South Africa 1978, 1978 Why South Africa Will Survive L. H. Gann, Peter Duignan, 2022-10-05 Originally published in 1981 this book took a position which was unpopular within the academic establishment at the time of its publication It argued that the extraordinary social and economic changes that came over South Africa in the 20th Century gave the country great stability The authors believed that change would come from within the ruling white oligarchy rather than from Liberation Movements and that the greatest solvent of apartheid was to be found in the working of a free market economy The book provided novel data for sociological political and strategic reassessment of South Africa The approach was unusual in that the book represented neither a conventional defence of apartheid nor one of the customary attacks on South Africa

Voices of Justice and Reason Geoffrey V. Davis, 2021-10-25 Over the past fifty years transformations of great moment have taken place in South Africa Apartheid and the subsequent transition to a democratic non racial society in particular have exercised a profound effect on the practice of literature This study traces the development of literature under apartheid then seeks to identify the ways in which writers and theatre practitioners are now facing the challenges of a new social order The main focus is on the work of black writers prime among them Matsemela Manaka Mtutuzeli Matshoba and Richard Rive who as politically committed members of the oppressed majority bore witness to the black experience through their writing Despite the draconian censorship system they were able to address the social problems caused by racial discrimination in all areas of life particularly through forced removals the migrant labour system and the creation of the homelands Their writing may be read both as a comprehensive record of everyday life under apartheid and as an alternative cultural history of South Africa Particular attention is paid to theatre as a barometer of social change in South Africa The concluding chapters consider how in the current period of transition writers and arts institutions have set about reassessing their priorities redefining their function and seeking new aesthetic directions in taking up the challenge of imagining a new society **The**

Origins and Demise of South African Apartheid Anton David Lowenberg, William H. Kaempfer, 1998 What motivated South Africa's former white leaders to hand over the reins of power to a black government Economist Anton D Lowenberg examines the economic interests that led to apartheid and the economic prospects for post apartheid South African society

South Africa Ernest Harsch, 1980 *Living Under Apartheid* David M. Smith, 2023-07-28 Originally published in 1982 this book covers the unique spatial structure of society which was South Africa under apartheid It brings together a cohesive set of research based contributions to the understanding of this system which was without contemporary parallels The book considers issues such as industrial location and migrant labour at a national scale The case studies which are fully illustrated deal with problems associated with work and housing for blacks set in the 3 major metropolitan areas of Cape Town the Witwatersrand and Durban Of particular importance is the emphasis given to so called spontaneous or squatter settlement and to informal sector work for blacks in the emerging apartheid city something which links directly with central issues of
