The Evolution of Civilizations : an Introduction to Historical Analysis Carroll Quigley, 1979 **The Evolution of Civilization** Carroll Quigley, 1961 *The Evolution of Civilizations* Carroll Quigley, 1979 Carroll Quigley was a legendary teacher at the Georgetown School of Foreign Service His course on the history of civilization was extraordinary in its scope and in its impact on students Like the course *The Evolution of Civilizations* is a comprehensive and perceptive look at the factors behind the rise and fall of civilizations Quigley examines the application of scientific method to the social sciences then establishes his historical hypotheses He poses a division of culture into six levels from the abstract to the more concrete He then tests those hypotheses by a detailed analysis of five major civilizations the Mesopotamian the Canaanite the Minoan the classical and the Western Quigley defines a civilization as a producing society with an instrument of expansion A civilization's decline is not inevitable but occurs when its instrument of expansion is transformed into an institution that is when social arrangements that meet real social needs are transformed into social institutions serving their own purposes regardless of real social needs Another Big Bang: Evolution of Civilisation. Freedom All The Way Santanu Mitra, 2025-09-09 Even 12 000 years ago our ancestors were living in forests off hunting and gathering as livelihood options Now we are planning to settle on Mars How could this feat be achieved Santanu was always interested in this question In the search for an answer he has attempted to come up with a multi disciplinary unifying theory of evolution of human civilisation which says that our civilisation had been born and evolved due to the urge in hominin brains for individual freedom
