**The Soviet Calculus of Nuclear War** Roman Kolkowicz, Ellen Propper Mickiewicz, 1986      **Bulletin of the Atomic Scientists**, 1986-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world      **The Laws of War** Michael Howard, George J. Andreopoulos, Mark R. Shulman, Michael Eliot Howard, 1994-01-01 This book explores not only the formal constraints on the conduct of war throughout Western history but also the unwritten conventions about what is permissible in the course of military operations Ranging from classical antiquity to the present eminent historians discuss the legal and cultural regulation of violence in such areas as belligerent rights the treatment of prisoners and civilians the observing of truces and immunities the use of particular weapons siege warfare codes of honor and war crimes The book begins with a general overview of the subject by Michael Howard The contributors then discuss the formal and informal constraints on conducting war as they existed in classical antiquity the age of chivalry early modern Europe colonial America and the age of Napoleon They also examine how these constraints have been applied to wars at sea on land and in the air planning for nuclear war and national liberation struggles in which one of the participants is not an organized state The book concludes with reflections by Paul Kennedy and George Andreopoulos on the main challenges facing the quest for humanitarian norms in warfare in the future      **The Tragedy of Great Power Politics (Updated Edition)** John J. Mearsheimer, 2003-01-17 A superb book Mearsheimer has made a significant contribution to our understanding of the behavior of great powers Barry R Posen The National Interest The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty first century Can China rise peacefully In clear eloquent prose John Mearsheimer explains why the answer is no a rising China will seek to dominate Asia while the United States determined to remain the world's sole regional hegemon will go to great lengths to prevent that from happening The tragedy of great power politics is inescapable      Special Bibliography Series, 1957      **International Negotiations: A Bibliography** Amos Lakos, 2019-02-22 The international system comprises a plurality of sovereign states often pursuing conflicting interests One means of resolving or managing conflicts between those states is diplomatic bargaining or negotiation In the last fifteen years the study of negotiation has attracted researchers from various disciplines in the social sciences and the vol

**Strategic Review**, 1983 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States      *Negotiating START* Kerry M. Kartchner, The United States and the Soviet Union have been negotiating nuclear arms control agreements for over twenty years yet radical differences remain in the two sides concept of and approaches to strategic stability and arms control This book compares and contrasts those approaches using START Strategic Arms Reduction Treaty as a case study Throughout two decades of

negotiation U S policy has been directed toward dialogue that would encourage convergence of American and Soviet thought on nuclear deterrence In Kartchner s view that hope is belied not only by continuing asymmetries in the development and deployment of their strategic nuclear arsenals but by differing U S and Soviet negotiating positions The Reagan administration viewed START as a means of repudiating SALT II restoring a measure of balance in the U S Soviet strategic competition and as a way of closing the so called window of vulnerability In contrast Kartchner analyzes the Soviets differing views of nuclear balance emphasizing their satisfaction with SALT II and a strategic equilibrium shaped by a decade of bilateral arms control Kartchner offers a detailed exposition of the major negotiating issues in START contrasting concerns of U S and Soviet negotiators Not surprisingly each side s agenda was dominated by weapon systems that figure prominently in the other s development program The author concludes by summarizing and comparing American and Soviet quests for stability and drawing up an assessment of U S efforts in both SALT and START to use arms control negotiations as a kind of classroom for instructing Soviet officials in American notions of stabilizing versus destabilizing weapon technology and America s own ethnocentric view of stability START will profoundly affect the acquisition operation maintenance and cost of U S strategic nuclear forces well into the next century The history and analysis presented here will provide an essential source to policymakers and students of military political relations for much needed further study of this treaty s implications

*Culture and Security* Keith R. Krause, 2012-11-12 A comprehensive and empirically rich set of case studies that examine the impact of socio cultural influences on multilateral arms control and security building processes around the world

**Split Signals** Ellen Mickiewicz, 1988-08-18 Television has changed drastically in the Soviet Union over the last three decades In 1960 only five percent of the population had access to TV but now the viewing population has reached near total saturation Today s main source of information in the USSR television has become Mikhail Gorbachev s most powerful instrument for paving the way for major reform Containing a wealth of interviews with major Soviet and American media figures and fascinating descriptions of Soviet TV shows Ellen Mickiewicz s wide ranging vividly written volume compares over one hundred hours of Soviet and American television covering programs broadcast during both the Chernenko and Gorbachev governments Mickiewicz describes the enormous significance and popularity of news programs and discusses how Soviet journalists work in the United States Offering a fascinating depiction of the world seen on Soviet TV she also explores the changes in programming that have occurred as a result of glasnost

**Soviet Ballistic Missile Defense and the Western Alliance** David Scott Yost, 1988 Yost suggests that the challenges for Western policy posed by Soviet ballistic missile defense BMD programs stem partly from Soviet military programs Soviet arms control policies and Soviet public diplomacy campaigns and partly from the West s own intra alliance disagreements and lack of consensus about Western security requirements

**Why NATO Endures** Wallace J. Thies, 2009-06-29 Why NATO Endures examines military alliances and their role in international relations developing two themes The first is that the Atlantic Alliance also known as NATO has

become something very different from virtually all pre 1939 alliances and many contemporary alliances The members of early alliances frequently feared their allies as much if not more than their enemies viewing them as temporary accomplices and future rivals In contrast NATO members were almost all democracies that encouraged each other to grow stronger The book's second theme is that NATO as an alliance of democracies has developed hidden strengths that have allowed it to endure for roughly 60 years unlike most other alliances which often broke apart within a few years Democracies can and do disagree with one another but they do not fear each other They also need the approval of other democracies as they conduct their foreign policies These traits constitute built in self healing tendencies which is why NATO endures

*Problems of Communism* ,1985      Transformation in Russian and Soviet military history ,      Soviet Military Doctrine and Western Policy Gregory Flynn,2021-01-26 This book first published in 1989 analyses Western and Soviet perceptions of each other's military thoughts and doctrines a key part of the Cold War where both sides planned to both win a possible conflict and to avoid one The work demonstrates that both East and West made judgments about each other's military profile on the basis of political preconceptions

**The Causes of Wars and Other Essays** Michael Howard,1984 Public consciousness of the threat of nuclear war is rising steadily Responses to the nuclear dilemma are conflicting and often confusing Never have we been more in need of information and perspective for if we wish to avoid war we must understand it Michael Howard offers an analysis of our present predicament by discussing those issues that cause war and make peace His book includes an examination of nuclear strategy today views of the past about the conduct of international relations ethics modes of defense and studies of military thinkers and leaders The Causes of Wars illuminates the interrelationship between men and ideas between war and other social forces and between our present situation and its roots in the past

**Energy Abstracts for Policy Analysis** ,1987      **Bulletin of the Atomic Scientists** ,1986-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

*Soviet Union* ,1986      Soviet National Security Policy Under Perestroika George E. Hudson,2021-01-26 This book first published in 1990 examines the nature and causes of the changes to Soviet national security policy under Gorbachev Changes in leadership and institutional arrangements economic policy ideology and military involvement all fostered new patterns of cooperation and competition Authors look at the historical economic and cultural contexts of change and proceed to a discussion of change agents such as modernization technology and domestic politics Specific components of foreign and military policy such as arms control and relations with Western Europe the Warsaw Pact and the Third World are also examined
