Southeast Asia Focus Series:

Focus on Southeast Asia American Geographical Society, 1972 *Sinophone Southeast Asia*, 2021-09-06 This volume explores the diverse linguistic landscape of Southeast Asia's Chinese communities. Based on archival research and previously unpublished linguistic fieldwork, it unearths a wide variety of language histories, linguistic practices, and trajectories of words. The localized and often marginalized voices we bring to the spotlight are quickly disappearing in the wake of standardization and homogenization, yet they tell a story that is uniquely Southeast Asian in its rich hybridity. Our comparative scope and focus on language analysed in tandem with history and culture adds a refreshing dimension to the broader field of Sino Southeast Asian Studies.

Figuring Resistance Laurence Marvin S. Castillo, 2025-01-06 This book examines how fiction films and novels represent the communist-led national democratic NatDem revolution in the Philippines. Produced aboveground decades after the Philippines' historic transition from dictatorship to elite democracy, these NatDem fictions depict how the communist movement in the Philippines confronted various national and global changes, tracking revolutionary experiences amidst the ascendancy of neoliberalism, the continuation of counterinsurgency, and the emergence of non-Marxist social movements and discourses. *Figuring Resistance* studies how fictions portray the tenacity of political commitment among revolutionaries engaged in the revolution's manifold history of crises, setbacks, and persistence. It illuminates the crucial role played by cultural work in creating and nourishing an oppositional public sphere where the experiential makings of the liberation struggle in the Third World can be imagined.

Asian Businesses in a Turbulent Environment T.S. Chan, Geng Cui, 2016-04-11 *Asian Businesses in a Turbulent Environment* explores how Asian firms cope with challenges such as globalization, regional conflict, pressure for greater democracy, and environmental protection, and the impact that rising above these challenges will have in their growth prospects.

The Historical Construction of Southeast Asian Studies Park Seung Woo, Victor T. King, 2013-06-17 At a time when Southeast Asian Studies is declining in North America and Europe, this book serves to remind us of the fresh, constructive, and encouraging view of the field from Asia. On behalf of Taiwan's Southeast Asian research community, I sincerely congratulate Professors Park and King for making such a great and timely contribution to the making of Southeast Asian Studies in Asia.

Hsin Huang Michael Hsiao, Director of Institute of Sociology, Academia Sinica and former President of Taiwan Association of Southeast Asian Studies. *The Historical Construction of Southeast Asian Studies: Korea and Beyond* is an important and long overdue step in the task of bringing Southeast Asian Studies to where it rightfully belongs: the Asian region. At the same time, it avoids being narrowly regionalistic and instead views Southeast Asia as an open system that transcends national units or fixed territorial categories and welcomes the contributions of both Asian and non-Asian scholars in crafting a fresh post-colonial approach to the study of the region's societies and peoples.
