Afrikaners originally published in South Africa in 1978 scandalised a nation as it exposed the secret workings of a powerful Afrikaner organisation called the Broederbond Out of print for over three decades this new edition is available for a new generation and includes an introduction by Max du Preez Formed in Johannesburg in 1918 by a group of young Afrikaners disillusioned by their role as dispossessed people in their own country the first triumph of this remarkable organisation was the fact that it was largely responsible for welding together dissident factions within Afrikanerdom and thereby ensuring the accession of the National Party to power in 1948 This highly organised clique of Super Afrikaners by sophisticated political intrigue waged a remarkable campaign to harness political social and economic forces in South Africa to its cause and succeeded Political journalists Hans Strydom and Ivor Wilkins traced at great personal risk its development from its earliest days The book includes the most comprehensive list of Broeders ever published *South Africa's 1940s* Saul Dubow, Alan Jeeves, 2005 The 1940s was a turbulent period in the history of South Africa It opened with parliament's bitterly contested decision to enter the war was rocked by political turmoil and ended with a bang as well as a whimper as the National party captured political power in 1948 **The White Man's World** Bill Schwarz, 2011-10-27 Memories of Empire is a trilogy which explores the complex subterranean political currents which emerged in English society during the years of postwar decolonization Bill Schwarz shows that through the medium of memory the empire was to continue to possess strange afterlives long after imperial rule itself had vanished The White Man's World the first volume in the trilogy explores ideas of the white man as they evolved during the time of the British Empire from the mid nineteenth century to the mid twentieth century looking particularly at the transactions between the colonies and the home society of England The story works back from the popular response to Enoch Powell's Rivers of Blood speech in 1968 in which identifications with racial whiteness came to be highly charged Driving this new racial politics Bill Schwarz proposes were unappeased memories of Britain's imperial past The White Man's World surveys the founding of the so called white colonies looking in particular at Australia South Africa and Rhodesia and argues that it was in this experience that contemporary meanings of racial whiteness first cohered These colonial nations white men's countries as they were popularly known embodied the conviction that the future of humankind lay in the hands of white men The systems of thought which underwrote the ideas of the white man and of the white man's country worked as a form of ethnic populism which gave life to the concept of Greater Britain But if during the Victorian and Edwardian period the empire was largely narrated in heroic terms in the masculine mode by the time of decolonization in the 1960s racial whiteness had come to signify defeat and desperation not only in the colonies but in the metropole too Identifications with racial whiteness did not disappear in England in the moment of decolonization they came alive again fuelled by memories of what whiteness had once represented recalling the empire as a lost racial utopia **The Diplomacy of Isolation** D. Geldenhuys, 1984-07-26 **Dictionary of World Biography: The 20th century, O-Z** Frank Northen Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the Dictionary of World Biography contains 250

entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **Keith Hancock** D.A.

Low, 2016-06-03 Sir Keith Hancock KBE 1898 1984 was the most distinguished scholar in the humanities and social sciences to have been born and to have worked in Australia He was a graduate of the University of Melbourne a Rhodes Scholar and the first Australian Fellow of All Souls College Oxford He successively held History chairs at the universities of Adelaide Birmingham Oxford and London and at the Australian National University Aged 32 he published his *Australia* London 1930 still the single most striking commentary on this country many of whose aphorisms have percolated through into numerous other writings Aged 74 he published his last major work *Discovering Monaro A Study of Man's Impact on the Environment* Cambridge 1972 which was arguably the primary fillip to the study of Australian environmental history to this day The main chapters of this book discuss largely in sequence the major books that he wrote the fields with which he dealt and the directions these have taken since he did so They revisit an extraordinary series of creative achievements while providing an introduction to the work of an exceptional Australian scholar The book will be important for anyone interested in the Humanities in Australia and particularly for those concerned with Australian historiography There are indications that imaginative teachers of History Honours students are already going back to Hancock's writing and finding students responding positively to it *Great Britain, the Dominions and the Transformation of the British Empire, 1907-1931* Jaroslav Valkoun, 2021-02-15 The relations of Great Britain and its Dominions significantly influenced the development of the British Empire in the late 19th and the first third of the 20th century The mutual attitude to the constitutional issues that Dominion and British leaders have continually discussed at Colonial and Imperial Conferences respectively was one of the main aspects forming the links between the mother country and the autonomous overseas territories This volume therefore focuses on the key period when the importance of the Dominions not only increased within the Empire itself but also in the sphere of the international relations and the Dominions gained the opportunity to influence the forming of the Imperial foreign policy During the first third of the 20th century the British Empire gradually transformed into the British Commonwealth of Nations in which the importance of Dominions excelled The work is based on the study of unreleased sources from British archives a large number of published documents and extensive relevant literature *Rethinking the Rise and Fall of Apartheid* Adrian Guelke, 2017-03-16 Providing a much needed antidote to recent revisionist attempts to rehabilitate apartheid this major new text by a leading authority offers a considered and substantive reassessment of the nature endurance and significance of apartheid in South Africa as well as the reasons for its dramatic collapse Paying particular attention to the international

dimension as well as the domestic the author assesses the impact of anti apartheid protest of changing attitudes of Western governments to the apartheid regime and the evolution of South African government policies to the outside world

The Last Hurrah Graham Viney, 2019-04-18 Young Elizabeth captures in vivid detail perhaps the single most important formative experience in Queen Elizabeth's life the 1947 royal tour of southern Africa with her parents King George VI Queen Elizabeth and Princess Margaret during which she celebrated her twenty first birthday The year of the royal tour of southern Africa 1947 marked both the high water mark of the British Empire and the very moment at which it began to unravel Graham Viney has written an intimate revealing portrait of the young princess on tour with her parents and sister Princess Margaret hard at work in the national interest and succeeding triumphantly against all odds In the words of Rian Malan South African author of *My Traitor's Heart* it is a story about a country teetering on the brink of convulsive change and yet almost united at least for a moment by love for a king and queen who weren't really ours The year 1947 was a pivotal moment not just in the history of the Union of South Africa but of the British Empire itself Later that same year India gained independence and just one year later the Afrikaner Nationalist victory in South Africa would lead inexorably to the Republic of South Africa in 1961 and its departure from the Commonwealth The present Queen Elizabeth must have learned a great deal about statecraft from her father and about duty tact and hard work from both her parents in the course of this three month tour during which the then princess celebrated her twenty first birthday It was also the family's first real experience of multiculturalism Graham Viney's book gives us an intimate and revealing portrait of the royal family while also superbly capturing a moment in the life of a fractious recently formed nation before its descent into over four decades of darkness The royal family travelled ceaselessly from February to April on a specially commissioned white and gold train meeting thousands of people at every stop along the way The tour was a show of imperial solidarity and a recognition of South Africa's contribution to the Allied cause during the Second World War specifically that of South African prime minister Jan Smuts who had served in both British war cabinets Young Elizabeth draws skilfully on many diverse sources not least the Royal Archive at Windsor and includes many photographs of the royal family not previously published such as stills from film footage held by the South African National Film Video and Sound Archives in Pretoria

Schonland Brian Austin, 2016-04-19 Schonland Scientist and Soldier is a biography of Sir Basil Schonland FRS 1896-1972 Schonland was a major contributor to twentieth century British and Commonwealth science both in peace and war This is not just a scientific biography but a biography that tells much of a highly placed scientist and administrator of the increasing engagement

Oxwagon Sentinel Christoph Marx, 2008 This new approach to the social history of Afrikaner nationalism looks into the diverse causes for the rise of a political movement which was to shape South African history profoundly during the 20th Century In the 1930s Afrikaner nationalism transformed itself from a populist into a cultural nationalism becoming politically radicalised at the same time The nationalist symbol of the oxwagon was used not only by the National Party but also by the extra and antiparliamentarian mass

movement Ossewabrandwag which was founded in 1939 Drawing on a broad range of archival resources the social history of this extremist organisation is analysed showing local and regional differences The Ossewabrandwag as a nationalist movement counted a considerable part of the Afrikaans white population among its members Therefore the Ossewabrandwag can be understood appropriately only in the context of radical Afrikaner nationalism Given that the potential for political radicalisation in the white South African population was considerable ideological influences from overseas played merely an additional role The book looks into the reasons for the mass participation in the Ossewabrandwag In addition it analyses the organisation s fight with the National Party and its illegal and treasonable activities In this context the book discusses which ideological influences on the apartheid policy can be identified as coming from organised right wing extremism *The Conch Review of Books* ,1973 **The Statesman's Year-Book 1984-85** J. Paxton,2016-12-15 The classic reference work that provides annually updated information on the countries of the world
