Constructing "Korean" Origins Hyung Il Pai, 2020-03-23 In this wide ranging study Hyung Il Pai examines how archaeological finds from throughout Northeast Asia have been used in Korea to construct a myth of state formation This myth emphasizes the ancient development of a pure Korean race that created a civilization rivaling those of China and Japan and a unified state controlling a wide area in Asia Through a new analysis of the archaeological data Pai shows that the Korean state was in fact formed much later and that it reflected diverse influences from throughout Northern Asia particularly the material culture of Han China

The River Dragon Has Come! Dai Qing, John G. Thibodeau, Michael R Williams, Qing Dai, Ming Yi, Audrey Ronning Topping, 2016-07-01 In the ongoing courageous struggle of a relatively small group of Chinese to prevent the completion of the Three Gorges Dam in China Dai Qing is the outspoken leader whose eloquent voice is always heard despite threats and intimidation by the Chinese authorities to silence it Dai Qing an investigative journalist and author with a wide audience in China and abroad compiled this book of essays and field reports assessing the impact of the Three Gorges megadam now under construction at Sandouping in China's Hubei province at great risk to her own freedom This book is an effort to prevent history from repeating itself ten fold a reference to the great floods in 1975 during which over 60 dams collapsed and at least 100 000 people lost their lives if the 39 billion cubic metres of water in the Three Gorges reservoir ever escapes by natural or man made catastrophes These comprehensive essays reveal the deep rooted problems presented by the Three Gorges project that

the government is attempting to disguise or suppress The main concerns are population resettlement and human rights the irreversible environmental and economic impact the loss of cultural antiquities and historical sites military considerations and hidden dam disasters from the past Opponents of the dam are attempting to kill the project or at least reduce the size of the megadam now planned to be the biggest most expensive and incidentally the most hazardous of all hydro electric projects on this planet Systema Avium Aethiopicarum William Lutley Sclater,1924 **Archaeology of East Asia** Gina L.
