**Reframing Paquimé** Michael E. Whalen,Paul E. Minnis,2025-04-15 Reframing Paquim Community Formation in Northwest Chihuahua is a groundbreaking reinterpretation of the Casas Grandes region by scholars Michael E Whalen and Paul E Minnis This final installment in their comprehensive study challenges the dominant view of Paquim as a hierarchical society founded by outsiders presenting instead a compelling case for a largely locally organized society with Mesoamerican and Puebloan characteristics Drawing on twenty five years of extensive survey and excavation data the authors offer a fresh perspective that reframes our understanding of this remarkable archaeological site Whalen and Minnis bring forth significant new data that illuminates the cultural and ecological history of Paquim and its neighboring communities The book features more than fifty new radiocarbon dates hundreds of analyzed archaeobotanical and faunal samples plus tens of thousands of other artifacts The data reveal a network of settlements characterized by corporate and ritual based authority challenging

traditional models of the center's rise, collapse and subsequent regional abandonment and arguing that aspects of the Paquim culture continued to exist up to the Spanish Colonial period. Reframing Paquim is poised to become an essential reference for archaeologists interested in Northwest Mexico and the U.S. Southwest. By addressing the complex dynamics of community formation and dissolution, Whalen and Minnis provide invaluable insights that will ignite scholarly debate and inspire future research. This meticulously researched volume, authored by leading experts with decades of fieldwork experience, is a vital addition to any collection on the archaeology and ethnohistory of ancient North American societies.
