*Legacies of Space and Intangible Heritage* Fernando Armstrong-Fumero, Julio Hoil Gutierrez, 2017-03-01 *Legacies of Space and Intangible Heritage* is an interdisciplinary exploration of the intersections between the study and management of physical sites and the reproduction of intangible cultural legacies The volume provides nine case studies that explore different ways in which place is mediated by social political and ecological processes that have deep historical roots and that continue to affect the politics of heritage management Spaces of human habitation are both historical records of the past and key elements in reproducing the knowledge and values that define lives in the present Practices knowledge and skills that communities recognize as part of their culture and that a range of legal statutes define as protected intangible heritages are threatened by increased migration the displacement of indigenous peoples and limits on access to culturally or historically significant sites This volume addresses how different physical environments contribute to the reproduction of cultural forms even in the wake of these processes of displacement and change Case studies from North and South America reveal a pattern of abandonment and reestablishment of settlements and show how collective memory drives people back to culturally meaningful sites This tendency for communities to return to the sites that shaped their collective histories along with the growing importance granted to intangible heritage challenges archaeologists and other heritage workers to find new ways of incorporating the cultural legacies that link societies to place into the work of research and stewardship By examining the politics of cultural continuity through the lenses of archaeology and ethnohistory *Legacies of Space and Intangible Heritage* demonstrates this complex relationship between a people's heritage and the landscape that affects the making of place Contributors Rani Alexander Hannah Becker Minette Church Bonnie Clark Chip Colwell Winifred Creamer Emiliana Cruz T J Ferguson Julio Hoil Gutierrez Jonathan Haas Saul Hedquist Maren Hopkins Stuart B Koyiyumptewa Christine Kray Henry Marcelo Castillo Anna Roosevelt Jason Yaeger Keiko Yoneda *Moonlighting & School's Out* M C. **Olympic Legacies: Intended and Unintended** J A Mangan, Mark Dyreson, 2013-10-18 For more than a century the Olympics have been the modern world's most significant sporting event. Indeed they deserve much credit for globalizing sport beyond the boundaries of the Anglo American universe where it originated into broader global realms. By the 1930s the Olympics had become a global mega event that occupied the attention of the media, the interest of the public and the energies of nation states. Since then projected by television, funded by global capital and fattened by the desires of nations to garner international prestige, the Olympics have grown to gargantuan dimensions. In the course of its epic history the Olympics have left numerous legacies from unforgettable feats to monumental stadiums, from shining triumphs to searing tragedies, from the dazzling debuts on the world's stage of new cities and nations to notorious campaigns of national propaganda. The Olympics represent an essential component of modern global history. The Olympic movement itself has since the 1990s recognized and sought to shape its numerous legacies with mixed success, as this book makes clear. It offers ground breaking analyses of the power of Olympic legacies, positive and negative, and surveys the subject from Athens in 1896 to Beijing in 2008 and indeed beyond. This book was published as a special issue of the *International Journal of the History of Sport*.

**Children's Literature of the Harlem Renaissance** Katharine Capshaw, Katharine Capshaw Smith, 2006-08-16 This book explores the period's vigorous exchange about the nature and identity of black childhood and uncovers the networks of African American philosophers, community activists, schoolteachers and literary artists who worked together to transmit black history and culture to the next generation. Jacket *Producing Children* Peter C. Kunze, Victoria Ford Smith, 2025 Children's culture is not only culture for children, it's culture by children, yet scholars of children's culture overwhelmingly center work by adults for children. *Producing Children* acknowledges and theorizes children as cultural producers, underscoring how such creativity empowers children as active participants in their own culture and helps us to reconceive our understandings of children themselves.

**Mediated Images of the South** Alison Slade, Dedria Givens-Carroll, Amber J. Narro, 2012-03-01 *Mediated Images of the South: The Portrayal of Dixie in Popular Culture* edited by Alison F. Slade, Dedria Givens-Carroll and Amber J. Narro is an anthology that explores the impact of the image of the Southerner within mass communication and popular culture. The contributors offer a contemporary analysis of the Southerner in the media. In most cases, previous literature situates these media images in the past, most notably through historic analyses of the Southerner during the Civil Rights movement. *Mediated Images of the South* breaks out of the box of the 1960s and 1970s by including the most recent and contemporary cultural examples of the Southerner. This book represents a long overdue analysis of those images from both the past and the present. In addition, the discussions are not limited to one genre of media but provide the reader with an opportunity to see how far-reaching the myth of the Southerner and the Southern image is in American society. While there is a long list of successful southern politicians, historical figures,

businessmen and women actors and actresses sports figures and other national and world leaders Slade Givens Carroll and Narro find that there is still work to be done to present southerners as capable and educated *Forest Hill, Louisiana* Chere Dastugue Coen,2014-09-30 Forest Hill boasts one of the largest nursery industries in the country despite its tiny population In the early days the community was a summer retreat for plantation owners The lumber industry rolled into town with the railroad which eased the transportation of virgin timber By 1901 the nurseries had emerged after Samuel Stokes began selling a variety of plants from his woods Today more than two hundred nurseries are in operation many by the families who founded them Author Chere Dastugue Coen reveals the deep roots of this horticultural hub **Facets of Qing Daoism** Monica Esposito,2016-03-11 As China is rapidly reemerging as the world s dominant economic powerhouse that it had been until the mid eighteenth century interest in its religions and philosophies is on the rise Just as the history and culture of Western civilizations can hardly be grasped without a measure of knowledge about Christianity an understanding of Chinese civilization and its history seems impossible without some comprehension of Daoism Though it has long been clear that modern Daoism has its roots in Daoist movements of the Qing dynasty 1644 1911 research on premodern Daoism had been largely neglected Published in six languages Italian French English German Chinese and Japanese the pioneering studies by Monica Esposito 1962 2011 on Qing Daoism have been instrumental in kindling keen scholarly interest both in the West and in China and Japan This book presents corrected and augmented versions of three of Dr Esposito s seminal articles that had originally been published in English Daoism in the Qing The Longmen School and its Controversial History and Longmen Daoism in Qing China Doctrinal Ideal and Local Reality along with English versions of two articles that had hitherto only been available in Japanese and Chinese Beheading the Red Dragon The Heart of Feminine Alchemy and An Example of Daoist and Tantric Interaction during the Qing Dynasty The Longmen xinzong In addition this volume contains a bibliography of all her publications and a detailed index [The Handbook of Political, Social, and Economic Transformation](#) Wolfgang Merkel,Raj Kollmorgen,Hans-Jürgen Wagener,2019-01-25 Political social and economic transformation is a complex historical phenomenon It can adequately be analysed only by a multidisciplinary approach The Handbook brings together an international team of scholars who are specialists in their respective research fields It introduces the most important areas theories and methods in transformation research with particular attention placed on the historical and comparative dimension Although focussing on post communist and other democratic transformations in our epoch the Handbook therefore presents and discusses not only their problems paths and developments but also deals with the antecedent waves beginning with the Meiji Restoration in Japan in 1868 and its aftermath The book is structured into six parts Starting with basic concepts as systems actors and institutions Section I it gives an overview over major theoretical approaches and research methods Sections II and III The connection of theory and method with their application is essential allowing special insights into the past and opens analytical avenues for transformation research in the future Section IV provides a historically
