I. T. Machin, 1998 During this century the Christian Churches of Britain have lost support and influence to the extent that their future is considered by some observers to be problematic They have also been confronted with an unprecedented concentration of social changes some of which have challenged central religious traditions and teachings This multi denominational study is the first to investigate these changes public and private across virtually the entire Christian spectrum Professor Machin shows that while there are examples of growing division between Churches over some social issues the more general response has been one of differences within Churches This fascinating and broad ranging study will be invaluable to all those interested in the Churches response to the social and moral challenges of twentieth century Britain

**Modern Britain** Jan Erik Mustad, 2012 [Literature and Culture in Modern Britain: Volume Three](#) Clive Bloom, Gary Day, 2014-06-11 British culture has changed almost beyond recognition since 1956 Angry young men have been displaced by Yuppies Elvis by the Spice Girls and meat and two veg by continental cuisine What is more as the death of Diana Princess of Wales showed the British are now more famous for a trembling lower lip than a stiff upper one This volume the last in the series examines the transformations in literature and culture over the last forty years An introductory essay provides a context for the following chapters by arguing that although there have been significant changes in British life there are also profound continuities It also discusses the rise of theory and its impact on the humanities Each essay in the

volume concentrates on a facet of British culture over the last half century from painting to poetry from the seriousness of the novel to the postmodern ironies of the computing age What we get from this selection is not only an informed history of the relations between literature and culture but also a lively sense of cultural change not least of which is the new found relationship between literature and other arts which ushers us into the new millennium *Towns, Plans and Society in Modern Britain* Helen Meller,1997-08-07 In this concise survey Helen Meller aims to explore the interaction of the social and physical environment of cities All modern societies have experienced mass urbanisation and have been subject to the economic social and technological forces which have produced this urbanisation Yet all towns and cities are not the same The author points out that historical and cultural factors have played and are still playing an important part in shaping responses to these forces This becomes even more clearly evident when the urban environment becomes subject to planning Urban regeneration has facilitated not just an improvement in the physical environment of cities but in their economic and social fortunes as well This study is an accessible analysis of the way in which social cultural and physical factors have created the quality of life in British cities over the past two centuries **A Bibliography of British Industrial Relations 1971-1979**
