The Industrialisation Of Soviet Russia: Volume 2: The Soviet Collective Farm, 1929-1930 R W Davies,1980-07-31 During the events described in The Socialist Offensive the collective farms achieved a commanding position in the Soviet countryside The emergence of the collective farm in 1929 30 discussed in the present volume was a crucial stage in the formation of the Soviet system **The Industrialisation of Soviet Russia 2: Soviet Collective Farm, 1929-1930** R. W.

Davies,1989-05-05 During the events described in The Socialist Offensive the collective farms achieved a commanding position in the Soviet countryside They were planned as giant fully socialist enterprises modelled on the state owned factories and employing wage labour By the summer of 1930 the collective farm compromise had been introduced Collective farmers were permitted to retain a personal household plot and their own animals and a free market continued side by side with state planning This system continued throughout the Stalin period important features of it remain in the Soviet Union today The emergence of the collective farm in 1929 30 discussed in detail in the present volume was thus a crucial stage in the formation of the Soviet system The Soviet Collective Farm, 1929-1930 Robert William Davies,1980 **The**

Industrialisation of Soviet Russia Robert William Davies,1979 **The Industrialisation of Soviet Russia Volume 4: Crisis and Progress in the Soviet Economy, 1931-1933** R. W. Davies,2016-07-27 The profound economic crisis of 1931 33 undermined the process of industrialisation and the stability of the regime In spite of feverish efforts to achieve the over ambitious first five year plan the great industrial projects lagged far behind schedule These were years of inflation economic disorder and of terrible famine in 1933 In response to the crisis policies and systems changed significantly Greater realism prevailed more moderate plans reduced investment strict monetary controls and more emphasis on economic incentives and the role of the market The reforms failed to prevent the terrible famine of 1933 in which millions of peasants died But the last months of 1933 saw the first signs of an industrial boom the outcome of the huge investments of previous years Using the previously secret archives of the Politburo and the Council of People s Commissars the author shows how during these formative years the economic system acquired the shape which it retained until the collapse of the Soviet Union in 1991

The Industrialisation of Soviet Russia R. W. Davies,1980 **The Industrialisation of Soviet Russia 3: The Soviet Economy in Turmoil 1929-1930** R. W. Davies,1989-05-05 In 1929 30 the spinal year of the first five year plan a vast investment programme began the transformation of the Soviet Union from a peasant country into a great industrial power This book the third part of The Industrialisation of Soviet Russia re examines the breakdown of the mixed economy In those days of heroism and enthusiasm hunger and repression crucial Soviet economic and political institutions were established and are only now being effectively challenged by Gorbachev s revolution While complementing the previous two volumes of this author s work the book is designed to be read independently It sheds new light on a dramatic moment in Soviet history and in the formation of the Soviet system **The Industrialisation of Soviet Russia 1: Socialist Offensive** R. W.

Davies,1980-07-30 By the summer of 1929 Soviet industrialisation was well under way but agriculture was in a profound crisis in 1928 and 1929 grain to feed the towns was wrested from the peasants by force and the twenty five million individual peasant households lost the stimulus to extend or even to maintain their production In the autumn of 1929 the Soviet Politburo led by Stalin launched its desperate effort to win the battle for agriculture by forcible collectivisation and by large scale mechanisation Simultaneously hundreds of thousands of kulaks richer peasants and recalcitrant peasants were expelled from their villages This book tells the story of these events as momentous in their impact on Russian history at the Bolshevik Revolution of October 1917 and of the temporary retreat from collectivisation in the spring of 1930 in the face of peasant resistance The crisis in the Communist Party which resulted from this upheaval in the months preceding the XVI party congress in June 1930 is described in detail for the first time **The Russian Peasantry 1600-1930** David

Moon,2014-07-16 This impressive work set to become the standard history on the subject offers a definitive survey of peasant society in Russia from the consolidation of serfdom and tsarist autocracy in the 17th century through to the destruction of the peasant s traditional world under Stalin Over three quarters of Russian society were peasants in these years and David Moon explores all aspects of their life xxx including the rural economy peasant households village communities xxx and their political role including protest against the landowning elites In the process he presents a fresh perspective on the history of Russia itself A big book in every way xxx and compellingly readable *Centre-Local Relations in the Stalinist State, 1928-1941* E. A. Rees,2002-10-22 This book analyzes the development of the Stalinist state of the 1930s from the perspective of the changing nature of centre local relations It examines the trend toward greater central state control over the formation and implementation of economic policy and the shift towards increased state repression through a series of archive based case studies of the centre s interactions with its republican and regional bodies The book provides the basis for a new conceptualization of the Stalinist state Class Theory and History Stephen A. Resnick,Richard D. Wolff,2013-12-16 Class

Theory and History takes an ambitious and ground breaking look at the entire history of the Soviet Union and presents a new kind of analysis of the history of the USSR examining its birth evolution and death in class terms Utilizing the class analytics they have developed over the last three decades resnick and Wolff formulate the most fully developed economic theory of communism now available and use that theory to answer the question did communism ever exist in the USSR and if so where why and for how long Their initial and controversial conclusion Soviet industry never established a communist class structure This conclusion then leads to the hypothesis that the USSR and private capitalism in the United States to discuss the future of private capitalism state capitalism and communism *Problems of the Planned Economy* John Eatwell,Murray

Milgate,Peter Newman,1990-07-23 This is an excerpt from the 4 volume dictionary of economics a reference book which aims to define the subject of economics today 1300 subject entries in the complete work cover the broad themes of economic theory This extract concentrates on problems encountered in a planned economy *Stalin's Peasants* Sheila

Fitzpatrick,1994 Drawing on Soviet archives especially the letters of complaint with which peasants deluged the Soviet authorities in the 1930s this work analyzes peasants strategies of resistance and survival in the new world of the collectivized village **Stalin's Letters to Molotov** Joseph Stalin,1995-01-01 These letters from Stalin to his trusted friend and political colleague Molotov constitute a unique historical record of Stalin s thinking both personal and political during a dramatic period of transformation in the Soviet Union Peasant Rebels Under Stalin Lynne Viola,1999 Based on newly declassified Soviet archives including secret police reports *Peasant Rebels Under Stalin* documents the active history of the vast peasant rebellion against collectivization between 1928 1932 Lynn Viola reveals the manifestation in Stalin s Russia of universal strategies of peasant resistance in what amounted to virtual civil war between state and peasantry Eisenstein, Cinema, and History James Goodwin,1993 Among early directors Sergei Eisentein stands alone as the maker of a fully historical cinema James Goodwin treats issues of revolutionary history and historical representation as central to an understanding of Eisentein s work which explores two movements within Soviet history and consciousness the Bolshevik Revolution and the Stalinist state Goodwin articulates intersections between Eisentein s ideas and aspects of the thought of Walter Benjamin Georg Luk cs Ernst Bloch and Bertolt Brecht He also shows how the formal properties and filmic techniques of each work reveal perspectives on history Individual chapters focus on *Strike Battleship Potemkin* *October* *Old and New* projects of the 1930s *Alexander Nevsky* and *Ivan the Terrible* *Curative Powers* Paula A. Michaels,2012-03-19 Finalist PEN Center USA Literary Awards Research Nonfiction Rich in oil and strategically located between Russia and China Kazakhstan is one of the most economically and geopolitically important of the so called Newly Independent States that emerged after the USSR s collapse Yet little is known in the West about the region s turbulent history under Soviet rule particularly how the regime asserted colonial dominion over the Kazakhs and other ethnic minorities Grappling directly with the issue of Soviet colonialism *Curative Powers* offers an in depth exploration of this dramatic bloody and transformative era in Kazakhstan s history Paula Michaels reconstructs the Soviet government s use of medical and public health policies to change the society politics and culture of its outlying regions At first glance the Soviets drive to modernize medicine in Kazakhstan seems an altruistic effort to improve quality of life Yet as Michaels reveals beneath the surface lies a story of power legitimacy and control The Communist regime used biomedicine to reshape the function self perception and practices of both doctors and patients just as it did through education the arts the military the family and other institutions Paying particular attention to the Kazakhs ethnomedical customs Soviet authorities designed public health initiatives to teach the local populace that their traditional medical practices were backward even dangerous and that they themselves were dirty and diseased Through poster art newsreels public speeches and other forms of propaganda Communist authorities used the power of language to demonstrate Soviet might and undermine the power of local ethnomedical practitioners while moving the region toward what the Soviet state defined as civilization and political enlightenment As Michaels demonstrates Kazakhs responded in

unexpected ways to the institutionalization of this new pan Soviet culture Ethnomedical customs surreptitiously lived on despite direct sometimes violent attacks by state authorities While Communist officials hoped to exterminate all remnants of traditional healing practices Michaels points to evidence that suggests the Kazakhs continued to rely on ethnomedicine even as they were utilizing the services of biomedical doctors nurses and midwives The picture that ultimately emerges is much different from what the Soviets must have imagined The disparate medical systems were not in open conflict but instead both indigenous and alien practices worked side by side becoming integrated into daily life Combining colonial and postcolonial theory with intensive archival and ethnographic research Curative Powers offers a detailed view of Soviet medical initiatives and their underlying political and social implications and impact on Kazakh society Michaels also endeavors to link biomedical policies and practices to broader questions of pan Soviet identity formation and colonial control in the non Russian periphery
