Fagan, 2020-09-28 The war songs of the South are a part of the history of the Lost Cause. They are necessary to the impartial historian in forming a correct estimate of the animus of the Southern people. Emotional literature is always a correct exponent of public sentiment, and these songs index the passionate sincerity of the South at the time they were written. Poetic merit is not claimed for all of them; still, each one embodies either a fact or a principle. Written in an era of war when the public mind was thoroughly aroused, some may now appear harsh and vindictive. Eight millions of people read and sang them.

This fact alone warrants their collection and preservation A greater number of the songs have been gathered from Southern newspapers The task has been laborious but still a labor of love as no work of this kind has before been offered to the public

The Southern War Poetry of the Civil War Esther Parker Ellinger, 1918 Bugle Resounding Bruce C. Kelley, Mark A. Snell, 2004-10-12 In the mid nineteenth century the United States was musically vibrant Rising industrialization a growing middle class and increasing concern for the founding of American centers of art created a culture that was rich in musical

capital Beyond its importance to the people who created and played it is the fact that this music still influences our culture today Although numerous academic resources examine the music and musicians of the Civil War era the research is spread across a variety of disciplines and is found in a wide array of scholarly journals books and papers It is difficult to assimilate this diverse body of research and few sources are dedicated solely to a rigorous and comprehensive investigation of the music and the musicians of this era This anthology which grew out of the first two National Conferences on Music of the Civil War Era is an initial attempt to address that need Those conferences established the first academic setting solely devoted to exploring the effects of the Civil War on music and musicians Bridging musicology and history these essays represent the forefront of scholarship in music of the Civil War era Each one makes a significant contribution to research in the music of this era and will ultimately encourage more interdisciplinary research on a subject that has relevance both for its own time and for ours The result is a readable understandable volume on one of the few understudied yet fascinating aspects of the Civil War era

American Popular Music and Its Business the late Russell Sanjek, 1988-07-28 Volume two concentrates exclusively on music activity in the United States in the nineteenth century Among the topics discussed are how changing technology affected the printing of music the development of sheet music publishing the growth of the American musical theater popular religious music black music including spirituals and ragtime music during the Civil War and finally music in the era of monopoly including such subjects as copyright changing technology and distribution invention of the phonograph copyright revision and the establishment of Tin Pan Alley

War Poetry of the South Various Authors, Several considerations have prompted the editor of this volume in the compilation of its pages It constitutes a contribution to the national literature which is assumed to be not unworthy of it and which is otherwise valuable as illustrating the degree of mental and art development which has been made in a large section of the country under circumstances greatly calculated to stimulate talent and provoke expression through the higher utterances of passion and imagination Though sectional in its character and indicative of a temper and a feeling which were in conflict with nationality yet now that the States of the Union have been resolved into one nation this collection is essentially as much the property of the whole as are the captured cannon which were employed against it during the progress of the late war It belongs to the national literature and will hereafter be regarded as constituting a proper part of it just as legitimately to be recognized by the nation as are the rival ballads of the cavaliers and roundheads by the English in the great civil conflict of their country The emotional literature of a people is as necessary to the philosophical historian as the mere details of events in the progress of a nation This is essential to the reputation of the Southern people as illustrating their feelings sentiments ideas and opinions the motives which influenced their actions and the objects which they had in contemplation and which seemed to them to justify the struggle in which they were engaged It shows with what spirit the popular mind regarded the course of events whether favorable or adverse and in this aspect it is even of more importance to the writer of history than any mere chronicle of facts The mere facts in a history do not always or often indicate the true animus of the action But in poetry and song the emotional nature is apt to declare itself without reserve speaking out with a passion which disdains subterfuge and through media of imagination and fancy which are not only without reserve but which are too coercive in their own nature too arbitrary in their influence to acknowledge any restraints upon that expression which glows or weeps with emotions that gush freely and freshly from the heart With this persuasion we can also forgive the muse who in her fervor is sometimes forgetful of her art And yet it is believed that the numerous pieces of this volume will be found creditable to the genius and culture of the Southern people and honorable as in accordance with their convictions They are derived from all the States of the late Southern Confederacy

and will be found truthfully to exhibit the sentiment and opinion prevailing more or less generally throughout the whole The editor has had special advantages in making the compilation Having a large correspondence in most of the Southern States he has found no difficulty in procuring his material Contributions have poured in upon him from all portions of the South the original publications having been in a large number of cases subjected to the careful revision of the several authors It is a matter of great regret with him that the limits of the present volume have not suffered him to do justice to and find a place for many of the pieces which fully deserve to be put on record Some of the poems were quite too long for his purpose a large number delayed by the mails and other causes were received too late for publication Several collections from Louisiana North Carolina and Texas especially are omitted for this reason Many of these pieces are distinguished by fire force passion and a free play of fancy Briefly his material would enable him to prepare another volume similar to the present which would not be unworthy of its companionship He is authorized by his publisher to say that in the event of the popular success of the present volume he will cheerfully follow up its publication by a second of like style character and dimensions
