The Evolution of Culture Leslie A White,2016-06-16 One of the major works of twentieth century anthropological theory written by one of the discipline s most important complex and controversial figures has not been in print for several years Now Evolution of Culture is again available in paperback allowing today s generation of anthropologists new access to Leslie White s crucial contribution to the theory of cultural evolution A new substantial introduction by Robert Carneiro and Burton J Brown assess White s historical importance and continuing influence in the discipline White is credited with reintroducing evolution in a way that had a profound impact on our understanding of the relationship between technology ecology and culture in the development of civilizations A materialist he was particularly concerned with societies ability to harness energy as an indicator of progress and his empirical analysis of this equation covers a vast historical span Fearlessly tackling the most fundamental questions of culture and society during the cold war White was frequently a lightning rod both inside and outside the academy His book will provoke equally potent debates today and is a key component of any course or reading list in anthropological or archaeological theory and cultural ecology **Anthropological Perspectives on Rural**

Mexico Cynthia Hewitt de Alcántara,2017-07-06 In this title first published in 1984 the author examines the social and political forces surrounding the practice of anthropology at different periods in the history of Mexico since 1917 She does this by analysing and tracing the development of competing anthropological perspectives from ethnographic particularism and functionalism through indigenismo cultural ecology Marxism and the dependency paradigm to the historical structuralism of the 1970s This book provides the basis for a systematic analysis of peasant studies in Mexico and discusses in stimulating terms the theoretical and empirical difficulties of the profession of anthropology itself *Revolutions as Organizational Change* Baohui Zhan,2015-09-01 By comparing peasant revolutions in Hunan and Jiangxi between 1926 and 1934 *Revolutions as Organizational Change* offers a new organizational perspective on peasant revolutions Utilizing newly available historical materials in the People s Republic of China in the reform era it challenges the established view that the great Chinese revolution of the twentieth century was a revolution made by the Chinese Communist Party the CCP The book begins with a puzzle presented by the two peasant revolutions While outside mobilization by the CCP was largely absent in Hunan peasant revolutionary behaviors were spontaneous and radical In Jiangxi however despite intense mobilization by the CCP peasants remained passive and conservative This study seeks to resolve the puzzle by examining the roles of communal cooperative institutions in the making of peasant revolutions Historically peasant communities in many parts of the world were regulated by powerful cooperative institutions to confront environmental challenges This book argues that different communal organizational principles affect peasants perceptions of the legitimacy of their communal orders Agrarian rebellions can be caused by peasants attempts to restructure unjust and illegitimate communal organizational orders while

legitimate communal organizational orders can powerfully constrain the mobilization by outside revolutionary agents such as the CCP In this thorough comparative account of the peasant risings in Hunan and Jiangxi and the role of the Communist Party Professor Zhang casts new light on both the risings themselves and what they can tell us about peasant risings in general This work is strong in both theory and detailed historical research Richard Rigby professor China Institute Australian National University Professor Zhang has beautifully crafted a comparative study of divergent peasant revolutions in two Chinese regions during Mao s long revolutionary war He brings to this task a broad and deep knowledge about revolutionary theory and also a razor like analytical sensibility which enables him to examine the pros and cons of existing perspectives Timothy P Wickham Crowley associate professor of sociology Georgetown University [In Search Of Our Ancestors](#) Dr. Armoogum Parsuramen,2023-01-17 A Historical and Pictorial Presentation and Tribute to the Tamil Indian Migration and Settlement in Mauritius and their Descendants 1728 To Present Times and in other Parts of the World by Professor Dr Armoogum Parsuramen GOSK Founder President International Thirukkural Foundation Chairman Global Rainbow Foundation and Mr Satyendra Peerthum AOYP Historian Aapravasi Ghat Trust Fund Aapravasi Ghat World Heritage Site Writer and Lecturer is a landmark book which is being launched by the Armoogum Parsuramen Foundation marking the 294th anniversary of the arrival of the Tamil artisans and slaves from India to Mauritian shores on 11th November 2022 and the 188th anniversary of the arrival of the Indian indentured workers in Mauritius on 2nd November 2022 It is estimated that between 1728 and 1930 more than 150 000 Tamil Indian artisans free passengers including merchants and traders slaves and indentured men women and children reached the shores of our small Indian ocean island paradise Out of which the majority were the estimated more than 107 000 Tamil Indian indentured workers who arrived in British Mauritius between 1826 and 1910 This ground breaking book is essentially the long complex and epic social history of their migration settlement and of their descendants in the making of the Mauritian state and nation over a period of almost three centuries

Afro-Cuban Religious Arts Kristine Juncker, 2014-07-15 This book profiles four generations of women from one Afro Cuban religious family From a plantation in Havana Province in the 1890s to a religious center in Spanish Harlem in the 1960s these women were connected by their prominent roles as leaders in the religions they practiced and the dramatic ritual artwork they created Each woman was a medium in Espiritismo communicating with dead ancestors for guidance or insight and also a santera or priest of Santer a who could intervene with the oricha pantheon Kristine Juncker argues that by creating art for more than one religion these women shatter the popular assumption that Afro Caribbean religions are exclusive organizations Most remarkably the portraiture sculptures and photographs in Afro Cuban Religious Arts offer rare glimpses into the rituals and iconography of these religions Santer a altars are closely guarded limited to initiates and typically destroyed upon the death of the santera while Espiritismo artifacts are rarely considered valuable enough to pass on The unique and protean cultural legacy detailed here reveals insights into how ritual art became popular imagery sparked a wider dialogue about culture inheritance attracted new practitioners and enabled the movement to explode internationally
