## **South Africa's Brittle Peace The Problem Of Post Settlement Violence:**

*South Africa's Brittle Peace* P. Toit, 2001-03-13 South Africa has succeeded in establishing a democracy but has yet to eliminate public violence from society This book takes up the issue of post settlement violence and ways of consolidating the newly found democratic peace The role of negotiated institutions such as the new police force economic factors relevant to the anticipated peace dividend external factors such as arms smuggling networks popular responses to rising threats to physical safety and symbolic factors in enhancing the capacity of the state to deal with this issue are examined *Violence and Post-war Reconstruction* Christina Steenkamp, 2009-05-30 The uncomfortable truth about peace accords is that often they do not bring about a real and lasting peace while the conflict is officially over civilians still live with the daily threat of violence It is generally assumed that this does not pose a threat to the peace process yet the author shows how in reality violence that occurs at this time and within this context has a unique potential to cause damage In this much needed and pioneering study the author shows the impact of continuing physical insecurity upon the postwar reconstruction process Examining the type of violence when it occurs and the identity of those who commit it she reveals the serious implications for the reconstruction of state polity and society and for the quality of peace that emerges She shows how the use of violence to address everyday problems becomes increasingly acceptable explores the use of violence by organized groups in society and pays particular attention to civilian reactions to post accord insecurity In a final chapter she identifies a range of important considerations for the better understanding of a vital yet often neglected aspect of postwar reconstruction *South Africa and the Case for Renegotiating the Peace* Pierre du Toit, 2016-11-11 South Africa is awash with policy failures and policy confusion We argue firstly that our current discord over policy details has its origin in the celebrated negotiated transition We hold that the vote count of an 85% majority in the Constituent Assembly in 1996 obscured the reality that the Constitution meant different things to different negotiators The result was that South Africa from the very start of the democratic era lacked a national consensus on how to go about consolidating democracy We keep on failing to build a proper roof over our democracy because the constitutional foundations are weak *Liberal Democracy and Peace in South Africa* H. Kotzé, 2010-12-14 South Africa's transition to democracy was met by the global audience with at first disbelief followed later by applause After fifteen years of democracy big questions remain has a more democratic regime also lead to a more liberal society And has democracy made for a more peaceful society *Contemporary Peace Making* J. Darby, R. Mac Ginty, Roger Mac Ginty, 2002-12-19 *Contemporary Peace Making* draws on recent experience to identify and explore the essential components of peace processes Each chapter examines a different element in recent peace processes The collection is organized around five main themes planning for peace during periods of violence the process of negotiations including pre negotiation the effects of violence on peace processes peace accords constitutional and political options and securing the settlement and building the peace **Protecting Human Rights and Building Peace in Post-Violence Societies** Nasia

Hadjigeorgiou, 2020-02-20 This book critically examines the relationship between protecting human rights and building peace in post violence societies It explores the conditions that must be present and strategies that should be adopted for the former to contribute to the latter The author argues that human rights can aid peacebuilding efforts by helping victims of past violence to articulate their grievance and by encouraging the state to respond to and provide them with a meaningful remedy This usually happens either through a process of adjudication whereby human rights can offer guidance to the judiciary as to the best way to address such grievances or through the passing and implementation of human rights laws and policies that seek to promote peace However this positive relationship between human rights and peace is both qualified and context specific Through an interdisciplinary and comparative analysis of four case studies the book identifies the conditions that can support the effective use of human rights as peacebuilding tools Developing these the book recommends a series of strategies that peacebuilders should adopt and rely on Winner of the Constantinos Emilianides Award in Law for 2020 joint conferment

The Spatiality of Violence in Post-war Cities Emma Elfversson, Ivan Gusic, Kristine Höglund, 2020-05-21 The Spatiality of Violence in Post war Cities analyses violence in post war cities from different perspectives and in different parts of the world with a shared attention to space and how it affects violent dynamics The world is urbanising rapidly and cities are increasingly held as the most important arenas for sustainable development Cities emerging from war are no exception but across the globe many post war cities are ravaged by residual or renewed violence which threatens progress towards peace and stability This volume addresses why such violence happens where and how it manifests and how it can be prevented It includes contributions that are informed by both post war logics and urban particularities that take intra city dynamics into account and that adopt a spatial analysis of the city They focus on cases around the world including Medell n Colombia Johannesburg South Africa and Mitrovica Kosovo The volume makes a threefold contribution to the research agenda on violence in post war cities First the contributions nuance our understanding of the causes and forms of the uneven spatial distribution of violence insecurities and trauma within and across post war cities Second the collection demonstrates how urban planning and the built environment shape and generate different forms of violence in post war cities Third the contributions explore the challenges opportunities and potential unintended consequences of conflict resolution in violent urban settings Providing novel insights into the causes and dynamics of violence in post war cities and challenges and opportunities for violence reduction The Spatiality of Violence in Post war Cities will be of great interest to scholars of peace violence conflict and its resolution urban studies built environment and planning The chapters were originally published as a special issue of Third World Thematics

*The Crisis of American Foreign Policy* Howard J. Wiarda, Esther M. Skelley, 2006 In *The Crisis of American Foreign Policy* noted scholar Howard J Wiarda argues that the foreign policy of the United States reflects the divisions and dysfunctions we see in our domestic culture and society This text tackles such critical issues as ethnocentrism in foreign policy as well as U S efforts to extend democracy human rights and civil society in other countries

Key areas covered include Europe Asia Africa Latin America and the Middle East Concise clearly written well organized challenging and provocative this is a text that students and professors alike will appreciate International Mediation in Civil Wars Timothy D Sisk,2009-01-08 This book evaluates the role of international mediators in bringing civil wars to an end and makes the case for powerful peacemaking using incentives and sanctions to leverage parties into peace As internal violence within countries is a hugely significant threat to international peace in the post Cold War era the question of how these wars end has become an urgent research and policy question This volume explores a critical aspect of peacemaking that has yet to be sufficiently evaluated the turbulent period beyond the onset of formal or open negotiations to end civil wars and the clinching of an initially sustainable negotiated settlement The book argues that the transnational flow of weapons resources and ideas means that when civil wars today end they are more likely to do so at the negotiating table than on the battlefield It uses bargaining theory to develop an analytical framework to evaluate peace processes moving from stalemate in wars to negotiated settlement and it rigorously analyses the experiences of five cases of negotiated transitions from war and the role of international mediators South Africa Liberia Burundi Kashmir and Sri Lanka **Contemporary Peacemaking** J. Darby,Roger Mac Ginty,2008-06-11 Contemporary Peacemaking draws on recent experience to identify and explore the essential components of peace processes The book is organized around five key themes in peacemaking planning for peace negotiations violence on peace processes peace accords and peace accord implementation and post war reconstruction **World Terrorism: An Encyclopedia of Political Violence from Ancient Times to the Post-9/11 Era** James Ciment,2015-03-10 First Published in 2015 This collection holds three volumes Terrorism is a term that defies easy definition and its meaning has also changed over the course of history Because this encyclopedia aims at comprehensiveness across time geography and the conceptual landscape it applies the broadest definition of terrorism the use of violence or the threat of violence to effect political change through fear in which the victims of the violence The encyclopedia is divided into six parts The Ashgate Research Companion to Political Violence Marie Breen-Smyth,2016-03-23 Aimed at scholars students and lay persons interested in peace and conflict studies The Ashgate Research Companion to Political Violence is a comprehensive resource to understand the principal debates on political violence a field which is becoming an increasingly important part of courses on peace and conflict Organized into seven main sections this volume deals with a wide range of issues covering the following important research areas Issues of definition and nomenclature and how contests over these relate to political violence Theoretical frameworks and methods for understanding and researching political violence Motivations and goals of those who use political violence The various forms of political violence Perspectives on countering political violence by state and non state actors Why and how political violence ends The aftermath of political violence Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar the researcher and the informed general reader *Restorative Justice* Holly Ventura Miller,2008-05-19 Covers

scholarly work in criminology and criminal justice studies sociology of law and the sociology of deviance      **Countdown to Socialism** Anthea Jeffery, 2023-07-19 With growth stalling joblessness at crisis levels and governance unravelling most South Africans cannot fathom why the ANC does not embark on meaningful reform The answer lies in what is seldom raised the ruling party's unwavering determination to take the country by incremental steps from capitalism to socialism This transformation is being implemented via a Moscow inspired national democratic revolution NDR dating back many decades Despite the Soviet Union's collapse in 1991 the ANC SACP alliance still sees the NDR as offering the most direct route to socialism in South Africa and hence as its bedrock strategy The NDR has been implemented in many different spheres since 1994 By way of example NDR interventions have already made millions of people unemployable and the mining sector largely uninvestable They now aim at land expropriation without compensation EWC and the effective nationalisation of private healthcare and pensions The NDR is the key to understanding ANC rule over some 30 years yet most South Africans have been kept in the dark on it This book aims to fill that gap Written in clear and simple language it provides an indispensable primer on the NDR and its role in the countdown to socialism in South Africa      **The 'Local Turn' in Peacebuilding**

Joakim Ojendal, Isabell Schierenbeck, Caroline Hughes, 2018-10-11 Contemporary practices of international peacebuilding and post conflict reconstruction are often unsatisfactory There is now a growing awareness of the significance of local governments and local communities as an integrated part of peacebuilding in order to improve quality and enhance precision of interventions In spite of this the local is rarely a key factor in peacebuilding hence everyday peace is hardly achieved The aim of this volume is threefold firstly it illuminates the substantial reasons for working with a more localised approach in politically volatile contexts Secondly it consolidates a growing debate on the significance of the local in these contexts Thirdly it problematizes the often too swiftly used concept the local and critically discusses to what extent it is at all feasible to integrate this into macro oriented and securitized contexts This is a unique volume tackling the local turn of peacebuilding in a comprehensive and critical way This book was published as a special issue of Third World Quarterly

*Ethnic Party Bans in Africa* Matthijs Bogaards, Matthias Basedau, Christof Hartmann, 2013-09-13 In Sub Saharan Africa the spread of democracy since the 1990s has been accompanied by the proliferation of bans on ethnic political parties A majority of constitutions in the region explicitly prohibit political parties to organize on the basis of race ethnicity religion region and other socio cultural attributes More than a hundred political parties have been dissolved suspended or denied registration on these grounds This book documents the experience with ethnic party bans in Africa traces its origins examines its record and answers the question whether ethnic party bans are an effective and legitimate instrument in the prevention of ethnic conflict This book was published as a special issue of Democratization      **Transitions to Democracy**

Kathryn Stoner, Michael McFaul, 2013-04-15 What issues and consequences surround the fall of a government what type of regime replaces it and to what extent are these efforts successful This title provides a collection of writings by scholars and

practitioners that are organized into three parts successful transitions incremental transitions and failed transitions

Contested Peace in Mozambique Manuel Francisco Sambo, 2025-09-01 This book explores the complexity of peacebuilding in Mozambique following its devastating 16 year war While international efforts aimed to establish a stable market democracy this book reveals how the country's post war journey has been marred by recurring violence and the rise of authoritarian governance Drawing on extensive qualitative research of historical and contemporary challenges the book transcends traditional critiques of liberal peacebuilding by navigating the intersection of liberal ideals and authoritarian practices It meticulously examines how Mozambique's leadership has outwardly embraced liberal strategies such as dialogue decentralisation and entrepreneurship while simultaneously deploying authoritarian tactics to maintain control Through this dual approach the book argues Mozambique has developed a form of contested peace marked by violence instability and unpredictability This book offers theoretical contributions and empirical insights to scholars students and practitioners It sheds light on the delicate balance between liberal and authoritarian governance and provides a fresh perspective on how peace can be achieved and lost in post conflict nations

*Democracy under Threat* Ursula van Beek, 2018-05-19 This book addresses some of the most pressing questions of our time Is democracy threatened by globalisation Is there a legitimacy crisis in contemporary democracies Is the welfare state in individual countries under pressure from global trends What are the implications of high level migration and rising populism for democracy Does authoritarianism pose a challenge The volume builds on a cross cultural study of democracy conducted by the Transformation Research Unit TRU at Stellenbosch University in South Africa for nearly twenty years Three of the countries studied South Africa Turkey and Poland receive individual attention as their respective democracies appear to be the most vulnerable at present Germany Sweden Chile South Korea and Taiwan are assessed in their regional contexts Further insights are gained by examining the impact on democracy of the global screen culture of Television and the Internet and by pointing out the lessons democracy should learn from diplomacy to fare better in the future The book will appeal to both students and practitioners of democracy as well as the general reader

*No War, No Peace* Roger Mac Ginty, 2016-01-06 This book investigates stalled and dysfunctional peace processes and peace accords in societies experiencing civil wars Using a critical and comparative perspective it offers strategies for rejuvenating and re orientating stalled peace processes and peace accords so that they are more able to foster sustainable and inclusive peace
