The Marsh Lions The Story Of An African Pride:

The Marsh Lions Brian Jackman, Jonathan Scott, 2012 For five years Brian Jackman and Jonathan Scott followed the Marsh pride recording the daily drama of life and death in Kenya's finest big game country. In time they came to regard many of the lions as old and familiar companions: the irascible Notch and her half sister Shadow the misfit Mkubwa and the majestic Scar. These lions are real individuals whose lives intimately observed and illustrated offer a unique insight into the world of the African plain. Back cover

The Marsh Lions Brian Jackman, 2012 A bestseller when first published in 1982, *The Marsh Lions* portrays a vivid picture of life and death on the African savannah through the story of a pride of lions in Kenya's world famous Masai Mara game reserve. The story is essentially a true one. All the central characters are real and most of the incidents described actually happened. For five years Brian Jackman and Jonathan Scott followed the Marsh pride and their progeny painstakingly recording the daily drama of life and death on the African plains. In time they came to regard them as old and familiar friends and real individuals: the big resident males Scar, Brando and Mkubwa and three lionesses known as the Marsh sisters. Their lives together with the leopards and cheetahs that shared their wild paradise offer a unique insight into the unforgiving world of these magnificent carnivores. *The Marsh Lions* were the most successful group to be filmed for *Big Cat Diary*, the BBC's hugely successful TV series. With Jonathan Scott as co-presenter, *The Big Cat Diary* camera teams allowed millions of viewers to observe the ongoing saga of the Marsh pride at a time when lions are fast disappearing all over Africa. *The Marsh Lions* is a powerful reminder of what the world stands to lose if the big cats were to vanish forever and highlights the need to cherish the Mara as one of the most beautiful of the earth's wild places. This edition of the book includes a new chapter bringing the story up to date with the pride as it is now, alongside photos of the new lions. The book is illustrated with photographs and drawings by Jonathan and Angela Scott.

Humans and Lions Keith Somerville, 2019-07-10 This book places lion conservation and the relationship between people and lions both in historical context and in the context of the contemporary politics of conservation in Africa. The killing of Cecil the Lion in July 2015 brought such issues to the public's attention. Were lions threatened in the wild and what was the best form of conservation? How best can lions be saved from extinction in the wild in Africa amid rural poverty, precarious livelihoods for local communities and an expanding human population? This book traces man's relationship with lions through history from hominids to the Romans through colonial occupation and independence to the present day. It concludes with an examination of the current crisis of conservation and the conflict between Western animal welfare concepts and sustainable development thrown into sharp focus by the killing of Cecil the lion. Through this historical account, Keith Somerville provides a coherent evidence-based assessment of current human-lion relations, providing context to the present situation. This book will be of interest to students and scholars of environmental and African history, wildlife conservation, environmental management and political ecology as well as the general reader.

been successful in repopulating some ecosystems with breeding eagles Therefore despite the complexity of this relationship there may yet be hope for this unique species group frequently rated as the kings of birds and symbolic of human power ambition royalty nationality and even concepts of God It is hoped that this book will contribute to the further understanding of these unique and fantastic birds *African Wild Life* ,1985 *The African Wild Dog* Joshua Ross Ginsberg,David Whyte Macdonald,IUCN/SSC Candid Specialist Group,1997 Over the last 30 years the African wild dog population has declined dramatically Dogs have disappeared from 25 of the 39 countries where they were previously found and only 6 populations are believed to number more than 100 Today it is believed that only between 3 000 5 500 dogs remain in 600 1 000 packs with most to be found in eastern and southern Africa The dramatic reduction in their population is attributed to a number of factors including human population growth and activities deterioration of habitat and contact with domestic dogs and their diseases This Action Plan explores some of the reasons behind their disappearance and provides a number of proposed solutions split into 3 priority areas ranging from habitat management and conservation to monitoring domestic dogs **The Publishers Weekly** ,1983
