Assessment is based on Ian Wilkinson's extensive experience of working with troubled children and families over the last twenty years. This completely revised and updated edition of *Family Assessment* (Gardner Press 1993) combines a clear summary of current knowledge with practical, detailed and adaptable procedures for practitioner use. Part one reviews the literature on child and family assessment; part two discusses the practical issues involved and provides detailed guidelines for practitioners; a final part examines the relationship between clinical practice, assessment and science with respect to children and families. Written from an eclectic point of view in a clear and precise style using common sense terms, this book will be an essential guide for all those in the helping professions including therapists, psychologists, doctors, nurses, social workers and lawyers.

**Assessment of Parenting** Dr Peter Reder, Clare Lucey, 2014-02-04. These are the sorts of questions that face mental health practitioners who are increasingly involved in complex child care cases which come before the courts. They have been given little guidance to date on how these assessments should be made, especially where a decision has to be taken as to whether a child has experienced significant harm. In this much needed book, senior clinicians consider the principles and practice of parenting assessments and how they guide courts' decisions about children's welfare. They describe a number of frameworks for assessment and discuss the factors which help predict the risk of future maltreatment or the likelihood of successful rehabilitation. Throughout the book, the emphasis is on the need to integrate the assessments of all relevant professionals in order to serve the best interests of the child while also addressing the parents' potential to improve their caretaking skills. Offering guidance in areas of crucial significance for child, family and professional alike, *Assessment of Parenting* will be widely welcomed.
