Social Change In Russia And Eastern Europe From Party Hacks To Nouveaux Riches:

Social Change in Russia and Eastern Europe Silviu Brucan, 1998-09-30 Brucan a former Romanian ambassador to the United States and the United Nations provides the first social history of the remarkable transition from communism to capitalism in Russia and Eastern Europe after the collapse of the Soviet Union He begins with an examination of the old social structure in communist societies which used to be cosmetically advertised by the party and officialdom paying particular attention to the nomenklatura who have miraculously transformed themselves into big businessmen and bankers A chapter is devoted to the decline of the working class whom Brucan shows to be the big loser in the revolution He then examines the new social stratification illustrating how the new classes are taking shape under the conditions created by market reform The symbiosis between capital and power is analyzed in depth and Ambassador Brucan concludes his study with a look at the direction the social transformations are pushing these societies particularly the separate paths being followed by Russia and Eastern Europe This is an important study for researchers scholars and policy makers involved with Russia and Eastern Europe

Inside the Mechanisms of Romanian Modernization Florin Grancea, 2006-09-05 This book analyzes in the relation with the Romanian modernity the transformations of the Romanian public sphere political system and journalism from the beginning of the 19th Century up to 2005 The argumentation starts from the idea that the Romanian Enlightenment never had the chance to reach its purpose the creation of the individual as a human category As a consequence of this historical fact the Romanian modernity was not explored in all its dimensions and was not congruent with its western model of development Only after late 90 s signs for a surpassing historical backwardness were seen in Romania and only after the integration into EU become sure From this perspective this book looks onto the change in the modernization engine of Romania in late 90 s This change is happening as a transgression from a three steps modernization model in which the role of the elite is central to a two steps modernization model in which the role of the elite is minimal Because the three steps modernization model fits the idea of an acclamatory public sphere while the two steps modernization engine fits the concept of civil public sphere this book proves that the Romanian democracy is evolving from its totalitarian background to become a participative democracy The only question unanswered yet is if the elite and the mass media are willing to let Romania and its citizens to breakup the ties with the totalitarian past

How Russia Is Not Ruled Allen C. Lynch, 2005-01-10 The state remains as important to Russia s prospects as ever This is so not only because as in any society an effectively functioning state administration is necessary to the proper functioning of a complex economy and legal system but also because in Russian circumstances factors of economic geography tend to increase costs of production compared to the rest of the world These mutually reinforcing factors include the extreme severity of the climate the immense distances to be covered the dislocation between European population centers and Siberian natural resource centers and the inevitable predominance of relatively costly land transportation over sea borne transportation As a result it is questionable whether

Russia can exist as a world civilization under predominantly liberal economic circumstances in a unified liberal global capital market large scale private direct capital investment will not be directed to massive outdoor infrastructure projects typical of state investment in the Soviet period

Global Rivalries From the Cold War to Iraq Kees van der Pijl, 2006-08-20 This book offers a highly original analysis of world events in the light of the Iraq War It explores the history and development of relations between major countries in the international community and the impact that successive wars and changes in the global political economy have had on the way states relate to each other today Tracing the liberal state structure back to the closing stages of the English Civil War and settlement in North America it argues that the rise of the English speaking West has created rivalries between contender states that are never entirely put to rest With each round of Western expansion new rivalries are created Offering a truly global analysis that covers every area of the world from Europe and America to China the Middle East Latin America and Russia he analyses the development of international relations post WWII and questions whether the neoliberal project and its human rights ideology have collapsed back into authoritarianism under the guise of the war on terror

Russia in the Twentieth Century David R. Marples, 2014-01-14 The history of Russia as the natural successor to the Soviet Union is of crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example

Dossierveillance, Collaboration, and Fear in Society Cristina Plamadeala, 2025-06-25 Exploring the cultural history of surveillance practices of the Securitate Romania's secret police during its communist period the book blends biographical details in a historical inquiry to establish the concepts of psuchegraphy dossierveillance and banalization of evil in the study of Securitate Archives In the context of communist Romania under the reign of Nicolae Ceau escu 1965-89 dossierveillance was a type of surveillance that stresses the miasmic effect of Securitate dossiers in the daily life of Romanians Centered around the analysis of this concept the book presents a unique account of the surveillance practices of totalitarian and authoritarian regimes expanding its relevance to fear in the current neo liberal societies This book will appeal to students of Eastern European history and politics criminology sociology anthropology and surveillance studies

Motherland David R. Marples, 2014-10-13 Motherland tells the dramatic story of the rise and fall of the Soviet Union From Lenin's virtual coup in November 1917 to Boris Yeltsin's ruthless takeover of power in 1991 the book culminates with a new view of the Yeltsin years David Marples focuses on the evolution of Russia during the Soviet period and the attempt to harness Russian nationalism to the avowed Soviet mission of promoting World Communism Along the way he analyses some of the more intensive historical debates and uncovers some of the myths perpetuated by state propaganda especially those associated with the Great Patriotic War

Russia After Communism Rick Fawn, Stephen White, 2002 Russia's transition from communism holds great significance not only for itself but also for the wider world This collection of essays examines the spectrum of Russia's transition since 1991 considering not only the pattern of events but also what the changes have meant for Russians themselves

Forthcoming Books Rose Arny, 1998 **The State of Political Science in Central and Eastern Europe** Hans-Dieter Klingemann, Ewa Kulesza-Mietkowski, Annette Legutke, 2002 Central and Southeastern Europe in Transition Hall Gardner, Elinore Schaffer, Oleg Kobtzeff, 2000-06-30 It is increasingly important to understand the complexity of central and southeastern Europe following the enlargement of NATO into Central Europe the ongoing problems of the Balkans and the subsequent focus of global attention on the entire region Gardner brings together exceptional French and Eastern European scholars who present first hand accounts of their experience and knowledge of the region Each provides differing political social cultural and economic perspectives on Central and Southeastern Europe The volume begins with a general discussion of the place of central and southeastern Europe in the greater scheme of European history This is followed by an examination of the western European and Russian attitudes toward the Balkans and the largely ignored affects of the Ottoman empire on the Balkans The importance of culture and the crucial role it played in undermining both the theory and practice of communism is explored The impact of the media is then examined in two chapters that look at the process of media liberalization in the context of each country's political situation and the particular problems the media faces in the region The focus shifts to the role of finance capital and its impact in emerging privatized economies How the global drug wars affect the Balkan region are also explored The ecological damage to Central and eastern Europe and Russia caused by the communist system is detailed and the volume ends with a look at the complexity of factors that led NATO to enlarge into Central Europe and intervene in Bosnia and Kosovo This wide ranging collection will be of particular interest to scholars and researchers involved with all facets of contemporary central and eastern European life
