Wirsing, 2016-09-16 This timely study examines the Indian Pakistani conflict over Kashmir as this long standing confrontation between regional rivals became inflamed It focuses on the period from the effective nuclearization of the dispute in 1998 to the introduction of U S troops into the region in connection with the war in Afghanistan Four chapters take on key problems illustrated by this case Regional rivalry Intervention Religious conflicts

Conflict resolution The author is an advocate of international intervention in regional conflicts and does not think that leaving the contesting parties to settle their dispute a sort of benign neglect is a responsible U S policy **Demystifying Kashmir** Navnita Chadha Behera,2007-05-01 The Kashmir issue is typically cast as a territorial dispute between two belligerent neighbors in South Asia But there is much more to the story than that The Jammu and Kashmir state home to an extraordinary medley of races tribal groups languages and religions makes up one of the most diverse regions in the subcontinent Demystifying Kashmir argues that recognizing the rich complex and multi faceted character of Kashmir is important not only for understanding the structural causes of this conflict but also for providing opportunities to establish a just viable and lasting solution In this remarkable book Navnita Chadha Behera traces the history of Kashmir from the pre partition India to the current day situation She provides a comprehensive analysis of the philosophical underpinnings and the local bilateral and international dynamics of the key players involved in this flashpoint of conflict including New Delhi Islamabad political groups and militant outfits on both sides of the Line of Control and international powers The book explores the political and military components of India s and Pakistan s Kashmir strategy the self determination debate and the insurgent movement that began in 1989 The conclusion focuses on what Behera terms the four P s parameters players politics and prognosis of the ongoing peace process in Kashmir Behera also reflects on the devastation of the October 2005 earthquake and its implications for the future of the area Based on extensive field research and primary sources Demystifying Kashmir breaks new ground by framing the conflict as a political battle of state making between India and Pakistan rather than as a rigid and ideological Hindu Muslim conflict Behera s work will be an essential guide for journalists scholars activists policymakers and anyone interested in how to avert a war between these nuclear powers **The Bulletin of the Henry Martyn Institute of Islamic Studies** ,1995 *Overview of U.S. Policy Toward South Asia* United States. Congress, **State**, 1994-07 **The Globalisation of the Cold War** Max Guderzo, Bruna Bagnato, 2010-01-04 This book focuses on the globalisation of the Cold War in the years 1975-85 highlighting the transformation from bipolar US-Soviet competition to global confrontation. Offering a detailed analysis of this fundamental shift that occurred during this period as well as the interconnections of this process with the new industrial technological revolution, this book demonstrates how the United States returned to a position of global economic leadership. In so doing, the book aims to challenge the traditional and misleading paradigm that interprets the gradual development of the Cold War in basic bipolar terms. In fact, most of the factors triggering superpower attitudes and interplay were linked to a complex web of relations with their allies as well as to the political, economic, social, ideological, and military factors structurally intrinsic to the peripheral regions where the confrontation actually took place. Many of the essays in this volume focus on the foreign and security policies of the United States with the aim of reassessing the Carter administration as the foundation for Reagan's final showdown with the Soviet Union. The contributors, however, go beyond the traditional patterns of foreign policy analysis, giving due attention to transnational phenomena and institutional histories that better explain the gradual transformation in the years that prepared the world for the post-Cold War globalisation era. This book will be of much interest to students of Cold War studies, international history, US foreign policy, European politics, and IR in general. Max Guderzo is Professor of the History of International Relations and holds the Jean Monnet Chair of the History of European Unification at the University of Florence. Bruna Bagnato is Associate Professor of the History of International Relations at the University of Florence.
