Popa,2008-08-22 In *Bibliophiles and Bibliothieves* Opritsa Popa has documented what might justifiably be described as the most celebrated case of looting of two German cultural treasures by a member of the U S Army at the end of World War II and their subsequent odyssey across both an ocean and a continent the pilfering from a cellar in Bad Wildungen of the ninth century Liber Sapientiae containing the two leaves of the oldest extant German heroic poem the Old High German Hildebrandslied along with the fourteenth century illuminated Willehalm codex both of which had been removed from the

State Library in Kassel for protection from bombing raids *Street Level: Los Angeles in the Twenty-First Century* Rob Sullivan, 2016-04-01 In the latter part of the C20th a series of seminal books were written which examined Los Angeles by the likes of Reyner Banham Mike Davis Edward Soja Allen Scott Michael Dear Frederick Jameson Umberto Eco Bernard Henri Levy and Jean Baudrillard which have been hugely influential in thinking about cities more broadly The debates which were generated by these works have tended to be very heated and either defensive or offensive in approach A sufficient amount of time has since passed that a more measured approach to evaluating this work can now be taken The first section of this book *Contra This and Contra That* provides such a critique of the various theories applied to Los Angeles during the last century balancing the positive with the negative The second part of the book is an investigation of L A as it exists on the ground today While political the theoretical stance taken in this investigation is not mounted as a platform from which to advocate a particular ideology Instead it encompasses cultural as well as economic issues to put forth a view of L A which is coherent and cogent while at the same time considering its multi layered complex and ever changing qualities It concludes by arguing that sectorised off and totalizing visions of the city will not do as instruments of urban analysis and that only a theory as mobile as its target will do one that replicates the polymer nature of this place It proposes that extending that theory to the world beyond this particular city only a theory that models itself on the mobile and polymer nature of the world while still retaining a sense of the actual and the real will do as an instrument with which to comprehend the world In doing so this book is not only a model by which to think through Los Angeles but as a model by which to think through other world cities **The Legendary Estates of Beverly Hills** Jeffrey Hyland, 2025-09-02 A re edition of the authoritative Los Angeles estates book featuring the homes gardens and lifestyles of many of the city s original great architects and residents This deluxe volume offers a meticulously researched and lavishly illustrated history of fifty magnificent estates in three of America s most prized residential districts Beverly Hills Bel Air and Holmby Hills Lush color photographs as well as a trove of historical images take readers beyond the front gates for an exceptional view of the mansions grounds and gardens of these sumptuous estates and tell the history of Los Angeles s rise from rugged paddocks and farmland to famed metropolis Each house is explored both for its historical and architectural importance for here are the epitome of residences and gardens reflecting the famed Italianate and California Mediterranean styles by all the leading architects of Southern California including Wallace Neff James Dolena Gordon Kaufmann Robert Farquhar Roland Coate and Paul Williams They built for clients such as Gary Cooper Buster Keaton Harold Lloyd and Bing Crosby whose own stories reflect the intrigue and foibles of Hollywood society The book s final chapter *Gone but Not Forgotten* pays homage to great estates that have been destroyed or lost to history *California History*, 1993 *Inventing Paradise* Paul Haddad, 2024-06-18 *Inventing Paradise* The Power Brokers Who Created the Dream of Los Angeles traces the improbable rise of Los Angeles through the prism of six visionaries who had outsize influence on the city s growth Phineas Banning Harrison Gray Otis Henry Huntington Harry Chandler William Mulholland

and Moses Sherman In the late 1870s Los Angeles was a violent dusty 29 square mile pueblo with a few thousand souls largely unchanged since its founding in 1781 By 1930 its size had swelled to within 96% of its current 468 square miles housing a staggering 1.2 million people In just 50 years L A had joined the ranks of other world class cities In the tradition of Mike Davis's classic work *City of Quartz* Paul Haddad's *Freewaytopia* and *10,000 Steps a Day* in L A debunks many myths about the City of Angels with a wildly entertaining narrative that sheds new light on the fascinating birth of modern Los Angeles Power came from a select few whose triumphs, scandals and correspondence are well documented in *Inventing Paradise* along with other little known facts about L A history including How Los Angeles Times chief Harry Chandler pushed eugenics and endorsed white spots Henry Huntington's and Moses Sherman's trolley systems and the extortion type practices that led to their expansion When Los Angeles was so desperate for water it hired a miracle worker who promised rain How L A's power elite peddled the lie that the Owens River used to flow into Los Angeles and rightfully belonged to the city When Los Angeles annexed a city in which monkeys cast votes How Venice California was not the first Venice California William Mulholland's game changing construction of the Los Angeles Aqueduct which raised the city's population ceiling from 250,000 to 2.5 million Haddad also covers the heavy costs that came with creating paradise in such a short period of time including car dependency environmental problems and deep seated inequities between wealthy white Angelenos and people of color due to racist policies All have left an imprint on present day Los Angeles Los Angeles is known as a city that should not exist and yet it does Through *Inventing Paradise* Haddad shows readers that Los Angeles is not a paradise found but a paradise that was willed into existence owing to the collective vision of these six Gilded Era born tycoons
