## Sources Of George Fox's Mystical Insight:

**Sources of George Fox's Mystical Insight** Rachel Knight, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work.

*The Truth Values of the Mysticism of George Fox* Rachel Knight, 1919      *The Founder of Quakerism* Rachel Knight, 1923

*Quakers and Mysticism* Jon R. Kershner, 2019-08-29 This book examines the nearly 400-year tradition of Quaker engagements with mystical ideas and sources. It provides a fresh assessment of the way tradition and social context can shape a religious community while interplaying with historical and theological antecedents within the tradition. Quaker concepts such as Meeting the Light and embodied spirituality have led Friends to develop an interior spirituality that intersects with extra-Quaker sources such as those found in Jakob Boehme, Ab Bakr ibn Tufayl, the Continental Quietists, Kabbalah, Buddhist thought, and Luvia indigenous religion. Through time and across cultures, these and other conversations have shaped Quaker self-understanding and so expanded previous models of how religious ideas take root within a tradition. The thinkers engaged in this globally focused interdisciplinary volume include George Fox, James Nayler, Robert Barclay, Elizabeth Ashbridge, John Woolman, Hannah Whitall Smith, Rufus Jones, Inazo Nitobe, Howard Thurman, and Gideon W. H. Mweresa, among others.

**New Light on George Fox and Early Quakerism** Richard George Bailey, 1992 This study is a discussion about Fox's meaning of the inner light. It argues that Fox's inner light was the celestial Christ who inhabited and divinized the believer. Fox argued for a celestial inhabitation of the believer that was almost corporeal. This helps explain Fox's thaumaturgical powers, the exalted language used among early Quakers, especially toward Fox, and the blasphemy trials and the Nayler incident. These belong at the very centre of early Quakerism and are the logical result of the core elements of Fox's teaching. His notion of celestial flesh was one of the greatest challenges to Christian orthodoxy to appear in Christian history, and it may be compared to Jesus' own challenge to Orthodox Judaism or the appearance of the high heresies of the 2nd and 3rd centuries after Jesus. Early Quakerism, as a result, was the most charismatic sect to appear since the days of the early Church or at least since the era of Montanism.

**Mysticism: a Select Bibliography**, 1973      **Mystical Encounters**

**with the Natural World** Paul Marshall, 2005-07-07 Some experiences of the natural world bring a sense of unity, knowledge, self-transcendence, eternity, light, and love. This is the first detailed study of these intriguing phenomena. Paul Marshall explores the circumstances, characteristics, and after-effects of this important but relatively neglected type of mystical experience and critiques explanations that range from the spiritual and metaphysical to the psychoanalytic, contextual, and neuropsychological. The theorists discussed include R. M. Bucke, Edward Carpenter, W. R. Inge, Evelyn Underhill, Rudolf Otto, Sigmund Freud, Aldous Huxley, R. C. Zaehner, W. T. Stace, Steven Katz, and Robert Forman, as well as contemporary

neuroscientists The book makes a significant contribution to current debates about the nature of mystical experience **A**

**Harmony of the Spirits** Patrick M. Erben, 2013-06-10 In early Pennsylvania translation served as a utopian tool creating harmony across linguistic religious and ethnic differences Patrick Erben challenges the long standing historical myth first promulgated by Benjamin Franklin that language diversity posed a threat to communal coherence He deftly traces the pansophist and Neoplatonist philosophies of European reformers that informed the radical English and German Protestants who founded the holy experiment Their belief in hidden yet persistent links between human language and the word of God impelled their vision of a common spiritual idiom Translation became the search for underlying correspondences between diverse human expressions of the divine and served as a model for reconciliation and inclusiveness Drawing on German and English archival sources Erben examines iconic translations that engendered community in colonial Pennsylvania including William Penn's translingual promotional literature Francis Daniel Pastorius's multilingual poetics Ephrata's angelic singing and transcendent calligraphy the Moravians polyglot missions and the common language of suffering for peace among Quakers Pietists and Mennonites By revealing a mystical quest for unity Erben presents a compelling counternarrative to monolingualism and Enlightenment empiricism in eighteenth century America **Holiness: The Soul of Quakerism**

Carole Dale Spencer, 2007-12-01 No single word conjures up religion spirituality or the sacred more than holiness Yet its meaning in Christian theology and application in Christian practice has been greatly misunderstood Few Quakers today of any persuasion would recognize the mystical depth of meaning the concept had for Quakers down through the centuries Holiness The Soul of Quakerism recovers the essential place of holiness theology in three centuries of Quaker history It explores how Quaker spirituality was shaped in its inception by the experience of union with God otherwise known in the Christian tradition as perfection and examines selected figures from Quaker history who represent different emphases of holiness in the context of their time and culture **Quakers Reading Mystics** Michael Birkel, 2018-07-17 Over the centuries Quakers have read non Quakers regarded as mystics This study explores the reception of mystical texts among the Religious Society of Friends focusing in particular on Robert Barclay and John Cassian Sarah Lynes Grubb and Jeanne Guyon Caroline Stephen and Johannes Tauler Rufus Jones and Jacob Boehme and Teresina Havens and Buddhist texts selected by her Points of connection include the nature of apophatic prayer suffering and annihilation of self mysticisms of knowing and of loving liberal Protestant attitudes toward theosophical systems and interfaith encounter **American Lutheran Survey**, 1920 *Harper's Encyclopedia of Mystical & Paranormal Experience* Rosemary Guiley, 1991 An alphabetical guide to the paranormal with more than five hundred entries on notable individuals supernatural phenomena such as apparitions and levitation geographical locations linked to the occult and spiritual traditions such as Sufism and Taoism *The 17th and 18th Centuries* Frank N. Magill, 2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry

provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography

*The Treatment of Quakerism in American Historical and Literary Writing* Edward Earle Stibitz,1951

*Protestant Spiritual Traditions, Volume Two* Frank C. Senn,2020-07-24 There is no single Protestant spirituality but rather Protestant spiritual traditions usually embedded in denominational families that share some basic Protestant principles These two volumes of Protestant Spiritual Traditions offer essays on twelve traditions written by scholars within those traditions plus a concluding essay that gathers a number of Protestant contributions to Christian spirituality and Western culture under the category of the body These thirteen essays discuss the contributions of significant spiritual figures from Martin Luther to Martin Luther King Jr and offer insights on a range of topics from the theology of the cross to physical fitness

**Theses and Dissertations Presented in the Graduate College of the State University of Iowa, 1900-1950** ,1952

*The Psychology of Religion* George Albert Coe,1916

*The Serpent's Promise* Steve Jones,2014-06-15 In *The Serpent s Promise* Steve Jones retells many of the Biblical tales in the light of modern science Are we all descended from a real life Adam and Eve Are some or all of us marked with the molecular equivalent of original sin and if so what can we do about it Was the Bible s great flood a memory of the end of the Ice Age And what can science tell us of the mystical experiences reported by the faithful or of the origin of faith itself Some people deny the power of religious belief others the findings of science In this groundbreaking work from one of our great science writers Steve Jones explores how these mysteries often overlap He steps aside from the noisy debate between believers and non believers to show how the questions that preoccupy us today are those of biblical times and that science offers many of the answers At once brilliantly erudite and highly readable *The Serpent s Promise* is a witty and thoughtful account of the greatest scientific story ever told

*International Journal of Religious Education* ,1929

**George Fox and the Light Within, 1650-1660** Rachel Hadley King,1940
