The Evidence For Creation Examining The Origin Of Planetearth:

The Evidence for Creation Glen S. McLean, Oakland McLean, 1995 *The Evidence for Creation* Glen S. McLean, E. E. Koch, Roger Oakland, Larry McLean, 1989 Designed for laymen this book examines and visually illustrates the creation and evolution models of origins and tests them against the observable evidence It is an excellent resource for strengthening the faith of believers and training children Judgment and Salvation Dustin G. Burlet, 2022-11-03 This book contends the text of the Noachian deluge narrative categorically underscores all God did to preserve life in spite of the disaster Despite the picture of devastation that the narrative depicts the prominent emphasis of the text is on deliverance and redemption i e salvation not judgment The focus of the Genesis flood is acutely bent towards God s salvific rather than punitive purposes The arc of salvation within the flood narrative can be broken down into two main ideas Firstly God s intention for creation is not thwarted and secondly God commits himself to his intentions of creation God s intention for creation can be stated thus the establishment of order via covenant showing the sanctity of human life and the upholding of all life This involves in particular humanity as his image bearers including the lex talionis life for life principle **Understand the Times** Thomas A. McMahon, Roger Oakland, 1990 *The Religious Right* Glenn H. Utter, John Woodrow Storey, 2007 Timely and unbiased this edition updates and expands its examination of the religious right and its influence on our government citizens society and politics From the fight to outlaw the teaching of Darwin s theory of evolution to the struggle to outlaw abortion the religious right is continually exerting an influence on public policy **Comprehensive Study of the Origin of Humankind** RYANNE MAXINE MEYERSON, 2023-02-25 AWARD WINNING BOOK Silver Medal Readers Favorite International Book Award Contest and 5 Stars Book Reviews Literary Titan Gold Book Award and 5 Stars Book Reviews Amazon Bestseller 1 History of the Middle East and 2 Ancient Early Civilization History The Anunnaki gods from the planet Nibiru carried out a mission on Earth and the story was documented in clay tablets or Mesopotamian texts discovered in the ruins of buildings in the Middle East Scholars have proposed that some Genesis stories had already appeared in Mesopotamian texts thousands of years ago This proposal motivated us to evaluate the most relevant texts Although most scholars believe that the Mesopotamian texts are mythology the research was carried out under the premise that their content corresponds to real events Analysis of academic translations of the texts revealed that many details critical to understanding the story have not been revealed An exhaustive analysis of the data determined the most probable dates of the events The book presents the events related to the arrival of the Anunnaki to Earth and the consequences of their mission chronologically according to findings in Mesopotamian texts and ancient books Various sources including apocryphal books reports from ancient historians scientific research and archaeological records supplemented the research Many riddles were decoded including who the Anunnaki and the Igigi watchers Nephilim were Why when and how did H sapiens originate how did the other species arise and why did they become extinct Why and when did the Anunnaki arrive and finally leave Earth When will the

planet Nibiru return to our area in the inner solar system The results and findings of this research deserve to be known due to the probability that the stories in the Mesopotamian texts really happened The book s proposals differ from what we have learned in educational institutions about the origin of humanity and invite critical thinking to reflect on the history of the Anunnaki gods Enthusiastic readers of the extraterrestrial theme will find innovative proposals **Coral Ridge**

Presbyterian Church Communicator ,1995 **Subject Guide to Books in Print** ,1997 **The True History of Planet Earth and it's Aliens** Raymond Lamarr,2022-05-23 In this book the author has looked at and studied during his lifetime the many theories and beliefs of the creation of earth our solar system the universe and everything in it including all the organics plants animals humans extraterrestrials spiritual and other realms of existence Included in this book are the studies of extraterrestrials that have been listed in five different categories and their influence on earth throughout history from the ancient past to the present day The author speaks at length on the prevailing beliefs and theories of evolution religious and ancient histories and the ancient astronaut theorists Included is a study of the laws of creation and life which is truth and reality throughout the entire universe He also speaks of the beliefs of other sects in the world today and throughout all of world history He tells of the four different tragedies that happened in the world and our solar system in the last six thousand years the who how why and when of them He lists the interpretations of history and prophecies that came to light and were reported in the 1950s and 1960s that seem to have been pretty much forgotten He brings to light the misinterpretations and mistranslations of biblical history and the great many histories of the world including the many histories of the Americas
