The Eye's Mind Karen

Jacobs, 2018-09-05 *The Eye's Mind* significantly alters our understanding of modernist literature by showing how changing visual discourses techniques and technologies affected the novels of that period In readings that bring philosophies of vision into dialogue with photography and film as well as the methods of observation used by the social sciences Karen Jacobs identifies distinctly modernist kinds of observers and visual relationships This important reconception of modernism draws upon American British and French literary and extra literary materials from the period 1900 1955 These texts share a sense of crisis about vision's capacity for violence and its inability to deliver reliable knowledge Jacobs looks closely at the ways in which historical understandings of race and gender inflected visual relations in the modernist novel She shows how modernist writers increasingly aware of the body behind the neutral lens of the observer used diverse strategies to displace embodiment onto those others historically perceived as cultural bodies in order to reimagine for themselves or their characters a purified gaze *The Eye's Mind* addresses works by such high modernists as Vladimir Nabokov Virginia Woolf and more distantly Ralph Ellison and Maurice Blanchot as well as those by Henry James Zora Neale Hurston and Nathanael West which have been tentatively placed in the modernist canon although they forgo the full blown experimental techniques often seen as synonymous with literary modernism Jacobs reframes fundamental debates about modernist aesthetic practices by demonstrating how much those practices are indebted to the changing visual cultures of the twentieth century

The Eye's Mind Karen Jacobs, 2001 Introduction Modernism and the body as afterimage The eye's mind self detection in James's *The sacred fount* and Nabokov's *The eye* Two mirrors facing Freud Blanchot and the logic of invisibility From *Spyglass* to *Horizon* tracking the anthropological gaze in Zora Neale Hurston *One eyed jacks* and *three eyed monsters* visualizing embodiment in Ralph Ellison's *Invisible man* Spectacles of violence stages of art Walter Benjamin and Virginia Woolf's dialectic Modernist seductions materializing mass culture in Nathanael West's *The day of the locust* Postscript From *Our glass lake* photo graphic memory in Nabokov's *Lolita*

In the Eye's Mind R. Steven Turner, 2014-07-14 One of the most persistent controversies of modern science has dealt with human visual perception It erupted in Germany during the 1860s as a dispute between physiologists Hermann von Helmholtz Ewald Hering and their schools Well into the twentieth century these groups warred over the origins of our capacity to perceive space over the retinal mechanisms that mediate color sensations and over the role of mind experience and inference in vision Here R Steven Turner explores the impassioned exchanges of those rival schools both to illuminate the clash of theory and to explore the larger role of controversy in the development of science Controversy he suggests is constitutive of scientific change and he uses the Helmholtz Hering dispute to illustrate how polemics and tacit negotiation shape evolving theoretical stances Turner focuses on the arguments and issues of the dispute issues that ranged from the interpretation of color blindness and optical illusions to the therapeutic practices of clinical

ophthalmology As well he focuses on the personalities institutions disciplinary structures and methodological commitments that shaped the dispute including the schools rhetorical strategies He explores the incommensurability of the protagonists viewpoints and examines the reception of the theories and the changing fortunes of the schools Finally Turner traces the controversy into the twentieth century where the issues continue to inform the study of vision today Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Circular** ,1926 **Mind's Eye (Mind's Eye, #1)** Rebecca A.

Works from 1981-2015 Bridget Riley,2016-07-26 Bridget Riley s explorations of perception through form and color have made her into one of the most significant painters working today Since the early 1960s she has used elementary shapes lines circles curves and squares to create visual experiences that immediately draw the viewer in often triggering optical vibrations and illusions More recently Riley has shifted back to black and white in her large scale paintings marking a departure from her recent colored stripe paintings and a return to the palette of some of her earliest works Published on the

occasion of her 2015 solo exhibition at David Zwirner Bridget Riley Works 1981 2015 presents paintings from the last thirty four years of her career including images of Rajasthan a wall painting previously shown in Germany and England and exhibited for the first time in New York These dynamic reproductions begin with stripe paintings from the 1980s and end with a coda of sorts a return to black and white that ties back to her work from the 1960s but bear traces of Riley s deep engagement with color in the interim As critic ric de Chasse puts it in his essay for Riley s 2015 catalogue with Galerie Max Hetzler The black and white paintings not only enter into a dialogue with the 1960s works but take stock of every painting experience Riley has created during a long career Also included is a selection of the artist s works on paper taken together these complementary aspects of her practice over the past four decades reveal the astonishing variety she has achieved by developing and rediscovering different forms An essay by art historian Richard Schiff helps contextualize the developments in Riley s practice since the early 1980s and further emphasizes her influence and lineage as a painter Rounding out the publication are biographical notes by Robert Kudielka one of the artist s foremost critics With a career spanning six decades Bridget Riley remains one of the most exciting painters today and Bridget Riley Works 1981 2015 presents a selection of works from what may be her richest period to date
