Souvenirs Personnels 1848 1851:

French Historians in the Nineteenth Century F.L. van Holthoon, 2019-05-22 This study is a reflection on the major historians of nineteenth century France and shows that near the end of the century a major change of perspective occurred. The historians discussed in the opening sections of the book looked to the past for guidance while modern historians from the twentieth century onwards regard the past as a closed book which the historian has to open. Guizot is the hero of the first section of the book. In part two Comtesse d'Agoult Daniel Stern is specifically mentioned partly because she who wrote a splendid history of the revolution of 1848 tends to be ignored as a historian while Michelet and Tocqueville are still discussed. The historians in part three are transitional figures who politically and morally still belong to the nineteenth century but whose histories show the new approach to the past.

The French Republic under Cavaignac, 1848 Frederick A. De Luna, 2015-12-08 General Louis Eugène Cavaignac has been a symbol of reactionary violence ever since he crushed the insurgent workers of Paris in the bloody June Days of 1848. Professor de Luna presents a fresh interpretation of the General as well as a detailed examination of the turbulent year of European revolution until Cavaignac was defeated by Louis Bonaparte in the December presidential elections. Many historians have dismissed the Cavaignac period as one of bleak reaction but Professor de Luna shows that the General was a fervent democratic republican and that the moderate republicans under Cavaignac offered their own program of political, economic and educational reform. Originally published in 1969, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

[The Republican Experiment, 1848-1852](#) Maurice Agulhon, 1983-09 A distinguished French historian traces the history of France under the Second Republic. His approach emphasizes the relationship between the political history of the period and the history of popular culture and thought.

France and 1848 William Fortescue, 2005 Examining the economic, social and political crises, this book evaluates the political history of France during the revolution of 1848 and the French political culture of the time.
