research ethics and professional development **Healing Gardens** Clare Cooper Marcus, Marni Barnes, 1999-06-15
Although the healing qualities of nature have been recognized and relied on for centuries as a valuable part of convalescence
recent history has seen nature's therapeutic role virtually eclipsed by the technological dominance of modern medicine As
the twentieth century comes to a close and the medical community reacknowledges the importance of the environment to
recovery the healing garden is emerging as a supplement to drug or technology based treatments Healing Gardens
celebrates this renewed interest in nature as a catalyst for healing and renewal by examining the different therapeutic
benefits of healing gardens and offering essential design guidance from experts in the field Unique and comprehensive
Healing Gardens provides up to date coverage of research findings relevant design principles and approaches and best
practice examples of different types of healing gardens It begins by exploring what current research reveals about the
connection between nature human stress reduction and medical outcomes It then presents case studies and design
guidelines for outdoor spaces in medical settings that include general psychiatric and children's hospitals as well as hospices
nursing homes and Alzheimer's facilities Historical information literature reviews and studies on use are included for each
type of outdoor space covered offering important insights into what works in healing gardens and what doesn't Generously
supplemented with photographs site plans anecdotes and more Healing Gardens is an invaluable practical guide for
landscape architects and others involved in creating and maintaining medical facilities and an extremely useful reference for
those responsible for patient care A unique and comprehensive look at the therapeutic effects and design of healing gardens
For more and more people the shortest road to recovery is the one that leads through a healing garden Combining up to date
information on the therapeutic benefits of healing gardens with practical design guidance from leading experts in the field
Healing Gardens is an important resource for landscape architects and others working in this emerging area With the help of
site plans photographs and more it presents design guidelines and case studies for outdoor spaces in a range of medical
settings including Acute care general hospitals Psychiatric hospitals Children's hospitals Nursing homes Alzheimer's facilities
Hospices Shelter and Service Issues for Aging Populations Leon A Pastalan, 2014-01-09 Shelter and Service Issues for
Aging Populations takes you for an inside look at what policies in Western Europe Canada and the United States have done to
meet the housing and service needs of the elderly and the disabled and what policies have yet to accomplish As you learn
about a wide range of cost effective and successful housing options such as congregate housing home equity conversions and
homesharing you will learn about the challenges of providing responsive high quality housing and living arrangements to
meet the needs of different populations As this insightful book reveals the psychosocial needs of elderly and disabled persons
have often been neglected in efforts to provide appropriate physical accommodation and services and shelter are seldom

coordinated to respond to the changes individuals experience Shelter and Service Issues for Aging Populations shows you how federal and state provincial governments nonprofit organizations and private groups have all implemented policies to create barrier free housing Yet at the same time most Western countries have not developed comprehensive grant and loan programs to allow the elderly and disabled to modify their homes As this book walks you through the problems that exist it shows you how policymakers architects social work practitioners and academics housing developers and community leaders can work together to improve housing conditions and services Along the way you will learn about the failure of health care systems to cover home modifications the Fair Housing Act Amendment stigmatizing effects of the elderly label in obtaining community accommodation differences between environmental needs of rural and urban seniors current patterns of housing and living arrangements of older Canadians the effects of demographic aging on the urban ecology the Abbeyfield model of congregate housing continuing care retirement communities aging in place Shelter and Service Issues for Aging Populations looks at the strengths and weaknesses of different approaches to housing and service provision to help housing policy specialists gerontologists social workers community leaders architects and housing developers find stronger more effective solutions for giving people the home environments they need Don't continue to supply inadequate housing to people with special needs Let this book inform you guide you and contribute to the shaping of important new housing and service policies

Design Intervention (Routledge Revivals) Wolfgang F. E. Preiser, Jacqueline Vischer, Edward White, 2015-05-15

Design Intervention Toward a More Humane Architecture first published in 1991 intends to demonstrate that interest in social issues is alive and well in architecture that there is a small but effective cadre of dedicated professionals who continue to commit themselves to solving social problems and that architecture is being applied to the alleviation of the social ills of our time The editors and contributors in this book have all grappled with their own definitions of design innovation and express in practical and useful ways their ideas for contributing to a better and less needy world through the architecture they describe This book will be of interest to students of architecture

The Role of the Outdoors in Residential Environments for Aging Susan Rodiek, Benjamin Schwarz, 2006-09-11 The Role of the Outdoors in Residential

Environments for Aging presents new insights on the positive role nature and the outdoors can play in the lives of older adults whether they live in the community in an assisted living environment or in a skilled nursing facility Current research suggests that increased contact and activity levels with the outdoors can be an important therapeutic resource for the elderly with significant mental and physical health benefits This unique book examines how to make the most of outdoor spaces in residential settings exploring attitudes and patterns of use the effect of plants the physical environment and health related outcomes from contact with nature and enhanced physical activity
