Sailors of the Cloud

Ships David Fooks, 2023-10-10 The Age of Sail wrought the greatest change to the world in the history of mankind possibly until the Age of Space Exploration From 1450 to 1850 the Western world experienced explosive and violent change most of it brought about by the great sailing ships of the era and driven by the personal ambition for power and riches in a handful of men and women who in many cases didn't have a clue what they were getting into Today this exciting era receives just superficial coverage names dates and what was accomplished But behind these were real people and digging into their lives can bring up startling facts Columbus spent much of his life as a pirate Magellan wasn't the first to circumvent the globe Horatio Nelson England's greatest naval hero suffered from violent seasickness America's most famous lightkeeper recognized for saving as many as 32 drowning men over 52 years was a woman Women served as crew in the British Navy and fought alongside their husbands a two year old boy served as a midshipman and babies were born on Nelson's flagship during both the Battles of Trafalgar and the Nile The British monarchy financed and provided oversight for the largest slave transport company in history History can be humorous surprising and even shocking and it is anything but dull
