The Biographical Dictionary of Women in Science Marilyn Ogilvie, Joy Harvey, 2003-12-16 Volume 2 of 2

History as a Science Jan van der Dussen, 2020-05-11 Since its appearance in 1981 History as a Science by Jan van der Dussen has been welcomed as a coherent and comprehensive study of the many aspects of Collingwood's philosophy of history including its development and reception The book was the first to pay attention to Collingwood's unpublished manuscripts and to his work as an archaeologist and historian herewith opening up a new angle in Collingwood studies The republication of this volume meets an increasing demand to make the book available for future Collingwood scholars and people interested in Collingwood's philosophy The present edition of History as a Science includes updated references to the published manuscripts and an added preface

Scientific Sources and Teaching Contexts Throughout History: Problems and Perspectives Alain Bernard, Christine Proust, 2013-11-26 This book examines the textual social cultural practical and institutional environments to which the expression teaching and learning contexts refers It reflects on the extent to which studying such environments helps us to better understand ancient or modern sources and how notions of teaching and learning are to be understood Tackling two problems the first is that of certain sources of scientific knowledge being studied without taking into account the various contexts of transmission that gave this knowledge a long lasting meaning The second is that other sources are related to teaching and learning activities but without being too precise and demonstrative about the existence and nature of this teaching context In other words this book makes clear what is meant by context and highlights the complexity of the practice hidden by the words teaching and learning Divided into three parts the book makes accessible teaching and learning situations presents comparatist approaches and emphasizes the notion of teaching as projects embedded in coherent treatises or productions

Reader's Guide to the History of

Science Arne Hessenbruch, 2013-12-16 The Reader's Guide to the History of Science looks at the literature of science in some 550 entries on individuals, Einstein, institutions and disciplines, Mathematics, general themes, Romantic Science and central concepts, Paradigm and Fact. The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn.

"And O'er Earth's Troubled, Angry Sea": The History of Christian Science in the United States Rolf

Swensen, 2025-05-21 Christian Science is one of the most unique and controversial of American religions but there has never been a history of this influential metaphysical group best known for its healing through prayer. Most attention has previously focused on the church's founder, Mary Baker Eddy, 1821-1910. This compilation of nine previously published scholarly articles buttressed by additional insight presented in the preface, introduction and conclusion should lead to further investigation of this compelling topic. This volume investigates the origins of the Christian Science movement, illustrates how Eddy's students, mainly women, helped its rapid spread through healings, how Eddy guided and restrained her students, examines some denominational growing pains, underscores how The Mother Church in Boston and Eddy's Church Manual evolved, recounts dozens of testimonies of healing and shows how local or branch churches operated before and after Eddy's passing. Contrary to previous assumptions, the new Christian religion was surprisingly diverse with almost one half of the membership coming from the lower middle and working classes. This vibrant church ultimately declined due to excessive centralization and insufficient utilization of the membership plus lack of social activities and the rise of medical science. Recent efforts to revitalize the movement through embracing communities are continuing. *And O'er Earth's Troubled, Angry Sea: The History of Christian Science in the United States* will appeal to Christian Scientists, kindred spirits in the metaphysical world, anyone interested in religion and those who read social history. Each chapter is suitable for group discussions and for undergraduate or graduate classes.

History of Psychiatry and Medical Psychology Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below. Nevertheless, the Preface would be grossly incomplete without touching on some of these issues, books and scholars. Too many of this book's chapters, e.g., Mora's, Marx's, D.B. Weiner's, examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German, French, Italian and Spanish. Also in his 1968 *Short History of Psychiatry* discussed below, Ackerknecht pp. xi-xii references important nineteenth and earlier twentieth century psychiatric histories in English, French and German. Such citations will, of course, not be repeated here. Finally, thanks to several publishers' re-issues of dozens of classical psychiatric texts, one can consult their bibliographies as well. See Prolegomenon for references to these splendid series. In a rough and ready sense, medical history began in classical Greece, for example, *On Ancient Medicine*. While traditionally included in the Hippocratic corpus, this text seems more likely to have been written by a non- or even anti-Hippocratic doctor. Moreover, the Hippocratic and other schools

were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease *Bibliographical Survey of Contemporary Sources for the Economic and Social History of the War* Mildred Emily Bulkley,1922
