The Experiment Of Life Science And Religion:

The Experiment of Life Trinity College (Toronto, Ont.),1983 **Science and Religion** J.W. Fennema,Paul Iain,2012-12-06 The world is increasingly becoming one It is at the same time one endangered ecosystem and one thriving market place with material and spiritual goods on competitive display And the good and evil things of life cannot easily be sorted out The world is becoming one also in the sense that it is better understood today than it was in earlier times that the material good and the spiritual good though seemingly belonging to different realms of fact defined by their respective modes of existence together constitute effectively one and the same reality the modern world of science technology computerized administration and power that calls upon humankind to struggle for a just participatory and sustainable society and to strive for a society of the future that will be the world over both long lived and worth living The Second European Conference on Science and Religion held on 10 13th March 1988 on the campus of the Universiteit Twente Enschede The Netherlands was meant to be a modest market place a forum where standpoints and opinions could be presented and criticized It was meant to offer an opportunity to meet and to make acquaintances in the expectation that the exchange of thoughts would lead to new conceptual horizons that would challenge what so far had been considered as hard fact or what until now had been looked upon as a distinctive feature of a well established view either of the kingdom of the sciences or of the realm of religion *The Art and Science of Sociology* Roland Robertson,John Simpson,2016-07-06 A festschrift honoring the work of Edward A Tiryakian consisting of a large number of essays Anglican Social Theology Malcolm Brown,2014-07-04 This volume commissioned by a group of Bishops in hard hit dioceses looks to develop strong theological foundations for local social action initiatives by churches especially for activists who are not familiar with the Church of England s tradition of social theology developed by William Temple and others a century ago Costly Communion ,2019-01-28 Costly Communion Ecumenical Initiative and Sacramental Strife in the Anglican Communion seeks to engage with Anglicanism s theological responses to the onset of the twilight of empire and to explore the diversity of Anglican sacramental and ecumenical controversies during the twentieth century From sacramental initiation and the doctrine of Eucharistic sacrifice to church order and the historic episcopate Costly Communion offers insights into Anglo Catholic and Evangelical attempts to resolve the divisions provoked by the impact of the Oxford Movement from the 1830s In its engagement with sub Saharan African contextualization of the Anglican moreover Costly Communion analyses the unanticipated threat that Anglican diversity now poses for the unity of the Anglican Communion Contributors are Jeff Boldt Jeremy Bonner Hugh Bowron Mark Chapman Colin Buchanan Ken Farrimond Joseph Galgalo Benjamin Guyer Charlotte Methuen Thomas Mhuriro Esther Mombo Zablon Nthamburi Kevin Ward Science, Religion and Reality Joseph Needham,1925 **Archbishop William Temple** Stephen Spencer,2022-07-31 Leadership is a growing preoccupation of the contemporary church but for some of the most inspiring examples of good leadership we need to go back not forwards

Archbishop William Temple is widely regarded as one of the most influential church leaders of the twentieth century In this book Stephen Spencer unpacks Archbishop Temple s life and legacy and the ways in which his leadership transformed society in remarkable ways From education to politics and from spiritual direction to leading the church through national crisis this book draws on Temple s biography to offer a unique and profound portrait of the kind of servant leadership the church needs today **Anglican Social Theology Today** Malcolm Brown,Alan Suggate,Jonathan Chaplin,Anna Rowlands,John Hughes,2014-07-25 In periods of recession churches frequently respond to social need in practical ways These responses are often driven by pastoral concern rather than a theology of church and society But without theological roots such social action can be vulnerable and episodic This volume commissioned by a group of Bishops in hard hit dioceses looks to develop strong theological foundations for local social action initiatives by churches especially for activists who are not familiar with the Church of England s tradition of social theology developed by William Temple and others a century ago In exploring what a renewed Anglican social theology might look like this also draws on the impact of Catholic Social Teaching and focuses on the core topics of multiculturalism economics family patterns ecology and other key issues

Christianity and Ecological Theology E. M. Conradie,2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa British Religion and the World Wars Clive Field,2019-05-08 Religion did much to shape contemporary British opinion and behaviour during the First and Second World Wars but it featured rather less in the initial historiography of either conflict The situation has changed considerably in the past half century with a steadily increasing number of academic and popular outputs on the religious aspects of the wars As key milestones in connection with the centenary of the First World War and the eightieth anniversary of the Second World War have occurred or approach it seems an appropriate time to take bibliographical stock This volume is the first to offer an in depth listing of modern literature in English and other European languages on British religion and the First and Second World Wars both on the home front and in combat zones Coverage extends to Judaism and alternative religion as well as Christianity More than 1 200 items are included comprising monographs book chapters journal articles and postgraduate theses They are arranged by subjects in separate sections on each war with cross references and a cumulative index of personal names Carefully compiled over several years by an accomplished religious historian and bibliographer the work will be an indispensable reference tool to those embarking on investigations into the religious landscape of Britain during the World Wars and those who wish to discover what has been written about their chosen field to date It will also help identify gaps in scholarship and encourage researchers to try and fill them
