Creative Readings of Multilingual Picturebooks Esa Christine Hartmann, Áine McGillicuddy, 2025-03-31 This edited volume offers fresh perspectives on linguistic and cultural diversity in multilingual picturebooks, examining their potential to support multilingual learning in different educational contexts. Drawing on international transdisciplinary perspectives from over fifteen countries, the book provides a comprehensive view of this unique literary genre. The collection showcases a wide range of languages featured in multilingual picturebooks, including Chinese, Farsi, Georgian, Irish, Korean, Malagasy, Mexican, Indigenous languages, Mirandese, Northern S mi, Portuguese, Spanish, Te Reo M ori, Ukrainian, and Welsh. Various chapters examine how multilingual picturebooks foster language and literacy development for emergent bilinguals in multilingual and multicultural environments, highlighting benefits such as linguistic and semiotic code switching, as well as their ability to stimulate intercultural awareness in readers. The book also considers the creation, translation, and complex publishing processes of multilingual picturebooks while exploring modern technologies such as eye tracking to analyse the reading processes of these books. Reflecting current insights and innovations in picturebook research, this volume will appeal to scholars, academics, and researchers in language and literacy education, multilingual education, and early childhood education. Those involved in children's literature studies, multimodality, and bilingualism more broadly will also find this collection valuable.
