## South East Scotland:

**Rumrunning in Suffolk County** Amy Kasuga Folk,2022-06-20 Nicknamed Liquor Island Long Island was rumrunner s paradise during Prohibition With its proximity to major markets and coastal communities for easy transit Suffolk County was awash in illegal hooch Smugglers bringing cases of booze from offshore often secretly hid product temporarily in local garages and sheds leaving a bottle as a thank you Coded communication crisscrossed the county on shortwave radios arranging sales and logistics Violence from criminal outfits disrupted previously quiet towns as locals too often were swept up in dangerous unintentional engagements with bootleggers Pour one out and join author Amy Kasuga Folk as she recounts stories from Suffolk County s Prohibition era *Human Geography of the UK* Danny Dorling,2005-02-17 Using up to date data modern cartographic methods and an approach that addresses students everyday lives Danny Dorling has produced an engaging introduction to the contemporary geography of the UK It will be the focus of many lively discussions of patterns and trends Ron Johnston School of Geography University of Bristol Using statistics from many sources in an engaging and accessible way Human Geography of the UK is written from the perspective of a beginning undergraduate it s objective is to define the key elements of population geography and show how they fit together Highly visual with maps and figures on every page the text uses different data to describe the social landscape of the United Kingdom Organized in ten short thematic chapters explaining the nuts and bolts of population including birth inequality education mobility work and mortality The book concludes with a comparative analysis of UK in global context Human Geography of the UK features practical exercises and clear summaries in tables and specially drawn maps **Plug-in Vehicles, Plugged in Policy?** Great Britain: Parliament: House of Commons: Transport Committee,2012-09-20 Consumer demand for plug in vehicles remains very low and the Government grant to encourage demand may not be proving effective The Government must do more to show that its plug in vehicle strategy is a good use of public money Carbon emissions from transport must be reduced if the UK is to meet its climate change targets but public money must be targeted on effective policies So far Department for Transport expenditure on plug in cars some 11 million has benefited just a handful of motorists There is a risk that the Government is basically subsidising second cars for affluent households It is also unclear whether the provision of public charging infrastructure encourages demand for plug in cars Indeed the Government does not even have a register of all the chargepoints installed at public expense *The Public General Acts ... and the Church Assembly Measures* Great Britain,1954 **Public General Statutes** Great Britain,1954 1925 includes measures of the National Assembly of the Church of England which have received royal assent **Exploring rural development partnerships in Europe. An analysis of 330 local partnerships across eight EU countries** Javier Pérez Esparcia,Malcolm J. Moseley,2000 **Chambers's Atlas** William Chambers,1855 **The UK Regional-National Economic Problem** Philip McCann,2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality

between the regions as marked as it has ever been In a landmark analysis of the current state of Britain s regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK s economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government

**Geological History of Britain and Ireland** Nigel H. Woodcock,R. A. Strachan,2012-04-12 Britain and Ireland have a remarkably varied geology for so small a fragment of continental crust with a fine rock record back through three billion years of geological time This history would have been interesting enough if it had been played out on relatively stable continental crust However Britain and Ireland have developed at a tectonic crossroads on crust once

traversed by subduction zones and volcanic arcs continental rifts and mountain belts The resulting complexity is instructive fascinating and perplexing Geological History of Britain and Ireland tells the region s story at a level accessible to undergraduate geologists as well as to postgraduates professionals or informed amateurs This second edition is fully revised and updated reflecting our continually developing knowledge of the region s geology Full coverage is again given to the rich Precambrian and Early Palaeozoic history as well as to later events more relevant to hydrocarbon exploration The book is an essential starting point for more detailed studies of the regional geology Additional resources for this book can be found at <http://www.wiley.com/go/woodcock/geologicalhistory>
