**The Diplomatic History of Postwar Japan** Makoto Iokibe, Translated and Annotated by Robert D. Eldridge, 2013-10-31

Winner of the prestigious Yoshida Shigeru Prize 1999 for the best book in public history when it was published in its original Japanese this book presents a comprehensive and up to date overview of Japan's international relations from the end of the Pacific War to the present. Written by leading Japanese authorities on the subject it makes extensive use of the most recently declassified Japanese documents, memoirs and diaries. It introduces the personalities and approaches Japan's postwar leaders and statesmen took in dealing with a rapidly changing world and the challenges they faced. Importantly the book also discusses the evolution of Japan's presence on the international stage and the important if underappreciated role Japan has played. The book examines the many issues which Japan has had to confront in this important period from the occupation authorities in the latter half 1940s to the crisis filled 1970s from the post Cold War decade to the contemporary war on terrorism. The book examines the effect of the changing international climate and domestic scene on Japan's foreign policy and the way its foreign policy has been conducted. It discusses how the aims of Japan's foreign relations and how its relationships with its neighbours, allies and other major world powers have developed and assesses how far Japan has succeeded in realising its aims. It concludes by discussing the current state of Japanese foreign policy and likely future developments.

The Song-Yuan-Ming Transition in Chinese History Paul Jakov Smith, Richard von Glahn, 2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid imperial era of the Tang and Song ca 800-1270 and the late imperial era of the late Ming and Qing 1550-1900. Both eras are seen as periods of explosive change particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture. The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271-1368. This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs. This book aims to restore continuity to that historical narrative by filling the gap between mid imperial and late imperial China. The contributors argue that the Song-Yuan-Ming transition early twelfth through the late fifteenth century constitutes a distinct historical period of transition and not one of interruption and devolution. They trace this transition by investigating such subjects as contemporary impressions of the period, the role of the Mongols in intellectual life, the economy of Jiangnan, urban growth, neo-Confucianism and local society, commercial publishing, comic drama and medical learning.

The Cambridge History of China Denis Crispin Twitchett, John King Fairbank, 1978 International scholars and sinologists discuss culture, economic growth, social change, political processes and foreign influences in China since the earliest pre-dynastic period.
