Social Science Research And Decision Making:

Social Science Research and Decision-making Carol H. Weiss, Michael J. Bucuvalas, 1980 **Social Sciences for Knowledge and Decision Making** OECD, 2001-01-31 This conference proceedings examines the role social sciences can play in developing sound policy **Decision Making for the Environment** National Research Council, Division of Behavioral and Social Sciences and Education, Center for Economic, Governance, and International Studies, Committee on the Human Dimensions of Global Change, Panel on Social and Behavioral Science Research Priorities for Environmental Decision Making, 2005-05-31 With the growing number complexity and importance of environmental problems come demands to include a full range of intellectual disciplines and scholarly traditions to help define and eventually manage such problems more effectively Decision Making for the Environment Social and Behavioral Science Research Priorities is the result of a 2 year effort by 12 social and behavioral scientists scholars and practitioners The report sets research priorities for the social and behavioral sciences as they relate to several different kinds of environmental problems **Social Science and Government** A. B. Cherns, W. I. Jenkins, R. Sinclair, 2013-10-11 Tavistock Press was established as a co operative venture between the Tavistock Institute and Routledge Kegan Paul RKP in the 1950s to produce a series of major contributions across the social sciences This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print or are difficult to locate Published by Routledge 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library Classics from the Tavistock Press Reproduced here in facsimile this volume was originally published in 1972 and is available individually The collection is also available in a number of themed mini sets of between 5 and 13 volumes or as a complete collection Handbook of Decision Making Goktug Morcol, 2006-11-01 Handbook of Decision Making includes the wisdom of the long theological and philosophical traditions of human society as well as a systematic exploration of the implications of contemporary evolutionary theories Common patterns in decision making styles are identified as well as the common variations that different contexts may generate The text covers the multiplicity of mainstream decision making styles such as cost benefit analysis and linear programming It also explains alternative and emerging methods such as geographic information systems Q methodology and narrative policy analysis Practical applications are discussed using decision making practices in budgeting public administration and governance drug trafficking and information systems *World Social Science Report 2013* UNESCO, ISSC, 2013-11-15 Produced by the International Social Science Council ISSC and UNESCO and published by the OECD the 2013 World Social Science Report represents a comprehensive overview of the field gathering the thoughts and expertise of hundreds of social scientists from around the world This edition focuses on the transformative role of the social sciences in confronting climate and broader processes of environmental change and in addressing priority problems from energy and water biodiversity and land use to urbanisation migration and education The report includes 100 articles written by 150 authors from 41 countries

all over the world Authors represent some 24 disciplines mainly in the social sciences The contributions highlight the central importance of social science knowledge for environmental change research as a means of understanding changing environments in terms of social processes and as framework for finding concrete solutions towards sustainability

Mapping Out the Research-policy Matrix Germán Solinís, Nicolas Baya-Laffite, 2011-01-01 Social science research provides not only abstract conceptual knowledge about society but also concrete instrumental knowledge It enables us to take action to recompose the world we live in However this book rejects narrow and simplistic conceptions of research use and its impact on policy making to embrace a more complex approach to seeing and dealing with social science In the paradigm of evidence based policy evidence is understood in its broad sense as information that helps form policies Nonetheless within current practices and discourse it is not clear what information is what is really meant by evidence and how it can be obtained objectively The book draws on papers presented at the International Forum on the Social Science Policy Nexus where experts examined current practices and problems in areas such as social policy migration urban policies and globalisation The Forum set a precedent in terms of dialogue between researchers and policy makers The authors contribute to enriching and elucidating the most common conceptualisations of the research policy nexus They represent a rich diversity of views although most agree that an effective strategy to enhance social science policy linkages should be underpinned by a theoretical and methodological framework that takes into account the interplay of different social actors

World Social Science Report 2013 Changing Global Environments International Social Science Council, United Nations Educational, Scientific and Cultural Organization, 2013-11-15 This book represents a comprehensive overview of the field gathering the thoughts and expertise of hundreds of social scientists from around the world This edition focuses on the transformative role of the social sciences in confronting climate and broader processes of environmental change

Laboratory Experiments in the Social Sciences Murray Webster, Jane Sell, 2014-07-01 While there are many books available on statistical analysis of data from experiments there is significantly less available on the design development and actual conduct of the experiments *Laboratory Experiments in the Social Sciences* summarizes how to design and conduct scientifically sound experiments be they from surveys interviews observations or experimental methods The book encompasses how to collect reliable data the appropriate uses of different methods and how to avoid or resolve common problems in experimental research Case study examples illustrate how multiple methods can be used to answer the same research questions and what kinds of outcome would result from each methodology Sound data begins with effective data collection This book will assist students and professionals alike in sociology marketing political science anthropology economics and psychology Provides a comprehensive summary of issues in social science experimentation from ethics to design management and financing Offers how to explanations of the problems and challenges faced by everyone involved in social science experiments Pays attention to both practical problems and to theoretical and philosophical arguments Defines
