**Sources of Hermeneutics** Jean Grondin, 1995-01-01 This book provides an introduction to the historical sources of philosophical hermeneutics as it has come to fruition in the work of Heidegger and Gadamer Strong Hermeneutics Nicholas H. Smith, 2002-09-11 Recent years have seen a resurgence of interest in ethics particularly in the approaches of deconstruction and hermeneutics At the same time questions of identity have risen to prominence in philosophy and beyond into cultural studies and literature Strong Hermeneutics is a clear and accessible investigation of both the enlightenment and postmodern or weak approaches to contemporary discussions of ethics The weak view which can be traced back to Nietzche and seen in the recent work of Rorty and Lyotard is sceptical of any universal principles in ethics The enlightenment view starting with Kant and more recently seen in the work of Habermas views identity as subject to universal but formal moral constraints the renewing of which is the proper task of ethics Nicholas Smith argues that neither of these views can provide a proper framework for ethics He puts forward a third position a strong hermeneutics drawing on the work of Hans Georg Gadamer Paul Ricoeur and Charles Taylor Strong Hermeneutics presents a defence of this view compares it with the realism and anti realism debate in philosophy and demonstrates its relevance to contemporary issues particularly ecological The Hermeneutics of Divine Testing Nicholas Ellis, 2015-06-29 Nicholas Ellis examines the interplay responsibility present in early Jewish literature between authors theological assumptions on divine agency in evil and their readings of biblical testing narratives Ellis takes as a starting point the Epistle of James and compares this early Christian work against other examples of ancient Jewish interpretation Ellis shows how varying perspectives on the divine satanic and human roles of testing exercised a direct influence on the interpretation of popular biblical testing narratives such as Abraham and Isaac Job and the Trials in the Wilderness Read in light of the broader Jewish literature Ellis argues that the theology and hermeneutic found in the Epistle of James as such relate to divine testing are closely paralleled by the so called Rewritten Bible tradition Within James cosmic drama God stands as righteous judge with the satanic prosecutor indicting both divine integrity and human religious loyalty **Digital History and Hermeneutics** Andreas Fickers, Juliane Tatarinov, 2022-06-21 As a result of rapid advancements in computer science during recent decades there has been an increased use of digital tools methodologies and sources in the field of digital humanities While opening up new opportunities for scholarship many digital methods and tools now used for humanities research have nevertheless been developed by computer or data sciences and thus require a critical understanding of their mode of operation and functionality. The novel field of digital hermeneutics is meant to provide such a critical and reflexive frame for digital humanities research by acquiring digital literacy and skills A new knowledge for the assessment of digital data research infrastructures analytical tools and interpretative methods is needed providing the humanities scholar with the necessary munition for doing critical research The Doctoral Training Unit Digital History and Hermeneutics at the University of Luxembourg applies this analytical frame to 13 PhD projects By

W. McGuire, 2024-07-23 Why do contemporary Christians seem to routinely talk past one another amid contentious theological debates In this illuminating study Sean M W McGuire argues that interpreters lack of self critical reflection on the process of interpretation and compounding cultural factors are problematizing interpretive practice. Thus to work through difficult topics Christians need to develop the ability to reflect on the complexity informing how they interpret Scripture and how they see others interpreting Scripture so that they can coherently and constructively discuss their interpretations with others Grounding the study in the discipline of practical theology McGuire utilizes the cultural theory of metamodernism and the hermeneutics of Hans Georg Gadamer 1900 2002 together with a proposed revision of the Wesleyan Quadrilateral to develop a paradigm for observing and describing differences in biblical interpretive practice Using current debates regarding sexuality as an illustrative example the project reveals the complexity underlying contemporary interpretive practice showing that amid this complexity the prioritization or lack thereof of theological reflection sources prompts certain interpretive conclusions Perceiving the multivalent nature of interpretation readers will be equipped to think carefully and critically about how they come to their biblical interpretive conclusions and how those conclusions inform transformed living in Christ Restoration of the Jews: Early Modern Hermeneutics, Eschatology, and National Identity in the Works of Thomas Brightman Andrew Crome. 2014-05-07 This book offers the first detailed examination of the life and works of biblical commentator Thomas Brightman 1562 1607 analysing his influential eschatological commentaries and their impact on both conservative and radical writers in early modern England It examines in detail the hermeneutic strategies used by Brightman and argues that his method centred on the dual axes of a Jewish restoration to Palestine and the construction of a strong English national identity This book suggests that Brightman's use of conservative modes of literal exegesis led him to new interpretations which had a major impact on early modern English eschatology A radically historicised mode of exegesis sought to provide interpretations of the Old Testament that would have made sense to their original readers leading Brightman and those who followed him to argue for the physical restoration of the Jews to the Holy Land In doing so the standard Reformed identification of Old Testament Israel with elect Christians was denied This book traces the evolution of the controversial idea that Israel and the church both had separate unfulfilled scriptural promises in early modern England and shows how early modern exegetes sought to re construct a distinctly English Christian identity through reading their nation into prophecy In examining Brightman's hermeneutic strategies and their influence this book argues for important links between

a literal hermeneutic ideas of Jewish restoration and national identity construction in early modern England Its central arguments will be of interest to all those researching the history of biblical interpretation the role of religion in constructing national identity and the background to the later development of Christian Zionism This important study provides a new examination of Thomas Brightman's hermeneutical method particularly his ideas on the restoration of the Jews The author's thorough analysis of Brightman's approach also has more general and wider implications for understanding the development of English apocalyptic interpretation into the later seventeenth century Dr Warren Johnston Associate Professor of History Algoma University Andrew Crome's ground breaking study of Thomas Brightman offers a new and sometimes surprising account of the development of millennial thinking in and beyond early modern England This masterly account demonstrates the extent to which an emerging Zionism supported an emerging English nationalism while outlining the historical roots of some of the most important of contemporary geopolitical themes Professor Crawford Gribben Professor of Early Modern British History Queen's University Belfast This important study provides a new examination of Thomas Brightman's hermeneutical method particularly his ideas on the restoration of the Jews The author's thorough analysis of Brightman's approach also has more general and wider implications for understanding the development of English apocalyptic interpretation into the later seventeenth century Dr Warren Johnston Associate Professor of History Algoma University

Revelation, Hermeneutics, and Doctrinal Development in Joseph Ratzinger Fr. Mauro Gagliardi, 2024-09-16 Throughout his prodigious theological and ecclesiastical career Joseph Ratzinger advanced a rich and nuanced theology of Revelation reflecting at length on the nature unity and interrelationship of Scripture and Tradition on their native ecclesial context and on their transformative Christ centered purpose and aim Ratzinger's many writings in this area are marked not only by an unwavering fidelity to divinely revealed truth but also by sensitivity to the difficulties of its interpretation to the dynamics of historical progress and regress and to the needs of the Church and the world within the modern era In Revelation Hermeneutics and Doctrinal Development in Joseph Ratzinger Mauro Gagliardi offers a penetrating diachronic study of Ratzinger's thought on these foundational themes Beginning with his 1955 Habilitationsschrift on St Bonaventure's understanding of Revelation and continuing in his works of the conciliar and post conciliar periods through those of his episcopacy and later pontificate Gagliardi traces Ratzinger s vision of Scripture and Tradition of the Magisterium and theology and of faith and its transmission today By turns critical and appreciative Gagliardi elucidates the German theologian s teaching on Revelation in depth exploring its underlying hermeneutic commitments and in the book s final chapter elaborating its implications for the question of the development of doctrine a topic of both longstanding and pressing importance within Catholic theology and Christian thought **Reading Primary Sources** Miriam Dobson, Benjamin Ziemann, 2020-06-01 Now in its second edition Reading Primary Sources explores the varied traditions in source criticism and through specific examples illustrates how primary sources can be read and used in historical research Part I of this two

Hermeneutic Rationality Maria Luísa Portocarrero, Luis António Umbelino, Andrzej Wierciński, 2012 The problem of the limits of reason is by no means a privileged subject of an academic discourse By reducing reality to what can be conceived of within the paradigms of the scientific laboratory manipulative despotism which positivistic notion of objectivism has established creates in a human being a unilateral conscience of the world and of oneself a conscience that dominates today our understanding of existence in its manifold senses of Being and the world we live in This way of thinking based on a powerful and skillful technique aimed at controlling human life in all its dimensions intends to impose this limiting positivistic horizon on human beings in the name of Liberte Egalite and Fraternite Hermeneutic rationality resists the claims of modern science and promotes the culture of hospitality toward the world as it shows itself in its complexity Maria Luisa Portocarrero Universidade de Coimbra Portugal Professor of Philosophy specializing in the phenomenological hermeneutics of Hans Georg Gadamer and Paul Ricoeur Luis Antonio Umbelino Universidade de Coimbra Portugal Professor of Philosophy and Artistic

Studies Andrzej Wiercinski Albert Ludwigs Universitat Freiburg Germany Professor of Philosophy of Religion specializing in Practical Philosophy Philosophical Hermeneutics The Inner Word in Gadamer's Hermeneutics John Arthos, 2009 Late in his life Hans Georg Gadamer was asked to explain what the universal aspect of hermeneutics consisted in and he replied enigmatically in the verbum interius Gadamer devoted a pivotal section of his magnum opus Truth and Method to this Augustinian concept and subsequently pointed to it as a kind of passkey to his thought It remains however both in its origins and its interpretations a mysterious concept From out of its layered history it remains a provocation to thought expressing something about the relation of language and understanding that has yet to be fully worked out The scholastic idea of a word that is fully formed in the mind but not articulated served Augustine as an analogy for the procession of the Trinity and served Thomas Aguinas as an analogy for the procession between divine ideas and human thought Gadamer turned the analogy on its head by using the verbum interius to explain the obscure relation between language and human understanding His learned interpretation of the idea of the inner word through Neoplatonism Lutheranism idealism and historicism may seem nearly as complex as the medieval source texts he consulted and construed in his exegesis but the profoundity of his insights are unquestioned In unpacking Gadamer's interpretive feat John Arthos provides an overview of the philosophy of the logos out of which the verbum interius emerged He summarizes the development of the verbum in ancient and medieval doctrine traces its path through German thought and explains its relevance to modern hermeneutic theory His work unfolds in two parts as an expansive intellectual history and as a close analysis and commentary on source texts on the inner word from Augustine to Gadamer As such this book serves as an indispensable guide and reference for hermeneutics and the intellectual traditions out of which it arose as well as an original theoretical statement in its own right Consummately researched lucidly written and persuasively argued throughout The Inner Word succeeds brilliantly in bringing to light this neglected but pivotal matter in Gadamer's work Arthos is learned in the best humanist way for he succeeds in creating something new of his own that will speak eloquently to all of us Walter Jost University of Virginia Gadamer suggests that the Christian idea of incarnation is a key to his hermeneutics but does not explain his position in a detailed or systematic manner Arthos brings his considerable knowledge of hermeneutics and rhetoric to bear on Gadamer's insight recounting the rich intellectual history to which Gadamer gestures and providing an extended and detailed exegesis of this pivotal point in the third part of Truth and Method Gadamer's account of linguisticality Arthos explains can best be understood through his use of a complex metaphor the inner word Arthos matches his erudition with clear and clean prose and his account exemplifies rather than just describes Gadamer's hermeneutical philosophy Any scholar interested in Gadamer's philosophy should have this book on his or her shelf Francis J Mootz III William S Boyd Professor of Law William S Boyd School of Law Arthos s strength lies for me in his careful reading of the sources He effectively commands the literature on the subject This work shows in a sophisticated way the legacy of trinitarian theology for philosophical hermeneutics. illuminating the phenomenon of the verbum interius and indicating its centrality for philosophical hermeneutics is accomplished by John Arthos with great sensitivity to the subject matter Andrzej Wiercinski The International Institute for Hermeneutics Hermeneutics of the New Testament Albert Immer,1877 Learning for Life André Mulder, Bas van den Berg,2019-03-08 Teachers of religious education experience the challenge of secularization and diversity in the classroom Schools rooted in the Christian tradition wonder how they can adapt religious education to an increasing plurality in worldviews How can worldview education contribute to the identity development of children and at the same express the identity of the school Learning for Life introduces a hermeneutical communicative model that helps teachers to reflect on their goals didactical roles religious sources and students abilities Teachers invite students to search for meaning in all kinds of religious and non religious sources to exchange views with each other in a respectful way and to respond individually using imagination as a powerful learning tool Learning for Life explains the model provides pedagogical backgrounds and shows results from research at nine primary schools in the Netherlands Hermeneutical communicative learning appears to be an inspiring perspective for both private and public education
