A History of the University of South Carolina, 1940-2000 Henry H. Lesesne, 2001 Describes the transformation of one of the nation's oldest public institutions of higher learning into a modern research university The history of the modern University of South Carolina originally chartered as South Carolina College in 1801 describes the significant changes in the state and in the character of higher education in South Carolina World War II the civil rights struggle and the revolution in research and South Carolina's economy transformed USC from a small state university in 1939 with a student body of less than 2 000 and an annual budget of 725 000 to a 1990 population of more than 25 000 and an annual budget of 454 million Then the University was little more than a small liberal arts college today the university is at the head of a statewide system of higher education with eight branch campuses Henry H Lesesne recounts the historic transformation of USC into a modern research university grounding that change in the context of the modernization of South Carolina and the South in general The half century from 1940 to 1990 wrought great changes in South Carolina and its most prominent university State and national politics the challenges of funding modern higher educations and the explosive growth of intercollegiate sports are among other elements of the University that were transformed Lesesne describes with candor and impressive research how the University of South Carolina and indeed all of the state's higher education system emerged from a past limited by racism and poverty and began to measure its aspirations by national educational standards *Books in Series, 1876-1949: Titles*, 1982 **House documents**, 1889 Politics, Disability, and Education Reform in the South E. Janak, 2016-04-30 Politics Disability and Education Reform in the South explores how race gender disability and politics all came together to impact the career of one State Superintendent of Education in South Carolina who fought to improve educational conditions for African Americans women and millworkers children in South Carolina **Toward the Meeting of the Waters** Winfred B. Moore, Orville Vernon Burton, 2008 South Carolina has long been the nexus of struggles in Southern race relations yet no definitive history has chronicled the dynamic social changes wrought in the Palmetto State during the civil rights era or interpreted the inspirational efforts of the state's reform minded activists Toward the Meeting of the Waters represents a watershed moment in civil rights history bringing together voices of leading historians alongside recollections from central participants to provide the first comprehensive history of the civil rights movement as experienced by black and white South Carolinians Edited by Winfred B Moore Jr and Orville Vernon Burton this work originated with a highly publicized landmark conference on civil rights held at the Citadel in Charleston The volume's opening section assesses the transition of South Carolina leaders from defiance to moderate enforcement of federally mandated integration and includes commentary by former governor and U S senator Ernest F Hollings and former governor John C West The next sections recall defining moments of white on black violence and aggression to set the context for understanding the efforts of reformers such as Levi

G Byrd and Septima Poinsette Clark and for interpreting key episodes of white resistance Emerging from these essays is arresting evidence that although South Carolina did not experience as much violence as many other Southern states the civil rights movement here was more fiercely embattled than previously acknowledged The section entitled Retrospectives From Clarendon to Clemson 1951 1963 forms an oral history of the era as it was experienced by a mixture of locally and nationally recognized participants including historians such as John Hope Franklin and Tony Badger as well as civil rights activists Joseph A De Laine Jr Beatrice Brown Rivers Charles McDew Constance Curry Matthew J Perry Jr Harvey B Gantt and Cleveland Sellers Jr The volume concludes with essays by historians Gavin Wright Dan T Carter and Charles Joyner who bring this story to the present day and examine the legacy of the civil rights movement in South Carolina from a modern perspective Toward the Meeting of the Waters also includes thirty seven photographs from the period most of them by Cecil Williams and many published here for the first time Collectively the volume's components form a much needed account of the high stakes involved in the civil rights movement of how far South Carolina has progressed and of those battles for equality still ongoing
