Glue Sniffing & out of Body Experiences William T Stead, 2019-08-31 I have written a story about glue sniffing and out of body experiences that occurred during the early seventies Back then I was a teenager who had a difficult upbringing with many factors causing a chaotic life Through all of this I learned the potentials of a stimulant combined with mind control It was my first use of any kind of drug and unintentionally it took me on a journey of discovery There are two main abilities one has to overcome in order to experience OBEs The first is telepathic speech construction and application The ability to communicate is immensely important and allows you to utilise the learning process The second is manipulation of the visual environment When this has been achieved I attained a separation of the soul from the body to a state I call the third level In this plane I had a guide called Gong he is of alien origin and my mentor My time in the third phase lasted around one year in which I experienced technologies far in advance of mankind To summarise

part of the outstanding events I have seen thirteen UFO s on three different occasions not on drugs witnessed scenes from my own future in detail I was permitted to see the left hand side of my soul I have been in the same room as an alien Events of this nature although exceptional are not the main point of the story I was asked to write of my experiences in the spirit plain At the time my education was close to semi literacy and through a combination of learning and patience feel it is the right time to fill an agreement

The Place in the Forest R.D. Lawrence, 1998-03-15. A number of years ago R.D. Lawrence acquired a patch of Ontario wilderness soon known as The Place. Here Lawrence and his wife built a cabin and became immersed in studying the ways of the wild. The Place was home to a variety of wildlife from black bears, wolves, beavers and raccoons through to hawks, snapping turtles and singing mice. Lawrence's desire to learn fuelled by his keen observation led to his writing about and photographing life within his small corner of the forest, the result being a warm, witty account of change and survival in the natural world.
