It focuses on family controlled media conglomerates in Korea specifically the international business giant Samsung and its related media companies Cheil Jedang and JoongAng Ilbo all of which are controlled by the single Lee family. Utilizing the theoretical approach of political economy of communication the book examines how and why the Lee family exercise corporate censorship over Korean society. Offering an essential take on Asia's political economy of communication in order to understand the workings of Asian media empires this book will appeal to students and scholars of Korean Studies Korean Business and Mass Communications.

Public and Private Families Andrew J. Cherlin, 2001-07. Nationally recognized for its sound scholarship and balanced approach and written by one of the leading authorities in the field. *Public and Private Families 3e* examines the family through two lenses: the familiar private family in which we live most of our personal lives and the public family in which we as adults deal with broader societal issues such as the care of the elderly, the increase in divorce and childbearing outside of marriage. Consequently the book looks both at intimate personal concerns such as whether to marry as well as societal concerns such as governmental policies that affect families.

Sociology Richard T. Schaefer, 2004. Three basic premises guide this highly successful introductory text: first that theory and research must be both comprehensive and clear; second that the text must show how sociology is relevant both to the study of society and to students' lives; and third that sociology can play a valuable role in teaching critical thinking skills. To that end this solid well respected text combines a balanced three perspective approach with excellent student oriented examples and distinctive social policy sections in a concise presentation that offers an alternative to full length books.
