The Expense Of Vision Essays On The Craft Of Henry James:

The Expense of Vision Laurence Bedwell Holland, 1982 Mexicans in the Making of America examines the impact of Mexican Americans and Mexican immigrants on U S culture politics and economy since the 1848 U S Mexican War when the United States seized the northern half of Mexico the present day states of California Arizona New Mexico Texas annexed in 1846 Nevada Utah and parts of Wyoming Colorado Kansas and Oklahoma From the moment the United States signed the Treaty of Guadalupe Hidalgo ending the war America sealed its destiny and that of Mexico as two nations separate and unequal inextricably linked by geography and bound together by generations of Mexican Americans and Mexican immigrants Latino USA is a transnational history of an emergent national identity that includes people of mixed race and composite hybrid cultures from Mexico who continue to reside mainly in the American Southwest At the national level it is the history of the fear of immigrants particularly fear of Mexicans over the past fifty years that has brought us to the present moment a time in which white majorities in many states are declining and in which the United States is trying to cope in various ways with the very thing it denies that it is not and has never been a purely Anglo American nation Provided by publisher *The Expense of Vision. Essays on the Craft of Henry James* Laura Virginia HOLLAND, 1964 [The expense of vision: essays on the craft of Henry James](#) Princeton, N.J. Princet Lawrence Bedwell Holland, **On Henry James** Louis J. Budd, Edwin Harrison Cady, 1990 From 1929 to the latest issue American Literature has been the foremost journal expressing the findings of those who study our national literature American Literature has published the best work of literary historians critics and bibliographers ranging from the founders of discipline to the best current critics and researchers The longevity of this excellence lends a special distinction to the articles in American Literature Presented in order of their first appearance the articles in each volume constitute a revealing record of developing insights and important shifts of critical emphasis Each article has opened a fresh line of inquiry established a fresh perspective on a familiar topic or settled a question that engaged the interest of experts **Henry James and the ideology of culture** , *Henry James and the Art of Impressions* John Scholar, 2020-05-21 Henry James criticized the impressionism that was revolutionizing French painting and fiction He satirized the British aesthetic movement whose keystone was impressionist criticism So why time and again in important parts of his literary work did James use the word impression Henry James and the Art of Impressions argues that James tried to wrest the impression from the impressionists and to recast it in his own art of the novel Interdisciplinary in its range philosophical and literary in its focus the book shows the place of James s work within the wider cultural history of impressionism It draws on painting philosophy psychology literature and critical theory to examine James s art criticism early literary criticism travel writing reflections on his own fiction and the three great novels of his major phase *The Ambassadors* *The Wings of the Dove* and *The Golden Bowl* It shows how the language of impressions enables James to represent the most intense moments of consciousness of his characters It argues that the Jamesian impression is best understood as a family of

related ideas bound together by James's attempt to reconcile the novel's value as a mimetic form with its value as a transformative creative activity *The Cambridge Companion to Henry James* Jonathan Freedman, 1998-05-28 The Cambridge Companion to Henry James provides a critical introduction to James's work Throughout the major critical shifts of the last fifty years and despite suspicions of the traditional high literary culture which was James's milieu he has retained a powerful hold on readers and critics alike All essays are written at a level free from technical jargon designed to promote accessibility to the study of James and his work *Victorian Contexts* Murray Roston, 1996-09-30 Examines how both artist and writer in the Victorian era responded to the shared challenges assumptions and dilemmas of their time often unaware that the same problems were being confronted in the kindred media The placing of such writers as Dickens G Eliot Hopkins and Henry James within the context of Victorian painting architecture and interior design offers fresh insights into their works as well as reassessments of such themes as the mid century representation of the Fallen Woman or the impact of commodity culture upon contemporary aesthetic standards *A Literary History of England Vol. 4* A. Baugh, Kemp Malone, 1959 **The House, the World, and the Theatre** Geraldo Magela Cáffaro, 2016-02-29 The House the World and the Theatre departs from three ideologically resonant spatial metaphors to explore key aspects of nineteenth century literature and culture At the centre of the discussion is the way authors fashioned themselves to cater to ever expanding audiences and to the new conditions of publishing The prefaces of Hawthorne Dickens and James illustrate the conflicts underlying the new forms of self definition in the nineteenth century and mediate the perception of authorship as a category that blurs the boundaries between social life and performance This book combines genre criticism new historicism literary history and contemporary perspectives in readings that show the imaginative quality of prefatory writing and the enduring relevance of canonical authors in the twenty first century
