part of the book which has a theoretical focus reviews the international literature and offers conceptual observations on the experiential perspective Suggestions are made on how experience logic can act as a new driver for the management of marketing processes in firms within the context of the experience economy In the second part of the book attention turns to the applications of experience logic in different sectors including tourism commerce culture and trade shows Company specific examples of benefits of the experiential approach are also explored in case studies on gift box providers marketing of traditional local products and the cosmetics industry The book will be of particular interest for marketing specialists but will additionally be of value for managers in private companies and public bodies who wish to enhance their marketing methods

Evaluating The Undergraduate Research Experience Gabriel M.

Della-Piana,Connie Kubo Della-Piana,Michael K. Gardner,2014-01-01 The current movement toward more and better research experiences for undergraduates has spread across disciplines in the arts humanities science mathematics and engineering beyond the research university to the full range of post secondary institutions of higher education Along with this spread of practice is the need to take stock of the programs and make use of evaluation to inform program improvement and to communicate an understanding of the worth of the program to funders institutional administrators faculty mentors and students The main aim of the book is to provide a practical guide for planning an evaluation of an undergraduate experience program The intent is to enable a program director to plan with a team consisting of an internal evaluator and program staff a systematic and rigorous study of the program processes products organizational dynamics etc including the gathering and analysis of information that is context sensitive and connected to an argument and justification for descriptive causal and practice useful claims It is useful for a program director to contract with an evaluator It is specific to the field of undergraduate research experience while being useful for other fields It places strong emphasis on how to find and specify evaluation questions that yield information that has high leverage for program improvement and demonstrating the effectiveness and worth of the program A measure of attitude toward evaluation allows you to reflect on your leanings evaluation orientations such as formative summative process product preordinate goals emergent goals and other characteristics of approaches to and confidence in evaluation The main readership is targeted to directors and developers of undergraduate research experience programs While the examples are mainly in the undergraduate research experience it

will be found useful for instructors of courses in project evaluation and beginning level evaluators The usefulness of the book is enhanced by a checklist in the final chapter that integrates the approaches from throughout the book referencing the earlier discussions
