English,2020-10-06 Reconstruction politics and race relations between freed blacks and the white establishment in Perry County Alabama In his fascinating in depth study Bertis D English analyzes why Perry County situated in the heart of a violence prone subregion of Alabama enjoyed more peaceful race relations and less bloodshed than several neighboring counties Choosing an atypical locality as central to his study English raises questions about factors affecting ethnic disturbances in the Black Belt and elsewhere in Alabama He also uses Perry County which he deems an anomalous county to caution against the tendency of some scholars to make sweeping generalizations about entire regions and subregions English

contends Perry County was a relatively tranquil place with a set of extremely influential African American businessmen clergy politicians and other leaders during Reconstruction Together with egalitarian or opportunistic white citizens they headed a successful campaign for black agency and biracial cooperation that few counties in Alabama matched English also illustrates how a significant number of educational institutions a high density of African American residents and an unusually organized and informed African American population were essential factors in forming Perry County s character He likewise traces the development of religion in Perry the nineteenth century Baptist capital of Alabama and the emergence of civil rights in Perry an underemphasized center of activism during the twentieth century This well researched and comprehensive volume illuminates Perry County s history from the various perspectives of its black interracial and white inhabitants amplifying their own voices in a novel way The narrative includes rich personal details about ordinary and affluent people both free and unfree creating a distinctive resource that will be useful to scholars as well as a reference that will serve the needs of students and general readers

Why the Vote Wasn't Enough for Selma Karlyn Forner, 2017-10-19 In *Why the Vote Wasn't Enough for Selma* Karlyn Forner rewrites the heralded story of Selma to explain why gaining the right to vote did not bring about economic justice for African Americans in the Alabama Black Belt Drawing on a rich array of sources Forner illustrates how voting rights failed to offset decades of systematic disfranchisement and unequal investment in African American communities Forner contextualizes Selma as a place not a moment within the civil rights movement a place where black citizens fight for full citizenship unfolded alongside an agricultural shift from cotton farming to cattle raising the implementation of federal divestment policies and economic globalization At the end of the twentieth century Selma s celebrated political legacy looked worlds apart from the dismal economic realities of the region Forner demonstrates that voting rights are only part of the story in the black freedom struggle and that economic justice is central to achieving full citizenship

Hidden Life Mechal Sobel,2009-03-15 Born into slavery on an Alabama plantation in 1853 Bill Traylor worked as a sharecropper for most of his life But in 1928 he moved to Montgomery and changed his life becoming a self taught lyric painter of extraordinary ability and power From 1936 to 1946 he sat on a street corner old ill and homeless and created well over 1 200 paintings Collected and later promoted by Charles Shannon a young Montgomery artist his work received star placement in the Corcoran Gallery s 1982 exhibition Black Folk Art in America From then on the spare and powerful radical modernity of Traylor s work helped place him among the rising stars of twentieth century American artists Most critics and art historians who analyze Traylor s paintings emphasize his extraordinary form and evaluate the content as either simple or enigmatic narratives of black life In Painting a Hidden Life historian Mechal Sobel s trenchant analysis reveals a previously unrecognized central core of meaning in Traylor s near hidden symbolism a call for retribution in response to acts of lynching and other violence toward blacks Drawing on historical records and oral histories Sobel carefully explores the relationship between Traylor s life and his paintings and arrives at new interpretations of his art From an interview with Traylor s great granddaughter Sobel learned that Traylor believed the Birmingham policemen who killed his son in 1929 in fact lynched him a story that neither Traylor nor his family had previously disclosed The trauma of this event Sobel explains propelled Traylor to find a way to voice his rage and spurred the creation of his powerful mysterious visual language Traylor s encoded paintings tell a vibrant multilayered story of conjure power sexual rivalry and violence Revealing an extraordinarily diverse visual universe the symbols in Traylor s paintings reflect the worlds he lived in between 1853 and 1949 the plantation conjure milieu into which he was born the blues culture in which he matured the world of Jim Crow he learned to secretly

violate and the Catholic values he adopted in his final years From his African heritage Traylor drew symbols not readily understood by whites He mixed traditional African images with conjure signs with symbols of black Baptists and Freemasons and with images central to the hidden black protest movement the cross and the lynching tree In this groundbreaking examination of an extraordinary artist Sobel uncovers the internalized pain of several generations and traces the paths African Americans blazed long before the march down the Selma Montgomery highway [A Black Arts Poetry Machine](#) David Grundy,2019-02-07 A vital hub of poetry readings performance publications and radical politics in 1960s New York the Umbra Workshop was a cornerstone of the African American avant garde Bringing together new archival research and detailed close readings of poetry A Black Arts Poetry Machine is a groundbreaking study of this important but neglected group of poets David Grundy explores the work of such poets as Amiri Baraka Lorenzo Thomas and Calvin Hernton and how their innovative poetic forms engaged with radical political responses to state violence and urban insurrection Through this examination the book highlights the continuing relevance of the work of the Umbra Workshop today and is essential reading for anyone interested in 20th century American poetry *The Music Has Gone Out of the Movement* David C.

Carter,2012-09-01 After the passage of sweeping civil rights and voting rights legislation in 1964 and 1965 the civil rights movement stood poised to build on considerable momentum In a famous speech at Howard University in 1965 President Lyndon B Johnson declared that victory in the next battle for civil rights would be measured in equal results rather than equal rights and opportunities It seemed that for a brief moment the White House and champions of racial equality shared the same objectives and priorities Finding common ground proved elusive however in a climate of growing social and political unrest marked by urban riots the Vietnam War and resurgent conservatism Examining grassroots movements and organizations and their complicated relationships with the federal government and state authorities between 1965 and 1968 David C Carter takes readers through the inner workings of local civil rights coalitions as they tried to maintain strength within their organizations while facing both overt and subtle opposition from state and federal officials He also highlights internal debates and divisions within the White House and the executive branch demonstrating that the federal government's relationship to the movement and its major goals was never as clear cut as the president's progressive rhetoric suggested Carter reveals the complex and often tense relationships between the Johnson administration and activist groups advocating further social change and he extends the traditional timeline of the civil rights movement beyond the passage of the Voting Rights Act **Encyclopedia of the Black Arts Movement** Verner D. Mitchell,Cynthia Davis,2019-05-15 The Black Arts Movement BAM encompassed a group of artists musicians novelists and playwrights whose work combined innovative approaches to literature film music visual arts and theatre With a heightened consciousness of black agency and autonomy along with the radical politics of the civil rights movement the Black Muslims and the Black Panthers these figures represented a collective effort to defy the status quo of American life and culture Between the late 1950s and the end of the

1970s the movement produced some of America's most original and controversial artists and intellectuals. In *Encyclopedia of the Black Arts Movement*, Verner D. Mitchell and Cynthia Davis have collected essays on the key figures of the movement including Maya Angelou, James Baldwin, Amiri Baraka, Nikki Giovanni, Larry Neal, Sun Ra, Sonia Sanchez, Ntozake Shange, and Archie Shepp. Additional entries focus on Black Theatre magazine, the Negro Ensemble Company, lesser-known individuals including Kathleen Collins, Tom Dent, Bill Gunn, June Jordan, and Barbara Ann Teer, and groups such as AfriCOBRA and the New York Umbra Poetry Workshop. The Black Arts Movement represented the most prolific expression of African American literature since the Harlem Renaissance of the 1920s. Featuring essays by contemporary scholars and rare photographs of BAM artists, *Encyclopedia of the Black Arts Movement* is an essential reference for students and scholars of twentieth-century American literature and African American cultural studies.
