*Faith in Exposure* Justine S. Murison,2022-09-20 Recent legal history in the United States reveals a hardening tendency to treat religious freedom and sexual and reproductive freedom as competing even opposing claims on public life They are united though by the fact that both are rooted in our culture s understanding of privacy *Faith in Exposure* shows how over the course of the nineteenth century privacy came to encompass such contradictions both underpinning the right to sexual and reproductive rights but also undermining them in the name of religious freedom Drawing on the interdisciplinary field of secular studies *Faith in Exposure* brings a postsecular orientation to the historical emergence of modern privacy The book explains this emergence through two interlocking stories The first examines the legal and cultural connection of religion with the private sphere showing how privacy became a moral concept that informs how we debate the right to be shielded from state interference as well as who will be afforded or denied this protection This conflation of religion with privacy gave rise the book argues to a secular sensibility that was especially invested in authenticity and the exposure of hypocrisy in others The second story examines the development of this secular sensibility of privacy through nineteenth century novels The preoccupation of the novel form with private life and especially its dependence on revelations of private desire and sexual secrets made it the perfect vehicle for suggesting that exposure might be synonymous with morality itself Each chapter places key authors into wider contexts of popular fiction and periodical press debates From fears over religious infidelity to controversies over what constituted a modern marriage and conspiracy theories about abolitionists these were the contests Justine S Murison argues that helped privacy emerge as both a sensibility and a right in modern secular America
