Press Carl R. Osthaus, 2021-12-14 Carl R Osthaus examines the southern contribution to American Press history from Thomas
Ritchie's mastery of sectional politics and the New Orleans Picayune's popular voice and use of local color to the emergence
of progressive New South editors Henry Watterson Francis Dawson and Henry Grady who imitated as far as possible the
New Journalism of the 1880s Unlike black and reform editors who spoke for minorities and the poor the South's mainstream
editors of the nineteenth century advanced the interests of the elite and helped create the myth of southern unity The
southern press diverged from national standards in the years of sectionalism Civil War and Reconstruction Addicted to
editorial diatribes rather than to news gathering these southern editors of the middle period were violent partisan and
vindictive They exemplified and defended freedom of the press but the South's press was free only because southern society

was closed This work broadens our understanding of journalism of the South while making a valuable contribution to southern history
