

Southern Resistance

- Many Southern whites resented African Americans and the “**Black Republicanism**” that many Southerners claimed ruled the South.
- Some Southerners organized secret societies such as the Ku Klux Klan.
- The Klan’s goal was to drive out the Union troops and carpetbaggers and regain control of the South for the Democratic Party.

Southern Republicanism

Charles S. Bullock, Mark J. Rozell

Southern Republicanism:

The Rise of Southern Republicans Earl Black, Merle Black, 2002-04-22 Tracing the slow and difficult rise of Republicans in the South over five decades Earl and Merle Black tell the remarkable story of political upheaval [Southern Republicanism](#) Louis M. Seagull, 1975 *The Rise of Southern Republicans* Earl BLACK, Merle Black, Earl Black, 2009-06-30 The transformation of Southern politics over the past fifty years has been one of the most significant developments in American political life The emergence of formidable Republican strength in the previously solid Democratic South has generated a novel and highly competitive national battle for control of Congress Tracing the slow and difficult rise of Republicans in the South over five decades Earl and Merle Black tell the remarkable story of political upheaval *The Rise of Southern Republicans* provides a compelling account of growing competitiveness in Southern party politics and elections Through extraordinary research and analysis the authors track Southern voters shifting economic cultural and religious loyalties black white conflicts and interests during and after federal civil rights intervention and the struggles and adaptations of congressional candidates and officials A newly competitive South the authors argue means a newly competitive and revitalized America The story of how the South became a two party region is ultimately the story of two party politics in America at the end of the twentieth century Earl and Merle Black have written a bible for anyone who wants to understand regional and national congressional politics over the past half century Because the South is now at the epicenter of Republican and Democratic strategies to control Congress *The Rise of Southern Republicans* is essential to understanding the dynamics of current American politics Table of Contents 1 The Southern Transformation 2 Confronting the Democratic Juggernaut 3 The Promising Peripheral South 4 The Impenetrable Deep South 5 The Democratic Smother 6 The Democratic Domination 7 Reagan's Realignment of White Southerners 8 A New Party System in the South 9 The Peripheral South Breakthrough 10 The Deep South Challenge 11 The Republican Surge 12 Competitive South Competitive America Notes Index Reviews of this book These two leading scholars of Southern politics present a rigorous investigation of how voting in the peripheral South Florida Arkansas Texas North Carolina Virginia and Tennessee and the Deep South Georgia Louisiana Mississippi Alabama and South Carolina was realigned since Ronald Reagan was first elected president in 1980 Karl Helicher Library Journal With publication of their latest book *The Rise of Southern Republicans* the Blacks both 60 have produced a trilogy that traces an almost geologic style evolution in the South's political landscape They've analyzed the whys and what fors of a region that in the past 50 years has gone from impenetrably Democratic to competitively Republican Their overarching conclusion the two party warfare that defines the South defines the nation The Blacks work a mix of political wonkery and historical perspective cut with the deliciously illuminating anecdote is read by academics in various disciplines and political junkies of all stripes The books are valued for their coolly dissecting insights Because their writing swells beyond the data crunching lab work of most political scientists though new readers beware The books are littered with scary

looking charts and graphs it travels beyond academia Party strategists are steeped in the work The Blacks wrote the book on how academic political science can illuminate practical politics says Republican pollster Whit Ayers Drew Jubera Atlanta Journal Constitution The South s political identity has been transformed in the last half century from a region of Democratic hegemony to a region of Republican majority Earl and Merle Black sedulously examine this remarkable change This is a work of serious scholarship that lacks any hint of a partisan purpose Committed readers will increase their understanding of both Southern and national politics The Blacks effort may well be the definitive statement on Southern politics over the 20th century Publishers Weekly Not since 1872 Earl Black and Merle Black point out in their third book on Southern politics had the Republicans constructed majorities from both the North and the South in both houses and it was the national character of their victory that made the 1994 election such a landmark In The Rise of Southern Republicans the Black brothers chronicle the party s history from the 1930s to the present election by election They illuminate the economic racial and political dynamics that gradually moved the South toward the Republican Party while also warning that the Republicans do not by any means own the region in the way the Democrats once did Kevin Sack New York Times Book Review In The Rise of Southern Republicans brothers Earl and Merle Black explain the partisan realignment that has brought the South into the national political mainstream The Blacks focus most of their attention on the congressional arena where voting patterns reflect long term partisan loyalty more closely than at the presidential level T he story the authors of The Rise of Southern Republicans tell is a fascinating one with implications for American politics that are both profound and uncertain David Lowe Weekly Standard The rise of southern Republicans is one of the most consequential stories in modern American politics For political reporters of a certain generation the Democratic dominance of Southern congressional politics is barely understood The Black brothers make it all very clear Major Garrett Washington Monthly This superb analysis of Southern politics by Earl Black and his brother Merle Black not only tracks the recent rise of Republicans in the South but explains why party realignment along ideological lines was so long in coming to that region The Rise of Southern Republicans is already being rightly hailed as a political science classic Its strength is the thorough and systematic manner in which it examines the changing ways a wide variety of factors have affected Southern voting patterns over the past four decades The data and the rigor of the analysis are truly impressive James D Fairbanks Houston Chronicle This extraordinary book by the country s two leading scholarly experts on the politics of the American South could accurately have been titled Everything you wanted to know about Southern politics as well as everything you could ever imagine asking about it Their knowledge of the intricacies of particular congressional districts across the region is amazing and their analysis of the larger partisan trends in the region makes this the most important book on Southern politics Stephen J Farnsworth Richmond Times Dispatch The Black brothers have done it again The Rise of Southern Republicans is without question the most important book ever written on the role of the South in Congress and the partisan consequences for our national legislature Far and away the most comprehensive

updating of the V O Key classic Southern Politics This is a major work by extremely talented scholars Charles S Bullock University of Georgia The dramatic rise of the Republican Party in the South is the single most important factor in the transformation of American politics since the 1960s Earl and Merle Black have described this process in a book that is witty always filled with insight and readable to the last page The Rise of Southern Republicans is indispensable reading for anyone interested in American politics past present or future Dan T Carter author of The Politics of Rage George Wallace the Origins of the New Conservatism and the Transformation of American Politics This marvelous book captures with authority and readability the big story of post New Deal party politics in the United States It is a surefire classic of political science and politics Richard F Fenno Jr author of Congress at the Grassroots Representational Change in the South 1970 1998

Republican Ascendancy in Southern U.S. House Elections Seth C. McKee, 2018-04-17 Tremendous transformation marks the last three decades of American politics and nowhere has this change been as distinctive and penetrating as in the American South After 120 consecutive years of minority status the rapid ascendancy of Southern House Republicans in the 1990s has reshaped the contours of contemporary American politics increasing party polarization making a Republican House majority possible and most recently contributing to the revival of Democratic fortunes in national congressional elections Southern Republican ascendancy constitutes an exemplar of party system change made possible by three sequential factors increasing Republican identification redistricting and the emergence of viable Republican candidates Relying on existing and original data sources this text presents the most recent example of large scale partisan change Beyond serving as a primer for the study of political parties campaigns and elections and Southern politics Republican Ascendancy in Southern U S House Elections provides an original theoretical argument and an expansive view of why political change in the South has such strong implications for national politics **The Oxford Handbook of Southern Politics** Charles S.

Bullock, Mark J. Rozell, 2012-03-15 The twenty three essays included in The Oxford Handbook of Southern Politics present a definitive view of the factors that contribute to the South s distinctive politics examining these factors in the context of the region s political development since World War II The Dynamics of Southern Politics Seth C. McKee, 2018-07-17 Taking a hard look at the changing demographics in the American South The Dynamics of Southern Politics discusses how this region remains exceptional while also addressing how that exceptionalism is eroding Author Seth McKee tells a historically rich story going back to the end of the Civil War tracks electoral changes to the present and explores some of the most significant components contributing to partisan change Supported by a host of detailed tables and figures this book pairs a strong historical foundation with an in depth analysis of the contemporary region **The Existing Conflict Between Republican**

Government and Southern Oligarchy Green Berry Raum, 1884 Southern Republicanism Louis M. Seagull, 1975 Republicanism of Nineteen-twenty Frank Hendrick, 1920 **The Illustrated American** , 1896 **The Republican Magazine** , 1892 *Republicans Face the Southern Question* Vincent P. De Santis, 1959 *The Southern Strategy*

Revisited Joseph A. Aistrup, 2021-10-21 The 1994 elections represented a watershed year for southern Republicans. For the first time since Reconstruction they gained control of a majority of national seats and governorships. Yet despite these impressive gains southern Republicans control only three of twenty-two state legislative chambers and 37 percent of state legislative seats. Joseph A. Aistrup addresses why this divergence between the national and subnational levels persists even after GOP national landslides in 1972, 1980, 1984, 1988, and 1994. Explanations for this divergence lie in the interaction between the Republicans' Southern Strategy, a set of coherent ideological tactics designed to lure southern whites to support GOP candidates, and the Republicans' top-down party development efforts. Aistrup analyzes the historical evolution of the Republican Southern Strategy from Goldwater in 1961 to the Contract with America in 1994. Examining the roles of ideology, intra-party politics, gerrymandering, and Democratic incumbency in Republican top-down advancement, he predicts the extent to which these will remain significant obstacles to GOP success in subnational elections after 1994. Aistrup reveals the strengths and weaknesses of the Southern Strategy as it relates to candidate ideology and examines the influences of Republican victories in national and statewide offices on the party's subnational advancement. He shows a clear connection between Republican presidential success and southern Republican advancement in local elections.
