Outdoor Recreation David Huddart,Tim Stott,2019-10-25 This textbook presents a comprehensive overview of the environmental impacts of various types of outdoor recreation and how these can be best managed As a field of study recreational ecology is both multidisciplinary and interdisciplinary and the authors seek to develop a deeper understanding of both the role and function of the factors that influence visitor numbers and their impact An accessible and comprehensive textbook it features numerous types of outdoor recreational activities including hill walking rock climbing mountain marathons skiing scuba diving and more Drawn from several global case studies the authors estimate the current and future numbers involved in outdoor recreation and how best these numbers can be managed Effective visitor impact management actions arise from collaboration between recreation ecologists social scientists experienced recreation managers recreation stakeholders and the recreationalists themselves as such this book will be multi disciplinary in scope This practical and engaging textbook will be invaluable to students and scholars of outdoor recreation and adventure tourism as well as practitioners and managers working in the field Mountaineering and Its Literature Jill Neate,1980 Few areas of human endeavor and adventure have such an extensive literature as does mountaineering perhaps because the activity itself is so diverse ranging from gymnastic feats of modern rock climbers through alpinism to Himalayan conquests and exploration Even before Edward Whymper climbed the Matterhorn in 1865 and wrote the celebrated *Scrambles in the Alps* mountaineers had felt compelled to record their adventures and their sense of wonder at the mountain world In recent years the literature has expanded considerably to account for the phenomenal growth of mountain activities Expeditions are now commonplace and the great mountain ranges are no longer beyond the reach of the average climber This extensive bibliography describes works on mountaineering published in the English language since 1744 But it s far more than a dry catalog of books as

author Neate gives notes which help the reader assess as book s reliability and significance An indispensable reference for the active climber would be explorer and bibliophile alike **General Catalogue of Printed Books** British Museum. Department of Printed Books,1964 Introduction to Rock and Mountain Climbing Ruth Mendenhall,John Mendenhall,2018-03-28 For those who would like to climb mountains and for those who merely like to contemplate the possibility Ruth and John Mendenhall have written as entertaining and completely instructive a book as have ever been tucked into a rucksack Since ascending a peak inevitably beings at the bottom the Mendenhalls first advice neophytes on where to find proper instruction how much will be expected of them as beginners and what to bring on early climbs Sorted out here is the gear and clothing really needed to get started and safe ways to get the experience and learn techniques needed to confidently approach later climbs on rock snow glaciers and peaks Explicit authoritative information on what climbers really do on diverse terrain introduced the proper use of rope belaying the climber below and the leader above learning to lead and using pitons in rock or ice In this step by step progression the beginner is introduced to rappels how to choose sound rappel points and how to set safe rappels Details on the functions of ice axe and crampons and the complex conditions encountered on glaciers arm the progressing climber with further basic information that builds mountaineering skill This uniquely complete coverage advanced from the beginning through intermediate climbing and includes discussions of advanced and controversial techniques that the less experienced will be curious about Through it all comes an awareness of what mountaineering really is the high spirits good humor pleasures and philosophies of those who climb **The British National Bibliography** Arthur James Wells,1979 The Climbers' Club Journal ,1959 **Rock Climbing** Peter Nock,1963 Scottish Mountaineering Club Journal Scottish Mountaineering Club,1967 Includes section Mountaineering literature Subject Index of Modern Books Acquired British Library,1971 **The Book Exchange** ,1969 *The British National Bibliography Cumulated Subject Catalogue* ,1968 **British Books** ,1900
