A Political Philosophy of Language and State Xing Yu,2025-02-12 This book is a study of political philosophy concerning the relationship between language and state It argues that language gives origin to the state Its main idea is that while humans communicate using language they create and use media Media extend the distance of communication These media include humans themselves materials human behaviour and consciousness Humans then interact on a large scale and form a large community This leads to the dissolution of the tribe and the formation of the state Then people seek and provide information give interpretations display attitudes and make promises in organizing the state Some people also issue commands They all act through the various types of linguistic communication Language is also the key to realizing freedom equality peace democracy and justice This book can be a reference book of political philosophy or political science or political linguistics to be read by university students and professors alike

Becoming China Jeanne-Marie Gescher,2017-11-09 An account of China s past and present how a small group of people at the edges of the Yellow River evolved to become the state of China today Despite decades of a relatively open door relationship with the rest of the world China is still a mystery to many outside it How does China work what does it want why does it want it and what

does its rise to global power mean for the rest of the world As the twenty first century looks set to be the stage for a battle about competing geopolitical ideals these are urgent questions for everyone with an interest in what the future might bring A world of its own China is both a microcosm and an amplification of questions and events in the wider world China s story offers us an opportunity to hold a mirror to ourselves to our own assumptions to our values and to our ideas about the most important question of all what it means to be human in the world of the state Epic in scope this is the story of how China became the state it is today and how its worldview is based on what has gone before Weaving together inspirations ideas wars and dreams Jeanne Marie Gescher reveals the heart of what it means to be Chinese and how the past impacts the present

Language and State Xing Yu,2021-12-21 Language and State A Theory of the Progress of Civilization Second Edition argues that the state takes form because of language It argues that since humans began to use language they have been able to create and use media Media include materials human behavior human consciousness and humans themselves Media extend the distance of linguistic communication and then humans interact with one another on a large scale and form themselves into a large community This leads to the formation of the state and the dissolution of tribes Linguistic communication then structures human interactions in the formation of the state Humans exchange information with one another give interpretations display attitudes and make promises to one another They even allow for one person to issue commands to all others Humans organize the state in various types of linguistic interaction which further create a condition for the formation of the common interest of all a foundation for the building of the state Then humans rationalize the organization of the state in extending the distance of linguistic communication Humans realize freedom equality peace democracy and justice in their mutual linguistic interactions Language gives origin to the state and sustains the development of the state Language has preset the whole process of the progress of human civilization
