College of Arts and Sciences, 1982 Slow Learners Diane Griffin, 2005-08-02 First Published in 1978 In the case of slow learners the first and most critical thing to do is to recognise that children are individuals and then to break the circle of failure they expect to tread All the ideas and suggestions in this book therefore are governed by this belief Each chapter is self contained in so far as it can be read by itself and as a reference if a teacher or parent is meeting a particular difficulty in that field Some chapters are pertinent to both primary and secondary school teachers some more to one age group than another but all are related The appendices are itemised separately so that their information may be used on its own All the materials ideas and suggestions are from practising teachers and have been or are being at the present time used in schools **Slow learners in the English Classroom** Dr Binu P.M., 2021-12-14 A classroom is a complex world that contains a relatively heterogeneous group of students Despite their innate skills and abilities some students get unrecognized or neglected due to teachers failure in making proper assessments As a result many students who could be potential scientists or experts in any other field become dropouts or underachievers When classroom instructors only rely on test results without being very keen on using their observational skills to assess their students comprehensively they jeopardize the future of so many children during their careers Hence it would be apt to say that a child s future partially lies in the hands of their early educators This book specifically addresses the problems faced by slow learners in the English classroom It analyses the reasons that make a student a slow learner and provides valuable insights about the strategies and tools English language instructors need to employ to identify and support slow learners in their classes Although this book is intended for use by the teachers of English it will be a helpful guide for all teachers student teachers teacher trainers researchers and policymakers A Study of Problems Involved in Teaching the Slow Learner to Read Margaret Lindsay Goit, 1952 **Understanding Learning Disabilities** Drake Duane, 2012-12-06 The authors of the papers presented in this
